WRITTEN COMMENTS:

The Hardin County Work Camp is critical to our small community. The inmates provide assistance to not only Cave but the other towns in the County in times of disasters. When we are basically cut off from help from other agencies due to our rural location, they fill sand bags during flooding to help save homes and businesses in our town. The majority of the population is elderly or disabled. They assist with clean-up after storms so that emergency service vehicles can get to areas faster. There are many vital services these inmates provide to our community while fulfilling their debt to society. The community shows appreciation for work well done with smiles, thank yous in person and by running ads in the local paper. Hopefully that shows the inmates they can turn their lives...
around once they are released. The Hardin County Work Camp is a tremendous asset to this County and it would be devastating to the Community to lose this asset.

WRITTEN COMMENTS:
July 20, 2015

To Whom It May Concern:

I am the RN at Hardin County Work Camp (HCWC). I was born and raised in Hardin County. I have been working for the Illinois Department of Corrections for a little over sixteen years. I have worked at HCWC for nearly fifteen of those years. HCWC is a greatly needed facility in this area. There are currently six work camps in Illinois; HCWC is the only work camp in Southern Illinois. There are four work camps in Central Illinois and one in Northern Illinois.

This facility provides vital services to local communities such as labor provided by the work crews, vegetables harvested from the garden project, and jobs filled by local and area residents. The work camp provides the offenders an opportunity to learn various job skills as well as build work ethic. One of the offenders was discussing this past week how he could start his own business detailing cars. Many others have commented on how the skills they learned through the Building Trades program have better prepared them to get a job when they are released. They weren’t looking for what the state could do for them when they are released, but what they could do for themselves and for others. With the rate of recidivism being 48% in the state of Illinois, we want these men to go back into their communities and use what they have learned to become productive residents of the state.

Offenders have told me how they feel it is better being in a low stress and non-violent facility with access to educational classes, vocational classes and performing various jobs duties, such as what is offered at HCWC. They feel they benefit from being at HCWC because of what it offers them in terms of work ethic and fostering a sense of responsibility. Offenders who are assigned on work crews and grounds crews take pride in completing projects, and it is reflected in their attitude and behavior. They are motivated to be productive and feel good about themselves and their accomplishments. The communities in this rural area cannot afford to hire enough workers to do the work that they need done. When the work crews are sent to the local towns or villages, the labor provided by the work crews is greatly appreciated.

When emergencies arise such as the river rising out of its banks, the work crews play a large role in assisting the community. When flooding occurs, time is of the essence. The work crews provide the labor involved with installing the flood gates. The offenders can quickly fill sandbags that can be sent out to where they are needed. Who will fill this role if HCWC is shuttered? Who will we call upon? More importantly, when will they come?

The Social IMPACT Research Center web page reports the poverty level for Hardin County is 20.3% compared to 14.7% for the state of Illinois. The unemployment rate for Hardin County is 8.9% compared to 6.2% for the state. Less than two weeks ago there was a local family that made the heart-wrenching decision to leave the state, but more importantly their family, and move to Kentucky because there were no jobs in the county.

According to the U.S. Census Bureau web page, the population of Hardin County alone was 4320 in 2010. The estimated population for 2013 was 4158 which was a decrease of 162 residents. The estimated population for 2014 was 4129 – that is an additional 29 residents – a total
decrease of 191 residents in four years. Results of the 2010 census indicate that Hardin County is the second smallest county in Illinois and the least populous. For a rural area like Hardin County, this is noteworthy and significant.

As you can easily see, the Hardin County Work Camp certainly has a positive influence on the offenders who gain skills that enable them to transition back into society as productive citizens, but it is also important to note the tremendous impact its loss will mean to our community – a community already burdened by unemployment and poverty but a community that is proud of its history and perseverance.

Respectfully yours,

Karen Dunstan RN/CNII
Most know that our Southern Illinois Region is predominantly rural.

Our Population is declining

We have high unemployment

We have pockets of extreme poverty

Our income is lower than the state average

8 of 11 southernmost counties border a neighboring state

Our retail trade leakages alone place increased pressure on local governments and other taxing districts to provide essential services.

With so little money circulating ---- Essential Service---- Parks, Recreation and Emergency Services suffer---

The Hardin County Work Camp has long been a Buffer—bridging these gaps— for Intra-governmental and Intra-agency needs vital to local governments, not for profits and local communities since its existence.

As President of the Ohio River Scenic Byway Board, a 501c3, Volunteer group promoting the Heritage and History in 7 counties along 188 miles of Illinois portion of the Ohio River Region we know we could not accomplish many tasks without the assistance of the Work Camp. We represent some of the poorest areas economically but perhaps the richest in natural beauty and history in our State.

The Hardin County Work Camp has been a vital partner in keeping it pristine but more recently to facilitate the completion of a state of the Art Bike Rack Project Sponsored by IDOT, IDNR and the Illinois BYWAYS.

The Work Camp coordinated with the ORSB, each municipality and county, State parks the Forest Service, to distribute and install as appropriate the Bike racks with QR codes representing all 7 Illinois Byways.
Without the Hardin County Work Camp this large project could not have been completed. It’s a great example of cooperative efforts at every level of local government- to state and volunteer - to simply facilitating a bike ride through our town and encouraging a stop and stay awhile --- Bridging the gap, providing essential services- Thus added value and in turn perhaps much needed revenue.

Let’s revisit the retail leak:

Hardin County’s retail Leak --- $21 Million

Pope County’s retail leak --- $24 Million

Gallatin County’s retail leak-- $33 Million

Saline County’s retail leak -- $18 Million-- for a 370 Million for our Southern Illinois region.

I submit to you that Hardin County Work Camp is not the Problem but rather the Solution!

Thank you- Rhonda Belford ORSB President

Statics from: Stronger Economies Together (U of I Extension)

WRITTEN COMMENTS:
In my capacity as HCSA, I have had direct involvement with the work camp and its impact on our county. The closing of the facility would be detrimental to our county for decades to come.

If anyone would like to ask questions about my experience regarding recidivism, county impact, volunteer work, etc., please feel free to call my office at 618-287-3691 or 618-287-7062.

Thank you.

[Signature]
I looks to me that the amount of savings if you close the camp would be very limited in the overall scheme of things.
The effects of the loss of the jobs will be on all businesses in Hardin County and all surrounding counties.
