INTRODUCTION

State statute requires the Office of Management and Budget to prepare and submit an assessment of the State's capital needs both current and five years forward (20 ILCS 3010/1). This is presented as part of the Governor's Budget. The Commission on Government Forecasting and Accountability, in turn, is statutorily required to submit a 5-year capital plan analysis based on this information by the first Wednesday of April each year (25 ILCS 155/3).

The Capital Plan Analysis is divided into two sections. The first part of the report uses the Governor's five-year capital expenditure plan, which lists projects to be funded from the FY 2007 appropriation request. This analysis is based on what is contained in the expenditure plan of the budget book and the Office of Management and Budget's proposed legislation. It is used as a basis for looking at the Governor's project priorities and should provide insight into what can be expected to occur if the Governor's budget recommendation is approved.

The second part of the report looks at how the Governor's FY 2007 recommended capital plan would affect the State's bonded indebtedness. It details the General Obligation and Build Illinois bond authorization available, the level of proposed bond sales, future debt issuance, and annual debt service. This report also shows the Governor's recommended appropriations for State capital needs. Although the FY 2003 Pension Obligation Bonds are not a part of the Capital Budget, they will be noted throughout the report since they impact the State's debt.

EXECUTIVE SUMMARY

- Current General Obligation (G.O) bond authorization is \$16.927 billion, with approximately \$2.619 billion unissued since January 31, 2006, while approximately \$686.8 million of Build Illinois' \$3.806 billion bond authorization remains unissued.
- The FY 2007 budget request for the capital program includes new appropriations of \$3.701 billion and reappropriations of \$7.884 billion. New appropriations represent 31.9% of the \$11.585 billion requested for FY 2007.
- The \$351 million in School Construction Funds proposed by the Governor would be part of a two-year plan, which includes a \$149 million supplemental in FY 2006. Authorization would have to be increased for the sale of additional bonds for school construction and an additional funding source may be needed.
- The Governor has proposed a 6-year \$3.3 billion Road Program, of which \$2.3 billion would be paid for by G.O. Transportation A bond sales, starting with a \$250 million supplemental in FY 2006 and a \$600 million appropriation in FY 2007. Also proposed is a 4-year \$425 million Mass Transportation program paid for from Transportation B bond funds, with a \$100 million FY 2006 supplemental and a \$102.2 million FY 2007 appropriation. Authorization would have to be increased for these programs.
- To date, the State has sold \$625 million in G.O. bonds for FY 2006 with an expected \$300 million sale in April for a total of \$925 million. Build Illinois bond sales will equal approximately \$200 million in FY 2006 with the first sale of \$65 million in March. The Governor's Capital Plan projects G.O. bond sales in FY 2007 of \$982 million and Build Illinois bond sales of \$275 million.
- As of January 31, 2006, the State had \$18.3 billion in General Obligation principal debt outstanding, estimated to be \$20.3 billion by the end of FY 2006. The Office of Management and Budget projects G.O. principal outstanding for FY 2007 to be approximately \$19.7 billion. State-Issued Revenue Bonds, which include Build Illinois and Civic Center bonds, have \$2.4 billion in outstanding debt for FY 2006, which will decrease to \$2.3 billion in FY 2007.
- Debt service for the G.O. portion of the capital program is expected to increase from an estimated \$1.153 billion in FY 2006 to \$1.193 billion in FY 2007. This is an increase of \$40 million or 3.5% in debt service payments. With Pension Obligation bond debt service included, FY 2006 payments will be \$1.649 billion and FY 2007 payments will be \$1.689 billion, an increase of \$40 million, or 2.4%.
- New appropriations from G.O. bond funds would total \$1.289 billion, the highest being for Transportation A (\$600.0 million) and School Construction (\$351.0 million). Transportation B would receive \$102.2 million, Capital Facilities \$65.1 million, and Coal and Other Energy Development \$7 million. There would be no new appropriations for Anti-Pollution projects.

FY 2007 RECOMMENDED CAPITAL APPROPRIATIONS

This section of the report is based on the Governor's five-year capital expenditure plan. Instead of using the Capital Budget released by the Governor's Office, the Commission used appropriations from the legislation introduced to implement the plan (HB 5740 and SB 3100 as introduced are identical). The capital projects are paid from several sources, such as bond funds, various revenue funds, and Federal/Trust funds. Bond funds used for FY 2007 include: Build Illinois, Capital Development, School Construction, Anti-Pollution, Coal Development and Transportation A and B funds. Table 2 shows the FY 2007 budget request for the capital program, which includes new appropriations of \$3.701 billion and reappropriations of \$7.884 billion, for a total of \$11.585 billion. The following tables breakout the amount of appropriations by fund type for FY 2006 and FY 2007:

TABLE 1:			
FY 2006 CAPITAL PROGRAM APPROPRIATIONS			
(\$ Millions)			
<i>FUND TYPE</i>	<i>NEW APPROPRIATIONS</i>	<i>REAPPROPRIATIONS</i>	<i>TOTAL</i>
Bond	1,413.0	2,478.1	3,891.1
Revenue	2,172.5	3,097.2	5,269.7
Federal/Trust	175.4	349.7	525.1
TOTAL	3,760.9	5,925.0	9,685.9

FY 2006 figures per the Governor's FY 2007 Capital Plan.

TABLE 2:			
FY 2007 CAPITAL PROGRAM REQUESTED APPROPRIATIONS			
(\$ Millions)			
<i>FUND TYPE</i>	<i>NEW APPROPRIATIONS</i>	<i>REAPPROPRIATIONS</i>	<i>TOTAL</i>
Bond	1,288.9	3,334.9	4,623.8
Revenue	2,251.6	4,131.8	6,383.4
Federal/Trust	160.4	417.1	577.5
TOTAL	3,700.9	7,883.8	11,584.7

Source: HB 5740 and SB 3100

The current FY 2006 new appropriations of \$3.761 billion represent 38.8% of the \$9.686 billion total capital appropriation request. Approximately \$3.701 billion, or 31.9%, of the \$11.585 billion requested for FY 2007 represents new appropriations for renovation or construction projects.

There have been no new appropriations requested from the General Revenue Fund since FY 2004.

The budget request for appropriations to the Capital Development Board (CDB) for capital projects, including new appropriations and reappropriations, totals \$1.088 billion from the following funds:

TABLE 3: FY 2007 CAPITAL DEVELOPMENT BOARD REQUESTED APPROPRIATIONS			
(\$ Millions)			
<i>FUND TYPE</i>	<i>NEW APPROPRIATIONS</i>	<i>REAPPROPRIATIONS</i>	<i>TOTAL</i>
Capital Development	\$0.3	\$514.2	\$514.5
School Construction	351.0	89.7	440.7
Build Illinois Bond	0.0	129.1	129.1
Asbestos Abatement	0.0	1.5	1.5
Tobacco Settlement	0.0	2.3	2.3
TOTAL	\$351.3	\$736.8	\$1,088.1

Approximately \$351.3 million, or 32.3%, of the \$1.088 billion requested for the CDB for FY 2007 represents new appropriations for the renovation or construction of facilities. The only new appropriations for the CDB are from the Capital Development Fund (\$0.3 million), and the School Construction Fund (\$351 million). The remainder of the Governor's request of new appropriations would be appropriated to specific agencies. In FY 2006 actual appropriations for CDB equaled \$692.5 million, including \$355.7 million in new appropriations.

CAPITAL PROJECTS BY AGENCY

The projects in this section are only those for which a new appropriation is being sought (reappropriations are not listed). For a complete list of new appropriations and reappropriations, per introduced HB 5740 and SB 3100, see Appendices II and III, respectively. Below are selected new capital projects receiving bond fund proceeds, listed by agency. Due to the changes in format of the Capital Budget presented by the Office of Management and Budget, the appropriations as they are to be spent over the five-year plan are not available. Therefore, the amounts presented (listed in \$1.0 million increments) will be the total required appropriations through FY 2011, in one lump sum. Some of the appropriation requests for these projects represent the entire cost of the project; for others, however, only a portion of the total amount recommended will be spent in FY 2007.

Agriculture

The Governor's capital budget request of \$0.8 million from the Agriculture Premium Fund is for various maintenance, repairs and construction projects at both the Springfield and DuQuoin State Fairgrounds.

Capital Development Board (CDB)

The Governor is requesting \$351.0 million in School Construction Funds for grants to schools and \$0.3 million in Capital Development funds for improving energy efficiency for the Capital Development Board. **The \$351 million in School Construction Funds proposed by the Governor would be part of a two-year plan, which includes a \$149 million supplemental in FY 2006. Authorization would have to be increased for the sale of additional bonds for school construction and an additional funding source may be needed.** For more information on the School Construction Program and its funding, see pages 10-11.

Central Management Services (CMS)

The Governor's recommendation of \$23.0 million in new appropriations for CMS comes entirely from the Capital Development Fund, with the main projects listed below:

<u>PROGRAMS</u> (\$ millions)	<u>FY 2007</u> <u>Total thru FY 2011</u>
• Timekeeping and Payroll System	\$10.0
• Information Technology infrastructure, including hardware/equipment	10.0
• Renovating State-owned property	2.0
• Expand/renovate Bio-Safety Laboratory for Dept. of Public Health	1.0

Commerce and Economic Opportunity (DCEO)

The \$103.0 million in new appropriations for DCEO comes primarily from the Build Illinois Bond Fund (\$92.0 million), while the remaining appropriations come from the Coal Development Fund (\$7.0 million) and the Port Development Revolving Loan Fund (\$4.0 million).

<u>PROGRAMS</u> (\$ millions)	<u>FY 2007</u> <u>Total thru FY 2011</u>
• Statewide: Prime Sites grants for economic development infrastructure	\$25.0
• Statewide: grants for Illinois Renewable Fuels Development	25.0
• Statewide: grants for Brownfield sites	15.0
• Illinois Science and Technology Park	15.0
• Argonne National Lab: Advanced Protein Crystallization Facility	7.0
• Statewide: Coal Demonstration Program	5.0
• Statewide: Port Development Revolving Loan Program grants	4.0
• Fermi National Accelerator Lab	3.0
• Statewide: for the development of other forms of energy	2.0
• IL Institute of Technology: Biomedical Research Complex	2.0

Environmental Protection Agency (EPA)

The Environmental Protection Agency would receive a total \$244.6 million, of which \$223.0 million would come from the Water Revolving Fund and \$21.6 million from the Build Illinois Bond Fund for the following programs:

<u>PROGRAMS (\$ millions)</u>	<u>FY 2007 Total thru FY 2011</u>
• Statewide: Water Pollution Control Revolving Loan Program	\$160.0
• Statewide: Drinking Water Loan Program	63.0
• Statewide: grants to State agencies for environment and natural resources	16.6
• Statewide: River Edge Redevelopment Zones (brownfields redevelopment)	5.0

Illinois Finance Authority

The Illinois Finance Authority would receive \$500,000 for loans to fire departments and protection districts from the Fire Truck Revolving Loan Fund.

Board of Higher Education (BHE)

The FY 2007 capital plan budget submitted by the Governor recommends \$80.0 million in new capital appropriations to BHE, \$50.0 million from the Build Illinois Bond Fund and \$30.0 million from CDF. The composition of BHE's capital budget is slightly different from that of the other State agencies. Portions of higher education's maintenance projects are funded through a Capital renewal program for repairs and maintenance, which allocates amounts statewide to the various State universities and the Illinois Community College Board (ICCB). The Enhanced Construction Program for ICCB, which will receive \$50.0 million, is an initiative to upgrade or replace temporary facilities that have outlived their useful life. The remaining \$30.0 million will go in lump sums to the ICCB and various State universities for miscellaneous capital improvements, in the amounts shown below:

<u>PROGRAMS (\$ millions)</u>	<u>FY 2007 Total thru FY 2011</u>
• Statewide: Illinois Community College Board: construction program	\$50.0
• Statewide: Illinois Community College Board	9.1
• University of Illinois, Urbana-Champaign	6.2
• University of Illinois, Chicago	4.2
• Southern Illinois University, Carbondale	2.4
• Northern Illinois University	1.7
• Illinois State University	1.5
• Western Illinois University	1.2
• Southern Illinois University, Edwardsville	1.1
• Eastern Illinois University	0.8
• Northeastern Illinois University	0.6
• Chicago State University	0.5
• University of Illinois, Springfield	0.3
• Governors State University	0.3

Military Affairs (DMA)

The Governor is requesting \$0.2 million for the Department of Military Affairs from the Illinois National Guard Armory Construction Fund for land acquisition and to construct parking facilities statewide.

Natural Resources

The Department of Natural Resources would receive almost \$83.0 million in new appropriations under the Governor’s capital plan, from various bond, federal/state trust funds and revenue funds. This amount includes \$10.0 million from the Capital Development Fund, \$7.4 million in federal/state trust funds, and an additional \$65.6 million from specific natural resource-related funds, such as: the Park & Conservation Fund, Wildlife & Fish Fund, State Boating Act Fund, Natural Areas Acquisition Fund, Open Space Land Acquisition & Development Fund, and Land & Water Recreation Fund, to name a few. Some of the big-ticket programs are listed below:

<u>PROGRAMS (\$ millions)</u>	<u>FY 2007 Total thru FY 2011</u>
• Natural Areas and Open Space Land Acquisition	\$28.0
• Dedicated Hunting and Fishing lands	15.0
• Illinois River Basin Conservation Reserve Enhancement Program	10.0
• Abandoned Mines (State & Federal)	7.5
• Outdoor Recreation Programs	6.2
• Parks and Trails (bike, recreational, snowmobile, & off-highway vehicles)	6.2
• Wildlife Conservation and Restoration (State & Federal)	4.5

State Police

The Governor is requesting \$1.8 million for the State Police from the CDF to pay for additions to the Chicago Forensic Laboratory and to the CODIS Laboratory in Springfield.

Transportation (IDOT)

The Governor has requested \$2.813 billion in new appropriations for IDOT from various funds. Appropriations include \$600.0 million in Transportation Series “A” Bond Funds and \$102.2 million from Transportation “B” Bond Funds. The State Construction Account Fund and the Road Fund would be appropriated in the amounts of \$235.0 million and \$1.694 billion, respectively. Federal Funds would make up approximately \$153.0 million of funding, while \$28.5 million would come from such funds as the Grade Crossing Protection Fund, State Rail Freight Loan Repayment Fund, and the Rail Freight Loan Repayment Fund.

The Governor has proposed a 6-year \$3.3 billion Road Program, of which \$2.3 billion would be paid for by G.O. Transportation A bond sales, starting with a \$250 million supplemental in FY 2006 and a \$600 million appropriation in FY 2007. Also proposed is a 4-year \$425 million Mass Transportation program paid for from Transportation B bond funds, with a \$100 million FY 2006 supplemental and a \$102.2 million FY 2007 appropriation. Authorization would have to be increased for these programs.

<u>PROGRAMS (\$ millions)</u>	<u>FY 2007 Total thru FY 2011</u>
• Statewide: transportation-related construction	\$2,424.2
• Federal/Local: financial assistance to airports	139.2
• Statewide: Formal Contracts (A) & (B)-Maintenance, Traffic & Physical Research	38.3
• Statewide road apportionments	35.8
• Grade Crossing protections/separations	24.8
• Federal/State grants for mass transit	116.0
• Township bridges	15.0
• Rail: freight and high speed (State & Federal)	3.7
• Disposal of hazardous materials	1.2
• Permanent Improvements to IDOT facilities	6.0
• Motorist Damage to Highway structures	5.5
• Pavement Preservation projects	3.0

FY 2007 BUDGET BOOK REVIEW: **TOPICS**

Debt Responsibility and Transparency

P.A. 93-0839 (SB 2206) set limits on debt and creates greater transparency through disclosure of bond deals from the Governor's Office of Management and Budget. Limitations are put on the following aspects of issuance:

Bond limit - No bonds may be issued if, in the next fiscal year after the issuance the amount of debt service on all then outstanding bonds would exceed 7% of the aggregate appropriations (excluding transfers out) from the general funds and the Road Fund for the fiscal year immediately prior to the fiscal year of issuance, unless consented in writing by the Comptroller and Treasurer.

The FY 2006 G. O. Debt Limit equals a maximum FY 2007 debt service of \$1.88 billion. As of the January 2006 G.O. bond sale, FY 2007 debt service is \$1.649 billion. This is a level of 6.13% using our debt limit equation. To reach the FY 2006 limit, the debt service (for FY 2007) on total additional FY 2006 bond sales must be less than or equal to approximately \$233.5 million. The total bond sale amount available for FY 2006 will fluctuate depending on the market interest rate at the time of sale. If the interest rate remains around 5.0%, it would be possible to sell around \$2.625 billion in bonds before reaching the debt limit, although the legislative authorization level to sell such an amount would have to be raised. The 7% limit may be surpassed if the Comptroller and Treasurer each consent in writing.

Cost of issuance limitations - Up to 0.5% cost of issuance shall include underwriter's fees and discounts, but not bond insurance, and is authorized provided that no salaries of State employees or other State office operating expenses shall be paid out of non-appropriated proceeds. The Office of Management and Budget is required to make detailed cost of issuance summaries available on its website and to the legislative leaders and staff, and to submit copies of all contracts for costs of issuance to CGFA. The Office of Management and Budget shall not contract with anyone who pays a contingent fee to a third party for promoting their selection and must wait 2 calendar years before contracting with a party who made a false certification of contingent fees.

Capitalized Interest -Removes the provision that allowed for capitalized interest.

Payment and Maturity - Bonds must be offered for sale with equal principal or mandatory redemption amounts, the first maturity occurring within the fiscal year in which the bonds are offered or within the next succeeding fiscal year, and maturing or subject to mandatory redemption each fiscal year thereafter up to 25 years in maturity (maturity was 30 years).

Competitive and Negotiated Sales - No more than 75% of bond sales, based on total principal amount, may be sold by negotiated sale within each fiscal year.

Refunding bonds - All bonds in an issue that include refunding bonds must mature no later than the final maturity date of the bonds being refunded. No refunding bonds shall be sold unless the net present value of debt service savings is 3% or more of the principal amount of the refunding bonds to be issued. The refunding principal maturing and redemption amounts due shall be greater than or equal to the principal maturing and redemption amounts of the bonds they are refunding.

"Truth in borrowing disclosures" are now required upon bond issuance, including principal and interest payments to be paid on the bonds over the full stated term and total principal and interest to be made each fiscal year on all other outstanding bonds issued over the full stated terms of those bonds. Since the beginning of FY 2005, the Office of Management and Budget has provided the Commission on Government Forecasting and Accountability the above disclosures and has posted these on the Office of Management and Budget's website.

Certificates of Participation - The State shall not enter into any third-party vendor or other arrangement relating to the issuance of certificates of participation (COPs) or other forms of financing relating to the rental or purchase of office or other space, buildings, or land unless otherwise authorized by law.

The following table shows that the Office of Management and Budget has followed the debt responsibility measures since the law was passed. **In FY 2005, 32.6% of G.O. bonds and 37.5% of Build Illinois bonds were sold competitively. In FY 2006 OMB plans on selling a total of \$925 million in G.O. bonds. With the competitive September bond sale of \$300 million, the amount of competitive G.O. bond sales would be 32.4%, which is above the required minimum of 25%.**

Debt Responsibility Measures						
FY 2005	Cost of Issuance Limit 0.50%	Capitalized Interest	Maximum 25 yr. Maturity	Negotiated or Competitive Sale	Level principal	Annual maturity or mandatory redemption
G.O. September 2004- \$285 million	0.28%	no	√	Competitive	√	√
G.O. November 2004- \$275 million	0.35%	no	√	Negotiated	√	√
Build IL February 2005- \$75 million	0.37%	no	√	Competitive	√	√
G.O. April 2005- \$315 million	0.36%	no	√	Negotiated	√	√
Build IL June 2005 - \$125 million	0.42%	no	√	Negotiated	√	√
FY 2006						
G.O. September 2005 - \$300 million	0.33%	no	√	Competitive	√	√
G.O. January 2006 \$325 million	0.34%	no	√	Negotiated	√	√

School Construction Update

The School Construction Grant Program received no new appropriations in FY 2005, and will receive \$18.0 million in FY 2006, although the Governor is also requesting a \$149.0 million supplemental for FY 2006. The Governor's proposed FY 2007 capital plan would appropriate \$351.0 million in FY 2007. Applications requesting grants continue to come in to the State Board of Education unsolicited.

Applications per Fiscal Year	1998	1999	2000	2001	2002	2003	2004	2005	2006
Applications Received	57	197	157	166	204	94	48	92	29
Applications Entitled*	53	161	131	148	97 [ⓐ]	8 [†]	7 [†]	4 [†]	2 [†]

*"Entitlement signifies that a district has demonstrated a need and is eligible for a grant should sufficient funds be appropriated." (Source: Illinois State Board of Education)

[ⓐ]There were 191 applications entitled in 2002, but approximately 1/2 were not able to secure their local share and were moved into the 2003/2004 cycles.

[†] FY 2003 through 2006 entitlements are suspended except for emergency situations. This amount denotes estimated emergency situations.

Public Act 92-0598, which was signed into law at the end of FY 2002, increased School Construction authorization by \$930 million. FY 2003 and FY 2004 appropriations of \$500 million each, allowed for the funding of 87% of the entitled FY 2002 projects. Of the 97 entitled applications in FY 2002, 24 projects remain on the list (Chicago gets 20% of total funding spent) and have not received funding. The School Construction Fund receives a portion of general obligation bond sale proceeds, which are sold as needed for the approved construction projects. Grant amounts to schools for construction projects and costs are paid out of this fund.

Appropriation from School Construction Fund by Fiscal Year										
(Millions)	1998	1999*	2000*	2001	2002	2003	2004	2005	2006 [°]	2007 est.
Appropriation	\$30	\$260	\$500	\$500	\$740	\$500	\$500	\$0	\$167	\$351

*Adjusted to amounts appropriated only for the \$3.05 billion School Construction program.

[°]FY 2006 appropriations are \$18 million. The FY 2006 amount shown would include the Governor's requested supplemental of \$149 million.

Note: FY 2006 and 2007 estimates are from the Governor's FY 2007 Capital Plan.

Debt service on School Construction bonds is paid for by transfers from the School Infrastructure Fund. This fund receives transfers from the General Revenue Fund in the amount of \$60 million a year (approximately 75% of the additional liquor tax increase from IL FIRST), \$60 million a year from the cigarette tax (\$5 million a month from the cigarette tax increase enacted in FY 2002 which began April 1, 2003), and 1/7th of the 7% Telecommunications Excise tax from the School Reform Act. The telecom revenues fell to under \$100 million in FY 2003 and have not recovered. Whenever this amount falls under the 1999 level of \$101 million, GRF backfills the

amount needed. Backfill amounts from GRF have occurred in FY 2004 (\$11.8 million), FY 2005 (\$2 million), and will occur in FY 2006. As the annual liquor and cigarette tax revenues deposited into the School Infrastructure Fund are set amounts, the telecommunications tax revenues become the main factor in determining if revenues will cover School Construction debt service.

School Infrastructure Fund										
(\$ in Millions)	1998	1999	2000	2001	2002	2003	2004	2005	2006 [†]	2007 [†]
Telecom Tax	\$35.2	\$101.5	\$108.5	\$114.9	\$110.4	\$89.7	\$79.1	\$79.9	\$76.9	\$76.9
Liquor Tax/ GRF	----	----	\$30.0	\$60.0	\$0.0*	\$0.0*	\$71.8	\$62.0	\$65.3	\$60.0
Cigarette Tax	----	----	----	----	----	\$15.0	\$60.0	\$60.0	\$60.0	\$60.0
TOTAL	\$35.2	\$101.5	\$138.5	\$174.9	\$110.4	\$104.7	\$210.9	\$199.9	\$202.2	\$196.9

Note: Commission on Government Forecasting and Accountability estimates.

**The liquor tax transfer was suspended for FY 2002 and FY 2003 as part of the budget agreement.*

† The FY 2006 and FY 2007 are CGFA estimates.

Funds are transferred monthly from the School Infrastructure Fund to the General Obligation Bond Retirement and Interest Fund to pay for the school construction portion of debt service. The following table shows the debt service on school construction bonds tied to transfers from the School Infrastructure Fund.

Transfer from School Infrastructure Fund to G.O. Bond Retirement & Interest Fund

†The FY 2006 and FY 2007 amounts are CGFA estimates.

CGFA estimates \$196.9 million in revenues and \$235.0 million in debt service for FY 2007. Since performance of the telecommunications tax is not expected to improve, the State may have to dip into the General Revenue Fund to pay the shortage in debt service. Since School Construction bonds are general obligations of the State they would normally be paid from the General Revenue Fund, but over the years, whenever the School Construction Program has been expanded, the State has added specific revenue streams to help pay for the increase in funding.

The Governor is requesting a \$351.0 million School Construction Program for FY 2007, plus a \$149.0 million supplemental for FY 2006. Authorization would have to be increased for any additional School Construction funding. If increases are approved, the twenty-four FY 2002 projects would receive money first since they have actually been entitled. Applications for FY 2003 and after will have to go through the entitlement process before funds are appropriated.

Metropolitan Pier and Exposition Authority (MPEA)

There are two categories of bonds sold by the MPEA. The McCormick Place Dedicated State Tax Revenue bonds get transfers from the Build IL Fund for annual debt service (portions of State's sales tax, hotel tax and vehicle use tax). The McCormick Place Expansion Bonds are paid for from Chicago-related taxes: the airport departure tax, automobile renting tax, hotel tax, and local restaurant sales tax. In the event that the funds for Expansion Bonds are not sufficient, a backup pledge of sales tax revenue from the Build Illinois Fund may be used, up to a certain amount as stated in the sales tax acts (see table on following page).

The funds available from the backup pledge of sales tax on the Expansion Project bonds have only been used in a borrowing situation and have been paid back, \$18 million in FY 2004 and \$28 million in FY 2005. But the MPEA foresees a need to use a portion of this pledge for debt service in FY 2006—they would borrow approximately \$38 million in FY 2006 and pay back \$34 million.

McCormick Place Expansion Bonds Back-up Maximum (in millions)	
FY 2003	\$99.0
FY 2004	\$103.0
FY 2005	\$108.0
FY 2006	\$113.0
FY 2007	\$119.0
FY 2008	\$126.0
FY 2009	\$132.0
FY 2010	\$139.0
FY 2011	\$146.0
FY 2012	\$153.0
FY 2013	\$161.0
FY 2014	\$170.0
FY 2015	\$179.0
FY 2016	\$189.0
FY 2017	\$199.0
FY 2018	\$210.0
FY 2019	\$221.0
FY 2020	\$233.0
FY 2021	\$246.0
FY 2022	\$260.0
FY 2023-2042	\$275.0

Constraints on revenues again in FY 2005 cut down on surpluses and affected funds available to pay debt service. The Authority tax fund balance has been drawn down from \$29.6 million at June 30, 2001, to approximately \$5.7 million at June 30, 2005. The Authority tapped \$30 million from their rolling reserve fund to help pay the almost \$127 million in debt service (for both Dedicated and Expansion bonds) in FY 2005, leaving only a \$3 million balance in that fund.

Total Debt service for Dedicated and Expansion bonds for the next four years is as follows:

FY 2006	\$133.6 million
FY 2007	\$139.5 million
FY 2008	\$157.6 million
FY 2009	\$163.5 million

Expansion bond debt service increases each year through FY 2023, and the fear is that tax collections will not recover at the needed pace for the annual increases in debt service, and the State backup pledge will have to be tapped. Debt service will level off in FY 2023, and at some point in the future tax collections should come back and the Authority could try to pay back amounts borrowed from the State (normally surplus revenues would be used for capital maintenance). The MPEA is working with the Office of Management and Budget and the legislature to possibly restructure future MPEA debt to resolve this problem.

Total Authority assets decreased by \$119 million from FY 2003 to FY 2004, with the total net deficit increasing by \$124 million. Although some operating expenses were cut by reworking a Navy Pier catering contract and laying off 70 of the 737 McCormick Place and Navy Pier employees, revenues were down \$86 million in FY 2004 due to a decline in attendance, loss of shows and investment losses. Calendar year 2005 was a slow year for shows, but the 2006 schedule looks to increase space booked to a level higher than 2001, but not quite up to the level in 2000.

Illinois State Toll Highway Authority

The Illinois State Toll Highway Authority's new 10-year plan includes the first restructuring of tolls since 1983. Under the 10-year plan, ninety percent of the 274-mile Tollway would be reconstructed and resurfaced using continually reinforced concrete. Most of the roads that need to be rebuilt would also be widened to add capacity. Another priority would be to convert the entire mainline system to I-PASS only lanes. The I-355 extension will be constructed (state and federal permits and approvals would lapse if construction doesn't begin by 2007). Tollway will also construct a 6-lane facility as its local share of the O'Hare bypass project, creating western access to O'Hare.

This 10-year plan is expected to cost \$5.3 billion, using \$2.9 billion in bond revenues and \$2.4 billion pay-as-you-go funding. There is no dollar amount limit on the Authority's bonding, with a 25-year maximum maturity allowed [605 ILCS 10/17]. Tollway bonds are not backed by the State, but the Governor must approve bond sales.

A report by Fitch Ratings, *Redefining Toll Roads: An American Challenge*, March 4 2003, states that Illinois' toll road needs major reinvestment.

“...The deferral of major capital improvements creates a concern for the management of future expenditure and debt levels. While the Authority is in excellent financial position with which to embark upon a capital reinvestment phase for its mature facilities, the outcome of future reviews could well hinge on its ability to implement such a plan...While the current rating level (AA-) anticipates the need for additional debt service issuance, a series of toll rate increases, and lower debt service coverage from recent levels, it does not anticipate the continued absence of long-term capital reinvestment. The longer the plan is deferred, the more expensive it becomes.”

As of June 30, 2005, the Tollway's outstanding principal was \$1.427 billion, after selling \$770 million of bonds in June. S&P affirmed its AA- rating of the Authority's debt due to the conservative estimates of revenues which account for diversions in traffic, and their ability to increase tolls as needed. Moody's raised its rating to Aa3 from A1, citing the clear financing plans for the capital project. Fitch, who rates the Tollway's debt AA-, changed their outlook from negative to stable since the Tollway has lowered its revenue projections and debt service projections for 2005 while still being able to cover expenditures and maintain a reasonable 2.0x (times) coverage of debt service. The Tollway plans to sell another \$700 million in bonds in 2006.

Final principal payment on previous outstanding bonds is due on January 1, 2017, while the debt on the new bonds will be paid off January 1, 2023. Following is the current debt service of the Tollway.

Current Toll Highway Bond Debt Service			
(in millions)			
Year Ending January 1	Debt Service on Outstanding Bonds	Debt Service on \$770 million	Total Debt Service
2006	\$79.6	\$19.7	\$99.4
2007	\$79.7	\$37.6	\$117.3
2008	\$79.9	\$37.6	\$117.5
2009	\$80.0	\$37.6	\$117.6
2010	\$70.0	\$37.6	\$107.6
2011	\$72.2	\$37.6	\$109.8
2012	\$72.2	\$37.6	\$109.8
2013	\$72.2	\$37.6	\$109.8
2014	\$72.2	\$71.0	\$143.2
2015	\$72.2	\$71.0	\$143.2
2016	\$72.1	\$71.0	\$143.1
2017	\$72.2	\$71.0	\$143.2
2018		\$122.9	\$122.9
2019		\$122.9	\$122.9
2020		\$122.9	\$122.9
2021		\$122.9	\$122.9
2022		\$122.9	\$122.9
2023		\$122.9	\$122.9
TOTAL	\$894.5	\$1,304.30	\$2,198.9

According to the Illinois Toll Highway Authority, the Tollway has lowered its expectations of 2005 revenues including higher toll rates (in effect as of January 1, 2005) to \$618 million, down from the initial expectation of \$650 million. Toll revenues and evasion recovery were to bring in \$638 million in FY 2005, but are now expected to bring in only \$580 million. The reduction in revenues is attributed to the quicker than expected transfer of cars to the electronic I-Pass system, which had no increase in tolls. Cars paying cash did see an increase in tolls, so many switched to the I-Pass system, therefore lowering expected toll revenues because fewer cars are paying the increased toll amount. The Traffic Engineers for the Tollway, Wilbur Smith and Associates, have made adjustments to their toll revenue analysis to reflect this change. However, this loss in expected revenue is offset by the fact that fewer trucks diverted their routes from the Tollway than was expected, increasing expected revenue in that line. FY 2006 revenues are estimated to be \$624 million, of that \$603 million would be from toll revenues.

Lower revenues are offset by lower debt service than expected. FY 2005 budgeted for \$120 million of debt service to pay on outstanding debt and a \$1 billion sale of bonds. Bonds sold equaled \$770 million, and debt service only \$99 million. In FY 2006, another \$700 million in bonds will be sold, and FY 2006 debt service will increase to approximately \$130 million (\$117 million for principal and \$13 million for interest). Expected net revenues of \$404 million available to pay debt service will give debt service coverage of 3.1 times. During FY 2006 the Tollway expects to spend \$1.2 billion on its capital program.

STATE DEBT

Authorization

General Obligation bonds are seen as the most secure type of bond issuance by any government because they carry the pledge that the government will pay the bondholders from any and all revenues. States wishing to issue debt to aid in their budget crises have begun to use the G.O. pledge in new areas to make the sale of certain types of bonds more attractive in the current market. Illinois is no different, having legislated G.O. authorization for Tobacco “Securitization” bonds and more recently Pension Obligation Bonds. With these changes in the General Obligation arena, authorization has become more complicated. Below are authorization levels including legislative changes made over the past years to the General Obligation Bond Act:

(in billions)	New Projects	Tobacco	Pension Systems	Subtotal	Refunding	Total
May 2000	\$14.198	N/a	N/a	\$14.198	\$2.839	\$17.037
June 2001	\$15.265	N/a	N/a	\$15.265	\$2.839	\$18.104
June 2002	\$16.908	\$0.750	N/a	\$17.658	\$2.839	\$20.497
April 2003	\$16.908	\$0.750	\$10.000	\$27.658	\$2.839	\$30.497
January 2004	\$16.927	\$0.0	\$10.000	\$27.677	\$2.839	\$29.766

The current General Obligation bond authorization for new projects is \$16.927 billion, with approximately \$2.619 billion unissued since January 31, 2006. The \$10 billion of authorization for Pension Obligation Bonds was sold all in one issuance in June 2003, while Tobacco “Securitization” bond authorization has expired.

Total Build Illinois bond authorization equals \$3.806 billion with \$686.8 million remaining unissued as of January 31, 2006. Timing of the issuance of bonds is dependent on construction schedules. There is no refunding limit placed on Build Illinois bonds.

The Build Illinois program began in 1985 as a \$1.3 billion economic development initiative composed of \$948 million in bonds and \$380 million in current funding. Since that time, the bond program has been expanded and authorization increased several times:

YEAR	PUBLIC ACT	INCREASE
1999	91-0039	\$754 Million
2000	91-0709	61.0 Million
2001	92-0009	688.7 Million
2002	92-0598	264.8 Million

The following table lists the General Obligation and Build Illinois bond authorization levels per statute, what has not been issued, and the remaining authorization “Available” after expected FY 2006 appropriations, as of January 31, 2006.

(in billions)	Authorization	Un-Issued	Appropriated†	Available after appropriations
Capital Facilities	\$7.320	\$1.223	\$7.648	-\$0.328
School Construction	\$3.150	\$0.238	\$3.100	\$0.050
Anti-Pollution	\$0.480	\$0.023	\$0.475	\$0.005
Transportation A	\$3.432	\$0.208	\$3.495	-\$0.063
Transportation B	\$1.882	\$0.361	\$1.859	\$0.022
Coal Development	\$0.663	\$0.566	\$0.175	\$0.488
Subtotal	\$16.927	\$2.619	\$16.752	\$0.174
Tobacco bonds	\$0.750	\$0.750	\$0	\$0
Pension bonds	\$10.000	\$0	\$10.000	\$0
Total	\$27.677	\$3.369	\$26.752	\$0.174
	Limit	Un-Issued	Outstanding	
Refunding°	\$2.839	\$1.003	\$1.836	\$1.003
	Authorization	Un-Issued	Appropriated†	
Build Illinois	\$3.806	\$0.687	\$3.979	\$0.173
	Limit	Un-Issued	Outstanding	
Build IL Refunding	Unlimited	N/a	\$0.822	Unlimited

Source: Illinois Office of the Comptroller, “Recap of General and Special Obligation Bonded Indebtedness and Update of Comparisons of General and Special Obligation Bond Activity”

†Includes cumulative expenditures for prior years up through FY 2005 and FY 2006 appropriations and reappropriations.

*Only \$7 million of the School Construction Fund “available” is for the \$3.05 billion School Infrastructure Program, while bond premium amounts can be used for this program.

°Refunding is limited only by how much is outstanding at one time. As principal amounts are paid off, those amounts become available for future refundings.

Note: This chart does not include premiums since it has not been decided whether they will be counted for or against authorization.

As shown by the table above, Capital Facilities and Transportation A bond authorization have already been over-appropriated (excluding premiums) by \$328 million and \$63 million, respectively, in FY 2006. In the Capital Budget Plan, the Governor also promotes a FY 2006 supplemental for School Construction [\$149 million], Transportation A [\$250 million] and Transportation B [\$100 million] as part of multi-year programs. **The Capital Plan requests \$351.0 million for the School Construction Program, a \$2.3 billion 6-year bond program for roads (Transportation A) with a \$600 million appropriation in FY 2007, and a 4-year mass transit program (Transportation B) with a \$102.2 million appropriation in FY 2007. G.O. bond debt authorization would have to be increased by the legislature for all three of these programs to occur. The FY 2006 supplemental request or FY 2007 appropriations request will push the School Construction and Transportation B categories past their authorization levels. For FY 2006 supplemental and FY 2007 appropriations to be met, G.O. bond authorization would have to be increased approximately \$1.936 billion, and for the entire amount of these multi-year programs, authorization would have to be increased a total of \$3.216 billion.**

Bond Sales

The State's capital program is, in part, financed through the issuance of general obligation bonds, which are backed by the full faith and credit of the State. To date, the State has sold \$625 million in G.O. for FY 2006 with an expected \$300 million sale in April for a total of \$925 million. Build Illinois bond sales will equal approximately \$200 million in FY 2006 with the first sale of \$65 million in March. The Governor's Capital Plan projects G.O. bond sales in FY 2007 of \$982 million and Build Illinois bond sales of \$275 million. There have been no refunding bond issues since FY 2004.

Debt Outstanding

The following sections for principal outstanding and debt service will have a separate listing concerning the \$10.0 billion in Pension Obligation bonds, since they are not a part of the capital plan but do affect the State's outstanding debt and bond rating.

The State's capital program is primarily financed through the issuance of General Obligation bonds. General Obligation bonds are backed by the full faith and credit of the State. As of January 31, 2006, the State had \$18.3 billion in General Obligation principal debt outstanding (including Pension Obligation bonds and excluding refunding), estimated to be \$20.3 billion by the end of FY 2006. The Office of Management and Budget projects G.O. principal outstanding of \$19.7 billion for FY 2007. State-Issued Revenue Bonds, which include Build Illinois and Civic Center bonds, have \$2.4 billion in outstanding debt for FY 2006, which will decrease to \$2.3 billion in FY 2007.

Chart 2 indicates that at the end of FY 2002, principal outstanding was \$9.5 billion. Total outstanding State-supported principal for FY 2003 increased to \$20.8 billion, a 118.1% increase over the FY 2002 level, due to the sale of the \$10.0 billion Pension Obligation Bonds. Without the Pension Obligation Bonds, debt would have increased to \$10.8 billion, an increase of 13.3%. FY 2004 increased to \$21.8 billion (up 4.8%) and FY 2005 to \$22.2 billion (up 1.8%), respectively. Estimates for FY 2006 would increase outstanding principal to \$22.7 billion up 2.2%, while the FY 2007 estimate would decrease principal outstanding to \$22.0 billion, down 3.1% from the previous year.

Debt Service

Total FY 2006 Debt Service for both G.O. (broken out below) and State-Issued Revenue (see chart on page 23) bonds combined, excluding Pension Obligation Bonds, is expected to be \$1.408 billion, of which \$685.4 million is principal and \$722.1 million is interest. Total FY 2006 Debt Service will be \$1.904 billion when including the Pension Obligation Bond interest of \$496.2 million. FY 2007 Debt Service excluding Pension Obligation Bonds is estimated to be \$1.471 billion, which would pay off approximately \$711.7 million in principal and \$759.2 million in interest. FY 2007 Debt Service will be \$1.967 billion when including POB interest of \$496.2 million.

Based on expected general obligation bond sales, debt service for the G.O. (see Chart 3 below) portion of the capital program is expected to increase from an estimated \$1.153 billion in FY 2006 to \$1.193 billion in FY 2007. This is an increase of \$40 million or 3.5% in debt service payments. With Pension Obligation bond debt service included, FY 2006 payments will be \$1.649 billion and FY 2007 payments will be \$1.689 billion, an increase of \$40 million, or 2.4%. Pension Obligation bond debt service is listed separately as it is not a part of the capital plan. A copy of the POB debt service is located at the end of this section.

As shown in Chart 3, FY 2006, G.O. debt service will consist of \$565.2 million in principal, \$588.0 million in interest, and \$496.2 million in POB interest. The debt service payment for FY 2007 would be comprised of approximately \$574.5 million in principal, \$618.5 million in interest, and \$496.2 million in POB interest.

G.O. debt service is paid from the General Obligation Bond Retirement and Interest Fund, which receives transfers from the Road Fund (for Transportation A/highways), the School Infrastructure Fund, and the General Revenue Fund. In FY 2006, the Road Fund supported \$258.5 million (22.4%) of G.O. debt service, the School Infrastructure Fund \$225.9 million (19.6%) and the General Revenue Fund \$668.8 million (58.0%). In FY 2006, Pension Obligation Bonds received \$427.0 million from the General Revenue Fund and \$69.2 million from SERS from other funds that pay into the SERS pension system.

In FY 2007 it is estimated that \$255.0 (21.4%) million of G.O. debt service would come from the Road Fund, \$235.0 (19.7%) million from the School Infrastructure Fund, and \$703.0 million (58.9%) from the General Revenue Fund for capital projects. In FY 2007 it is expected that the General Revenue Fund will pay \$427.0 million and SERS will pay \$69.2 million from other funds for Pension Obligation Bonds.

(\$ Millions)	FY 2003 Amount	FY 2004 Amount	FY 2005 Amount	FY 2006 Amount	FY 2006* % Of Total	FY 2007 Amount	FY 2007* % of Total
Road Fund	\$215.0	\$192.7	\$237.5	\$258.5	22.4%	\$255.0	21.4%
School Infrastructure Fund	129.5	155.2	196.7	225.9	19.6%	235.0	19.7%
General Revenue Fund	628.9	583.4	664.5	668.8	58.0%	703.0	58.9%
SUBTOTAL	\$973.4	\$931.3	\$1098.7	\$1,153.2	100.0%	\$1,193.0	100.0%
General Revenue Fund for POBs	0.0		360.0	427.0	N/A	427.0	N/A
Capitalized Interest from POB proceeds		481.0					
Other Funds for POBs* (*per SERS' certification)			136.2	69.2		69.2	
TOTAL	\$973.4	\$1,412.3	\$1,594.9	\$1,649.4	N/A	\$1689.2	N/A

**Estimates for Road, School Infrastructure and GRF for capital projects are from the Office of Management and Budget. Estimates for Pension Obligation Bonds are from CGFA.*

Interest on the Pension Obligation Bonds was \$481.0 million in FY 2004 and \$496.2 million in FY 2005 through FY 2007. Public Act 93-0839 required SERS to collect and pay a total of \$136.2 million in FY 2005 for POB debt service. This change occurred so that GRF would not have to pay all of the interest on bonds which funded systems that are also supported by other State funds. Of this amount, approximately \$69.2 million will be paid from employer contributions to SERS for FY 2005 debt service. The remaining \$67 million in FY 2005 is to “repay” the General Revenue Fund for FY 2004 interest on Pension Obligation Bonds, even though this interest was capitalized (paid from the bond proceeds). The FY 2006 and FY 2007 payments from SERS will be \$69.2 million each, which they will have collected from other funds to put towards Pension Obligation Bonds debt service. The POB debt service schedule is on the following page, and a more detailed explanation of the changes to POB debt service payments is in Appendix I.

Table 8: Pension Obligation Bonds Debt Service			
FY ending June 30	Principal	Interest	Total FY Debt Service
2004	\$0	\$481,038,333	\$481,038,333
2005	0	496,200,000	496,200,000
2006	0	496,200,000	496,200,000
2007	0	496,200,000	496,200,000

Source: \$10.0 billion G.O. Bonds Pension Funding Series of June 2003 Official Statement (Governor's Office of Management and Budget)

Chart 4 shows debt service for State-issued Revenue (Build Illinois and Civic Center) bonds. FY 2006 debt service will be approximately \$254.3 million, an increase of 8.4% from the FY 2005 level. FY 2007 is estimated to be \$277.9 million, an increase of 9.4% over the FY 2006 level.

Fiscal Year 2006 debt service for Build Illinois bonds is expected to be \$240.4 million, comprised of \$113.4 million in principal payments and \$127.0 million in interest. FY 2007 Build Illinois debt service payments are estimated to be \$264.0 million, of which \$130.0 million will be for principal payments and \$134.0 million for interest payments.

Debt service for Civic Center bonds in FY 2006 will total \$13.9 million with the principal portion equaling \$6.8 million and interest payments equaling \$7.1 million. Civic Center bonds debt service payments for FY 2007 will be approximately \$13.9 million, comprised of \$7.2 million in principal and \$6.7 million in interest.

Appropriations

The estimated FY 2007 capital appropriations from general obligation bond funds would total approximately \$3.595 billion. This total includes \$1.125 billion in new general obligation appropriations, an increase of 46.5% over FY 2006 levels. The annual appropriations from FY 1998 to the recommended FY 2007 amounts are illustrated in Chart 5.

Charts 6 and 7 provide additional information on the requested General Obligation appropriations for FY 2007, broken down by bond fund. Chart 6 shows the approximate percentages each bond fund represents of the total appropriation request (including both new and reappropriations). As shown in this chart, the \$1.689 billion for Capital Development comprises 47.0% of the total. Transportation A is the second largest segment of general obligation appropriations, funded at \$836.7 million (23.3%). The next two largest portions are School Construction and Transportation B, with \$490.8 million (13.7%) and \$474.6 million (13.2%), respectively. Coal Development appropriations would be approximately \$87.6 million (2.4%), while Anti-pollution appropriations would represent \$16.6 million (0.5%) of the total.

Chart 7 shows the requested appropriations broken down by categories into new and reappropriations. The Governor’s FY 2007 Capital Budget requests new G.O. bond fund appropriations totaling \$1.289 billion for all general-purpose categories. New appropriations would be highest for Transportation A [\$600.0 million] and School Construction [\$351.0 million]. Transportation B would receive new appropriations of \$102.2 million. New appropriations for Capital Facilities would be \$65.1 million, and \$7 million for Coal and Energy Development. There would be no new appropriations for Anti-Pollution projects.

Appropriations in FY 2007 from the Build Illinois Bond Fund would be \$1.028 billion, of which new appropriations would be approximately 163.6 million.

The total appropriations request for FY 2007 from all bond funds combined is \$4.624 billion, which is an 18.8% increase from the FY 2006 level of \$3.891 billion. Chart 8 shows the amount of new appropriations versus reappropriations of all bond funds combined for fiscal years 1998 through 2007. Reappropriations are unused funds appropriated in a previous fiscal year that are being tapped for use in the current fiscal year. As the chart shows, fiscal years 2000 through 2002 showed new appropriations above the \$2.0 billion mark. In FY 2003 new appropriations dipped below that level and they have declined each year (excluding FY 2005 when there were basically no new appropriations at all). The Governor is requesting \$1.289 billion in new appropriations from all bond funds in FY 2007.

APPENDIX I

Pension Obligation Bond Payment Changes

Public Act 93-0002 (HB 2660) amended the General Obligation Bond Act to increase bond authorization by \$10 billion for pension obligation bonds. The taxable 30-year Pension Obligation bonds were sold in June 2003, at a true interest rate cost to the State of 5.047%. Debt service to be paid on these bonds will range from \$481.0 million beginning FY 2004 up to \$1.16 billion in the final years of payoff. The State will not have to begin making principal payments on the bonds until FY 2008, with payments beginning at \$50.0 million and ending at \$1.1 billion in FY 2033, while interest payments decrease from early highs of approximately \$496.2 million down to \$56.1 million by FY 2033 (See Table 8 on page 22).

A portion of the bond proceeds was used to pay part of the FY 2003 State contribution and all of the FY 2004 State contributions to the retirement systems. Of the \$10 billion in proceeds, \$7.3 billion was used to reduce the unfunded liabilities of the State-funded retirement systems. Public Act 93-0002 added a provision to the funding plan to reflect this additional employer contribution and to require the retirement systems to pay the bond debt service by setting the maximum annual employer contribution to each system at the amount that would have been contributed without the bond issuance, minus the total debt service payments for the fiscal year. Effectively, this reduction in retirement contributions was to be used to pay the debt service on the bonds.

Public Act 93-0839 provides that SERS will collect a portion of the FY 2004 and FY 2005 SERS debt service on the bonds from State agency budgets, as is currently done with the SERS employer retirement contributions, rather than being paid directly from GRF to the General Obligation Bond Retirement and Interest Fund (GOBRI). The debt service collected by SERS would then be transferred from SERS to GOBRI. The FY 2004 and FY 2005 debt service that is the responsibility of SERS totals \$185.1 million. Of this amount, \$136.2 million (73.6% of SERS debt service) is attributable to debt service on the portion of the bond proceeds used to reduce the SERS unfunded liability.

Effectively, Public Act 93-0839 requires SERS to certify a rate of payroll, based on the FY 2005 State payroll projection, which will allow SERS to collect \$136.2 million in debt service through agency payrolls. Allowing SERS to collect debt service through agency payrolls requires non-GRF funds (including federal funds) to pay part of the debt service. It should be noted that some of the proceeds of the pension funding bonds reduced the unfunded liability of SERS, including some liability that is associated with employees at agencies that are funded by non-GRF and federal funds. Therefore, the Act provides a mechanism for non-GRF and federal funds to pay a share of the debt service on bond proceeds that were used to reduce the SERS unfunded liabilities.

According to SERS, in FY 2005 about 37% of State payrolls are from non-GRF funds and federal funds. The additional amount that agencies must contribute to debt service due to the additional certification saved the State \$50.3 million in GRF in FY 2005.

APPENDIX II

FY 2007 New Appropriations

The following pages of Appendix II include new appropriations listed in alphabetical order by agency, as taken from the introduced capital plan bills, HB 5470 and SB 3100, which are identical. New appropriations in the bills are listed by lump sum amounts to agencies and do not give details on specific projects.

BACKGROUND

The Commission on Government Forecasting and Accountability (CGFA), a bipartisan, joint legislative commission, provides the General Assembly with information relevant to the Illinois economy, taxes and other sources of revenue and debt obligations of the State. The Commission's specific responsibilities include:

- 1) Preparation of annual revenue estimates with periodic updates;
- 2) Analysis of the fiscal impact of revenue bills;
- 3) Preparation of "State Debt Impact Notes" on legislation which would appropriate bond funds or increase bond authorization;
- 4) Periodic assessment of capital facility plans;
- 5) Annual estimates of public pension funding requirements and preparation of pension impact notes;
- 6) Annual estimates of the liabilities of the State's group health insurance program and approval of contract renewals promulgated by the Department of Central Management Services;
- 7) Administration of the State Facility Closure Act.

The Commission also has a mandate to report to the General Assembly ". . . on economic trends in relation to long-range planning and budgeting; and to study and make such recommendations as it deems appropriate on local and regional economic and fiscal policies and on federal fiscal policy as it may affect Illinois. . . ." This results in several reports on various economic issues throughout the year.

The Commission publishes several reports each year. In addition to a Monthly Briefing, the Commission publishes the "Revenue Estimate and Economic Outlook" which describes and projects economic conditions and their impact on State revenues. The "Bonded Indebtedness Report" examines the State's debt position as well as other issues directly related to conditions in the financial markets. The "Financial Conditions of the Illinois Public Retirement Systems" provides an overview of the funding condition of the State's retirement systems. Also published are an Annual Fiscal Year Budget Summary; Report on the Liabilities of the State Employees' Group Insurance Program; and Report of the Cost and Savings of the State Employees' Early Retirement Incentive Program. The Commission also publishes each year special topic reports that have or could have an impact on the economic well being of Illinois. All reports are available on the Commission's website.

These reports are available from:
