The current law does not specify requirements for this matter. Under HB 6030, as engrossed, all Systems, except for downstate police and firefighters pension funds, under the Pension Code shall check for deceased annuitants at least on a monthly basis by using commonly used methods including, but not limited to, the use of 1) a specialized third party entity for the identification of deceased persons, 2) data provided by the Social Security Administration, 3) data provided by the Department of Public Health's Office of Vital Records, or 4) any other method commonly used by other states to identify deceased persons.

This bill also amends the Vital Records Act that any information regarding the vital records shall become available at no cost to all systems, except for downstate police and firefighters pension funds, pursuant to the new provision associated with the identification of deceased annuitants.
