2013, allowed retired teachers to return to teaching in subject shortage areas on or after July 1, 2003 and ending no later than June 30, 2013, without impairing their retirement annuities. However, under HB 5285 both employee and employer contributions are now required. HB 5285 will also change the ending date of the employment from no later than June 30, 2013 to no later than June 30, 2018.

The Act also required the school district to first offer teaching positions in subject shortage areas to qualified teachers who had been honorably dismissed during the calendar year preceding the beginning of the school term for which it seeks to employ a retired teacher. Also, the school district must advertise its vacancy in a newspaper of general circulation for a period of at least 90 days during the 6 months preceding the beginning of the school term for which it seeks to employ a retired teacher in a subject shortage area.
