**COMMENT:** Currently, the City of Chicago offers group health benefits to annuitants and their eligible dependants through the City's health care plans. Premiums are set by the City, and the City pays 50% of the claims or premiums, whichever are applicable, and the remaining amount is paid by all annuitants participating in the plans. For annuitants who do not receive Medicare, the police pension fund pays a set amount to the City on behalf of each annuitant who chooses to participate in the City's health care plan, up to a maximum of \$85 per month. By statute, this amount will increase to \$95 per month beginning July 1, 2008 for non-Medicare retirees. For Medicare retirees, the pension fund pays to the city a maximum reimbursement of \$55 per month. Under current law, this amount will increase to \$65 per month beginning July 1, 2008. The health insurance payments are financed with current contributions on a pay-as-you-go basis. The pension fund does not maintain a separate account to pay for health insurance costs.

SB 2038 amends the Chicago Police Article of the Pension Code to provide that retirees of the Chicago Police Pension Fund will pay no higher health insurance premium and receive no lower benefits than active employee participants who have the same Medicare status, beginning on the effective date of this Amendatory Act.

The bill specifies this provision is a limitation on the concurrent exercise of home rule power under the Illinois Constitution.

SB 2068 amends the State Mandates Act to require implementation without reimbursement.
