Executive Summary

This report examines the financial status of the five State-funded retirement systems. The following is a summary of the findings:

- Public Act 88-0593 requires the State to make contributions to the State retirement systems such that the total assets of the systems will equal 90% of their total actuarial liabilities by Fiscal Year 2045. The contributions are required to be made at a level percent of payroll in Fiscal Years 2011 through 2045, following a phase-in period that began in Fiscal Year 1996.
- From FY 1996 through FY 2023 the combined unfunded liabilities of the systems increased by \$122.2 billion to \$142.2 billion from \$20.0 billion based upon the market value of assets. The main factors for this increase in unfunded liabilities were actuarially insufficient employer contributions, changes in actuarial assumptions and demographics and other miscellaneous actuarial factors, along with lower-than-assumed investment returns.
- The discussion of the financial condition of the State retirement systems centers on the funded ratio, or net assets divided by accrued liabilities. A system with a 100% funded ratio is fully funded because its assets are sufficient to pay all benefits earned by employees. Based upon the market value of assets, the funded ratio of the State retirement systems combined was 44.6% as of June 30, 2023.
- Projections of the future financial condition of the State retirement systems provide valuable information on the effect that past funding has had on the retirement systems' financial positions. The funding projections shown in the appendices A-F of this report were prepared by the systems' actuaries.
- If the State continues funding according to Public Act 88-0593, the projected accrued liabilities of the State retirement systems will increase from **\$262.8** billion at the end of FY 2024 to **\$336.3** billion at the end of FY 2045. At the same time, the projected actuarial value of assets is projected to increase from **\$120.9** billion to **\$302.7** billion. Consequently, the projected unfunded liabilities are projected to decrease from **\$141.9** billion at the end of FY 2024 to **\$33.6** billion at the end of FY 2045, and the projected funded ratio is expected to increase from **46.0%** in FY 2024 to **90.0%** by the end of FY 2045. All of the projected figures in this paragraph come from the various systems' annual actuarial reports and are predicated upon the State making the necessary contributions as required by law. Please refer to Appendices A-F for more detailed projections.
- Each of the 5 State retirement systems provided a certification of the required State contribution for FY 2025. A certification letter of Chicago Teachers Pension Fund (CTPF) for FY 2025 is also presented in this report. These certification letters are displayed in the appendices V-FF. (The certification letters for FY 2024 are also presented in the appendices GG-QQ.)

- For FY 2023, all the systems except GARS experienced a net actuarial loss, due to various reasons such as higher-than-assumed salary increases, actuarially insufficient employer contributions, or unfavorable experiences from demographics and other factors. More information on this topic can be found in the “Change in Unfunded Liabilities” charts (Charts 2 and 3) located herein. The General Assembly appropriated the State contributions for FY 2024 and FY 2025 via P.A. 103-0006 and P.A. 103-0589, respectively. A breakout and a comparison of the FY 2024-2025 appropriations by fund are shown in the table below:

FY 2024 Pension Appropriation by Fund via P.A. 103-0006			
(\$ in Millions)			
System	General Funds	Other State Funds	Total
TRS	\$ 6,043.5	\$ -	\$ 6,043.5
SURS	\$ 1,918.3	\$ 215.0	\$ 2,133.3
SERS	\$ 1,755.2	\$ 834.6	\$ 2,589.8
GARS	\$ 26.5	\$ -	\$ 26.5
JRS	\$ 147.8	\$ -	\$ 147.8
Total	\$ 9,891.3	\$ 1,049.6	\$ 10,940.9

FY 2025 Pension Appropriation by Fund via P.A. 103-0589			
(\$ in Millions)			
System	General Funds	Other State Funds	Total
TRS	\$ 6,203.9	\$ -	\$ 6,203.9
SURS	\$ 1,997.8	\$ 215.0	\$ 2,212.8
SERS	\$ 1,843.9	\$ 828.4	\$ 2,672.4
GARS	\$ 26.2	\$ -	\$ 26.2
JRS	\$ 148.9	\$ -	\$ 148.9
Total	\$ 10,220.8	\$ 1,043.4	\$ 11,264.2

Total FY 2024 Pension Appropriation: \$10.9 Billion
Total FY 2025 Pension Appropriation: \$11.3 Billion
Total Increase, FY 2025 over FY 2024: \$323.3 Million
Total GF Decrease, FY 2025 from FY 2024: \$329.5 Million

I. Public Act 96-0889 and Public Act 96-1495 (Creation of Tier II)

Two-Tier Pension Reform for the State Systems, IMRF, and Chicago Funds
Public Act 96-0889
Senate Bill 1946 – Cullerton (Madigan)

I. Overview of Key Provisions of Public Act 96-0889 (SB 1946)

Effective Date

- January 1, 2011

Systems Impacted

- IMRF, Chicago Municipal, Cook County, Cook County Forest Preserve, Chicago Laborers, Chicago Park District, Metropolitan Water, SERS, SURS, TRS, Chicago Teachers (Judges and GA separate; CTA, Police, and Fire excluded)

Retirement Eligibility – Except State Police Officers, Firefighters, and Correctional Guards

- Normal Retirement: 67 years old with 10 years of service
- Early Retirement: 62 years old with 10 years of service with a 6% per year reduction in benefits for each year under age 67
- Annuity based on highest 8 years out of last 10 years of service
- Annual Final Average Salary may not exceed \$106,800, as automatically increased by the lesser of 3% or one-half of the annual increase in the CPI-U during the preceding 12-month calendar year.

Retirement Eligibility – State Police Officers, Firefighters, and Correctional Guards

- Normal Retirement: 60 years old with 20 years of service
- State Police officers, Firefighters, DOC Guards are still eligible for Alternative Formula

Annual Increases in Annuity

- Increases begin at the latter of the first anniversary of retirement or at age 67.
- Increases equal to the lesser of 3% or one-half the annual increase in the CPI-U during the preceding 12-month calendar year; if increase in CPI is zero or if there is a decrease in CPI, then no COLA is payable
- Increase not compounded

Survivor Benefits

- 66.7% of the earned retirement benefit at death
- Increased by the lesser of 3% or one-half of the annual increase in the CPI-U during the preceding 12-month calendar year
- Increases not compounded

“Double Dipping” Prohibited

- The act prohibits simultaneously collecting a pension and a salary with a public employer.

Chicago Teachers’ Extension of Funding Plan

- Contributions specified in Fiscal Years 2011 – 2014
- New Goal: CTPF must reach 90% by 2059

Retirement Eligibility – Judges and General Assembly

- Normal Retirement: 67 years old with 8 years of service
- Early Retirement: 62 years old with 8 years of service

Change in Benefit Formula – Judges and General Assembly

- 3% of Final Average Salary for each year of service
- Maximum annuity 60% of Final Average Salary
- Retirement annuity based on highest 8 out of final 10 years of service

Annual Increase in Annuity – Judges and General Assembly

- Increases begin after attainment of age 67
- Increases equal to the lesser of 3% or one-half of the annual increase in the CPI-U during the preceding 12-month calendar year
- Increases compounded

Annual Increase in Survivor’s Annuity – Judges and General Assembly

- 66.7% of the earned retirement benefit at death
- Increased by the lesser of 3% or one-half of the annual increase in the CPI-U during the preceding 12-month calendar year
- Increases compounded

II. Public Act 100-0023 (Creation of Tier III)

Tier Three Pension Reform via the Budget Implementation Act
Public Act 100-0023
Senate Bill 0042 – Trotter (Harris)

I. Overview of Key Provisions of Public Act 100-0023 (SB 42)

Effective Date

- July 6, 2017

Systems Impacted

- GARS, Chicago Fire, Chicago Municipal, Cook County, Cook County Forest Preserve, Chicago Laborers, Chicago Park District, SERS, SURS, TRS, Chicago Teachers, and JRS

Optional Tier 3 Hybrid Plan

Tier 3 Availability

- SERS, SURS, and TRS:
 - Tier 3 benefits are available as soon as the board of that respective system authorizes members to begin participation.
 - Each of these systems shall endeavor to make participation available as soon as possible. This requirement is referred to as the “implementation date.”
 - Newly hired and existing Tier 2 members must make the election to participate in Tier 3 within 30 days of becoming a member or participant in the pertinent system.
- MEABF, Cook County Employees, Forest Preserve Employees, LABF, Park Employees, and CTPF
 - Tier 3 benefits are available beginning 6 months after the governing body of the unit of local government approves participation in the plan via adoption of a resolution or ordinance.
 - No later than 5 months after the resolution or ordinance approving participation in Tier 3, the affected system shall prepare and implement the defined contribution component of the Tier 3 hybrid plan.
 - Newly hired members must make the election to participate in the Tier 3 hybrid system within 30 days of becoming a member or participant in the pertinent system.

Tier 3 Benefit Summary

- Retirement Annuity: 1.25% for each year of service credit multiplied by final average salary
- Normal Retirement: determined by Social Security Administration, but no earlier than 67 years of age with at least 10 years of service
- COLA: Beginning 1 year after annuity start date and equal to 50% of the CPI-W
- Survivor’s/Widow’s Annuity: 66 2/3% of participant’s retirement annuity
- Employee Contribution for the DB component: 6.2% of salary (cannot exceed the retirement system’s normal cost)
- Employee Contribution for the DC component: 4% minimum

- Employer Contributions for the DC component: between 2% and 6% of salary
 - Employer contributions vest when they are paid into a participant’s account.
 - Employee and employer contributions are transferrable into other qualified plans.
- For SURS and TRS
 - Employer Contribution: DB Normal Cost - Employee Contribution + 2% (expressed as a % of payroll)

Changes in State Contributions

- For SURS and TRS, in fiscal years 2018 through 2020, the State shall contribute an additional 2% of payroll of each Tier 3 employee.
- For SURS and TRS, if the amount of a participant’s salary exceeds the amount of the Governor’s salary, the employer shall pay to the System an amount equal to the employer normal cost multiplied by the excess amount of salary.
- State contribution-altering changes in actuarial or investment assumptions shall be implemented and smoothed over a 5-year period beginning in FY 18.

Status of Tier 3

- TRS, SERS, and SURS currently do not have plans in place to implement a Tier 3 plan for members.
- According to the Systems, the Tier 3 plan language is not in compliance with multiple IRS code provisions and does not meet the minimum benefit criteria for a “FICA-Replacement” plan:
 - The variable Defined Contribution employee contribution component violates governmental Defined Contribution requirements as provided under Section 401(a) of the Internal Revenue Code.
 - The employee contributions to the Defined Benefit portion of the Tier 3 plan does not ensure that the contributions will be treated as “employer pick-ups” according to Section 414 of the Internal Revenue Code, which is vital for pre-tax plan purposes.

III. Public Act 100-0587 (HB 3342)

Voluntary Accelerated Pension Benefit Programs – SERS, TRS, and SURS
Public Act 100-0587
House Bill 3342 – Harris (Steans)

I. Overview of Key Provisions of Public Act 100-0587 (HB 3342)

Effective Date

- June 4, 2018

Systems Impacted

- SERS, TRS, and SURS

Voluntary Pension Buyout for Vested, Inactive Members

Until June 30, 2021, an eligible member in SERS, SURS, or TRS may irrevocably elect to receive an accelerated pension benefit payment equal to 60% of the present value of a member's pension benefit in lieu of receiving any pension benefit. An eligible member means a person who:

- 1) Is an inactive member in a DB plan;
- 2) Has enough credits to receive a retirement annuity (i.e., has vested in the pertinent system);
- 3) Has not received any retirement annuity; and
- 4) Has not elected the compounded 3% COLA buyout option.

The accelerated pension payments would be paid from the proceeds of the State Pension Obligation Acceleration Bonds.

Voluntary Compounded 3% COLA Buyout for Tier 1 Members

An eligible member in SERS, SURS, or TRS may irrevocably elect to receive an accelerated pension benefit payment equal to 70% of the difference of the present value of the 3% compounded COLA and the present value of a reduced COLA (simple 1.5%) in exchange for receiving a simple 1.5% COLA. An eligible member means a person who:

- 1) Is a Tier 1 member in a DB plan;
- 2) Has submitted an application for retirement;
- 3) Meets age and service requirements to receive a retirement annuity;
- 4) Has not received any retirement annuity; and
- 5) Has not elected the inactive vested pension buyout option.

The accelerated pension benefit payments are being paid from the proceeds of the State Pension Obligation Acceleration Bonds.

Each system made participation assumptions regarding the pension buyout plans in their respective 2023 actuarial valuations. These assumptions are summarized in the table on the following page:

System	Total Pension Buyout Plan	COLA Buyout
TRS	10% of eligible Tier 1 and Tier 2 future inactive members	20% of eligible Tier 1 members
SURS	0% of eligible inactive members	0% of eligible Tier 1 members
SERS	2% of eligible inactive members	<ul style="list-style-type: none"> • 20% of eligible Tier 1 Regular formula members; • 42% of eligible Tier 1 non-coordinated Alternative formula members; and • 38% of eligible Tier 1 coordinated Alternative formula members

State Pension Obligation Acceleration Bonds

The State Pension Obligation Acceleration Bonds of \$2 billion are authorized to be issued for the accelerated pension benefit payments for SERS, SURS, and TRS.

**IV. Public Act 101-0010 &
102-0718
(SB 1814 & HB 4292)**

Extension of the Voluntary Pension Buyout Programs – SERS, TRS, and SURS
Public Act 101-0010
Senate Bill 1814 – Steans (Harris)

I. Overview of Key Provisions of Public Act 101-0010 (SB 1814)

Effective Date

- June 5, 2019

Systems Impacted

- SERS, TRS and SURS

Extension of the Two Voluntary Pension Buyout Programs

The two existing pension buyout programs for TRS, SURS, and SERS, created by P.A. 100-0587, were extended by 3 years to June 30, 2024, from June 30, 2021, as summarized below.

- **Total pension buyout plan:** If an eligible inactive, vested member irrevocably participates in the total pension buyout plan, the member would receive an accelerated pension benefit payment equal to 60% of the present value of a member’s pension benefit in lieu of receiving any pension benefit.

- **3% COLA buyout plan:** If an eligible Tier 1 member irrevocably participates in the COLA buyout plan, the member would receive a lump sum payment equal to 70% of the difference of the present value of the 3% compounded COLA and the present value of a reduced COLA (simple 1.5%) in exchange for receiving a simple 1.5% COLA at the later of January 1 following age 67 or the first anniversary of retirement.

Each system made participation assumptions regarding the pension buyout plans in their respective 2023 valuations as shown in the table below:

System	Total Pension Buyout Plan	COLA Buyout
TRS	10% of eligible Tier 1 and Tier 2 future inactive members	20% of eligible Tier 1 members
SURS	0% of eligible inactive members	0% of eligible Tier 1 members
SERS	2% of eligible inactive members	<ul style="list-style-type: none"> • 20% of eligible Tier 1 Regular formula members; • 42% of eligible Tier 1 non-coordinated Alternative formula members; and • 38% of eligible Tier 1 coordinated Alternative formula members

Reinstatement of Teachers’ Final Average Salary (FAS) Cap of 6% for TRS and SURS

P.A. 94-0004, which took effect on June 1, 2005, implemented an “excess salary increase penalty” for school districts and universities in both TRS and SURS. Under the Act, for purposes

of determining the final average salary, if a teacher's full-time equivalent annual salary increases more than the salary increase cap with the same employer, the (local) employer would have to make a payment to the retirement system equal to the present value of the increase in benefits resulting from the salary increase in excess of the salary increase cap. P.A. 94-0004 established a 6% "excess salary increase penalty." P.A. 100-0587, which took effect on June 4, 2018, lowered the cap to 3%. Pursuant to P.A. 101-0010, the final salary cap reverted back to 6%.

II. Overview of Key Provisions of Public Act 102-0718

Effective Date

- May 5, 2022.

Systems Impacted

- SERS, SURS, and TRS

2-Year Extension of the Two Voluntary Pension Buyout Programs

P.A. 102-0718 extended the two pension buyout programs by 2 years to June 30, 2026. In other words, eligible members of SERS, SURS, or TRS are allowed to elect to participate in the pension buyout programs until June 30, 2026. Prior to the Act, the programs were first extended by 3 years by P.A. 101-0010, effective June 5, 2019, such that the buyout programs were scheduled to sunset on June 30, 2024.

V. Public Act 102-0719 (HB 1568)

Benefit Changes in the SERS Tier 2 Alternative Formula
Public Act 102-0719
House Bill 1568 – Vella (Martwick)

Effective Date

- May 6, 2022.

Systems Impacted

- SERS

Benefit Changes in the SERS Tier 2 Alternative Formula by Lowering the Retirement Age
HB 1568 was signed into law as P.A. 102-0719 on May 6, 2022. Prior to P.A. 102-0719, Tier 2 members in the SERS Alternative Formula were able to retire at age 60 with 20 years of service. P.A. 102-0719 allows the following Tier 2 law enforcement personnel to retire at age 55 with 20 years of service under the Alternative Formula:

- State Police troopers;
- Investigators for the Secretary of State;
- Conservation police officers;
- Investigators for the Department of Revenue or the Illinois Gaming Board;
- Investigators for the Office of the Attorney General; and
- Commerce Commission police officers or arson investigators

Members participating in the SERS Alternative Formula contribute 12.5% of salary towards their pensions, regardless of tier status. The Act does not change the member contribution amount.

VI. Pension Legislation History

86th General Assembly (1989 – 1990)

Compounded Annual Cost of Living Adjustments (P.A. 86-0273)

Public Act 86-0273, which took effect on August 23, 1989, provided for compounded 3% annual cost of living adjustments (COLAs) beginning January 1, 1990 for annuitants in all five of the State-funded retirement systems (TRS, SERS, SURS, JRS and GARS). Prior to the enactment of P.A. 86-0273, annual COLAs had been calculated on a simple non-compounded basis.

88th General Assembly (1993 – 1994)

Funding Plan for State-Funded Retirement Systems (P. A. 88-0593)

Public Act 88-0593 implemented a funding plan for the five State retirement systems that requires the State to make contributions as a level percent of payroll in fiscal years 2011 through 2045, following a phase in which began in fiscal year 1996. The contributions are required to be sufficient, when added to employee contributions, investment income, and other income, to bring the total assets of the systems to 90% of the actuarial liabilities by fiscal year 2045. Each system is required to certify the amount necessary for the next fiscal year by November 15 of the current fiscal year, for inclusion in the Governor's budget.

90th General Assembly (1997 – 1998)

SERS Formula Increase (P.A. 90-0065)

P.A. 90-0065 (HB 0110) implemented a flat-rate formula for SERS Regular Formula members covered by Social Security of 1.67% for all years of service. Regular Formula members not covered by Social Security moved to a flat-rate formula of 2.2% for all years of service. The Act applied to all members retiring on or after January 1, 1998.

TRS Formula Increase (P.A. 90-0582)

P.A. 90-0582 implemented a retirement formula increase for members of the Teachers' Retirement System. The Act provided that active teachers would earn creditable service on or after July 1, 1998 at a rate of 2.2% of final average salary for each year of service. The Act also allowed teachers to make contributions to TRS in order to upgrade past service earned prior to the implementation of the flat-rate formula.

Creation of Self-Managed Plan in SURS (P.A. 90-0448)

P.A. 90-0448 gave members of the State Universities Retirement System the option to enroll in a Self-Managed Plan (SMP) in which participants are able to choose from a variety of investment options ranging from mutual funds to annuity contracts. Members who choose the SMP become vested after earning 5 years of service credit.

91st General Assembly (1999 – 2000)

“Rule of 85” for SERS (P.A. 91-0927)

P.A. 91-0927 created a “Rule of 85” for the State Employees’ Retirement System, wherein an employee is eligible to retire when the employee’s age plus service credit equals 85 years.

92nd General Assembly (2001 – 2002)

SERS Alternative Formula Increase (P.A. 92-0014)

P.A. 92-0014 changed the retirement formula for alternative-formula employees to 2.5% for each year of service for members coordinated with Social Security and 3.0% for each year of service for non-coordinated members. The Act increased the maximum retirement annuity for alternative-formula employees to 80% of final average salary.

SERS Early Retirement Incentive (Public Act 92-0566)

Public Act 92-0566 created the 2002 Early Retirement Incentive for certain SERS and TRS members. The ERI allowed members to purchase up to five years of service credit and age enhancement. Eligible members were then required to leave employment between July 1, 2002 and December 31, 2002. Over 11,000 members took advantage of the ERI, and a majority of the participants were eligible to receive benefits immediately following termination.

93rd General Assembly (2003 – 2004)

Pension Obligation Bond (P.A. 93-0002)

Public Act 93-0002 amended the General Obligation Bond Act to increase bond authorization by \$10 billion. These general obligation bonds were designated as a pension funding series. The State used a portion of the bond proceeds to pay part of the FY 2003 State contribution and all of the FY 2004 State contributions to the retirement systems. Of the \$10 billion, \$7.3 billion was used to reduce the unfunded liabilities of the State-funded retirement systems.

Along with the \$10 billion increase in bond authorization, Public Act 93-0002 included a provision requiring State contributions to the retirement systems to be reduced by the amount of the debt service (the amount of principal and interest payments) on the bonds. The legislation set the maximum annual employer contribution to each system at the amount that would have been contributed without the bond issuance, minus the total debt service payments for the fiscal year. Effectively, the reduction in retirement contributions is used to pay the debt service on the bonds.

94th General Assembly (2005 – 2006)

FY 2006 – FY 2007 “Pension Holiday” (P.A. 94-0004)

Public Act 94-0004 temporarily deviated from the funding plan created in 1994 by Public Act 88-0593. The Act set the State contribution levels for FY 2006 and FY 2007, rather than requiring the State to make contributions based on actuarial calculations set forth under P.A. 88-0593. In addition, the separate funding of the liability created by the 2002 SERS Early Retirement Incentive was eliminated. The following table provides a comparison of the FY 2006 certified contributions and FY 2007 contributions with the State contributions that were required by Public Act 94-0004.

TABLE 1

Public Act 88-0593 Contributions vs. Public Act 94-0004 Contributions (in Millions \$)						
	FY 2006			FY 2007		
System	PA 88-0593	PA 94-0004	Difference	PA 88-0593	PA 94-0004	Difference
TRS	\$1,058.5	\$534.6	\$523.9	\$1,233.1	\$735.5	\$497.6
SERS	690.3	203.8	486.5	832.0	344.2	487.8
SURS	324.9	166.6	158.3	391.9	252.1	139.8
JRS	38.0	29.2	8.8	44.5	35.2	9.3
GARS	5.5	4.2	1.3	6.3	5.2	1.1

SERS Alternative Formula Changes (P.A. 94-0004)

Prior to the enactment of P.A. 94-0004, all employees of the Department of Corrections were covered by the SERS alternative formula. Public Act 94-0004 provides that for employees entering service after July 1, 2005, only Department of Corrections employees who are headquartered at a correctional facility, parole officers, members of an apprehension unit, members of an intelligence unit, and DOC investigators will be covered by the alternative formula.

SURS Money Purchase Retirement Option Changes (P.A. 94-0004)

Public Act 94-0004 eliminated the money purchase formula for employees who became members of SURS after July 1, 2005. Beginning in FY 2006, the Act requires the Comptroller (rather than the SURS Board of Trustees) to determine the interest rate to be used when crediting interest to the accounts of those employees participating in the Money Purchase plan.

Salary Increase Payments for Teachers and State University Personnel (P.A. 94-0004)

Public Act 94-0004 provided a mechanism by which the liability associated with salary increases above a certain level may be shifted to the employer (school districts and universities) providing those salary increases. The Act provides that during the years used to determine final average salary, the employer must pay to TRS or SURS an amount equal to the present value of the increase in benefits resulting from salary increases above 6%. The employer contribution required by Public Act 94-0004 must be paid in a lump sum within 30 days of the receipt of the bill from the retirement system. The Act specifies that the retirement system must calculate the contribution amount using the same actuarial assumptions and tables used for the most recent actuarial valuation.

Teacher Sick Leave Service Credit (P.A. 94-0004)

Prior to the enactment of P.A. 94-0004, members of TRS could establish up to 2 years of service credit for unused and uncompensated sick leave without making contributions. Public Act 94-0004 provides that if days granted by an employer are in excess of the normal annual sick leave allotment, the employer is required to contribute to TRS the normal cost of the benefits associated with this excess sick leave.

Retention of "Pipeline" Early Retirement Option in TRS (P.A. 94-0004)

An Early Retirement Option for members of TRS was created in 1980 and, prior to 2005, had been extended every 5 years since its inception. (Public Act 91-0017 extended the TRS ERO option until June 30, 2005). If an employee exercised the ERO option (i.e. retires before age 60 with less than 34 years of service), employee and employer contributions were required to avoid a reduction in annuity. The employee contribution was 7% of salary for each year less than age 60 or 35 years of service (whichever is less) and the employer contribution was 20% of salary for each year less than age 60. Public Act 92-0582 removed the employee contribution for members with 34 years of service and Public Act 91-0017 removed the employer contribution requirement for employees who retire with 34 years of service.

Public Act 94-0004 allowed TRS members to participate in the "pipeline" ERO if the member retired between June 30, 2005 and July 1, 2007.

New Early Retirement Option in TRS (P.A. 94-0004)

Public Act 94-0004 created a new ERO effective July 1, 2005. If an employee exercises the new ERO option (retires before age 60), employee and employer contributions are required to avoid a reduction in annuity. The employee contribution is 11.5% of salary for each year less than age 60 or 35 years of service (whichever is less) and the employer contribution is 23.5% of salary for each year less than age 60. In addition, all active TRS members are required to contribute 0.4% of salary towards the cost of ERO. This contribution would be refunded, without interest, if the member does not utilize the ERO, if the member takes a refund from TRS, if the member dies, or if the ERO is discontinued.

Note: The TRS ERO was allowed to automatically sunset on July 1, 2016.

Extension of Early Retirement Option for Chicago Teachers (P.A. 94-0004)

Public Act 91-0017 extended the Early Retirement Option in the Chicago Teachers' Pension Fund until June 30, 2005. If an employee exercises that option by retiring before age 60 with less than 34 years of service, employee and employer contributions are required to avoid a reduction in annuity. The employee contribution is 7% of salary for each month less than age 60 or 35 years of service (whichever is less), and the employer contribution is 20% of salary for each year less than age 60. No employee or employer contributions are required for members with 34 years of service. Currently, each employer has the authority to determine whether it should provide an ERO for its employees.

Public Act 94-0004 extended the ERO option to June 30, 2010. The Act also specifies that the employer may not limit the number of ERO participants to less than 200 (rather than 30% of eligible members). The Act also allows the employer and collective bargaining agent to agree to set the limit higher than 200, and to base the allocation for participation on a basis other than seniority. *The Modified ERO program was allowed to sunset on July 1, 2016 because an extension was not approved by the General Assembly. According to CTPF, the effective date of the last ERO contract was 9/24/2008.*

Note - The Modified ERO program was allowed to sunset on July 1, 2016 because an extension was not approved by the General Assembly. According to CTPF, the effective date of the last ERO contract was September 24th, 2008.

Application of New Benefits (P.A. 94-0004)

Public Act 94-0004 requires every new benefit increase to identify and provide for additional funding at least sufficient to fund the resulting annual increase in cost as it accrues to the System. Unless the funding inadequacy is corrected by the General Assembly, the benefit increase would expire at the end of the fiscal year. In addition, Public Act 94-0004 provides that all benefit increases will expire 5 years after the effective date of the increase, unless an earlier date is specified in the legislation that provides the benefit increase.

Exemptions to 6% End-of-Career Salary Increase Cap (P.A. 94-1057)

P.A. 94-1057 amended both the Downstate Teachers' and State Universities' Articles of the Pension Code to exempt the employer (the university or the school district) from paying the increased contribution associated with certain salary increases above 6% granted during the employee's final average salary period. The Act applies to specifically enumerated salary increases granted between June 1, 2005 and July 1, 2011 as follows:

- Salary increases paid to teachers or university employees who are ten or more years away from retirement;
- Salary increases that result when a teacher is transferred from one employer to another as a result of school consolidation;
- Salary increases paid to teachers or university employees that are earned as a result of summer school or overload work; (Overload work must be for the sole purpose of academic instruction in excess of the standard number of instruction hours, and the overload pay must be necessary for the educational mission.)

- Salary increases due to promotion for which a teacher is required to hold a certificate or supervisory endorsement issued by the State Teacher Certification Board; the certification must be different than what was required for the teacher's previous position, and the position must have existed and been filled by a member for no less than one complete academic year;
- Salary increases due to promotions for which a university employee moves to a higher classification under the State Universities Civil Service System, promotion to a tenure-track faculty position, or promotion to a position recommended on a promotional list created by the Illinois Community College Board;
- Payments to a teacher from the State Board of Education or the State of Illinois over which the school district does not have discretion; and
- Salary increases granted to teachers or university employees under the aforementioned conditions after July 1, 2011, but before July 1, 2014, pursuant to a contract or collective bargaining agreement entered into on or after June 1, 2005, but before July 1, 2011.

P.A. 94-1057 also requires both SURS and TRS to file a report with the Governor and General Assembly by January 1, 2007 outlining the number of recalculations performed by school districts or universities, the dollar amount by which each school district or university's contribution was changed due to the recalculation, and the total amount received from each school district or university as a result of P.A. 94-0004. The Act also requires both SURS and TRS to provide an estimate of the increase in state contributions resulting from the aforementioned end-of-career salary increase exemptions.

96th General Assembly (2009 – 2010)

Pension Obligation Notes for FY 2010 / Introduction of Asset Smoothing (P.A. 96-0043)

P.A. 96-0043 mandated the issuance of new pension bonds totaling \$3.466 billion. The bond sale proceeds, net of sales expenses, were used as a portion of the FY 2010 State contributions to the various State pension systems. Specifically, the Act established the FY 2010 State pension contributions as follows: (1) TRS - \$2,089,268,000, (2) SERS - \$723,703,100, (3) SURS - \$702,514,000, (4) JRS - \$78,832,000, (5) GARS - \$10,454,000.

P.A. 96-0043 also establishes that as of June 30, 2008, the actuarial value of each system's assets will be equal to their market value. In determining the actuarial value of the systems' assets for fiscal years after June 30, 2008, any unexpected gains or losses from investment returns incurred in a fiscal year will be recognized in equal annual amounts over the 5-year period following that fiscal year. An unexpected gain or loss will be defined as any deviation from the forecasted return on invested assets.

P.A. 96-0043 contains a statement of legislative intent that all of the operating funds freed up by the bond sale should be used to fund programs and services provided by community-based human services providers to ensure the State continues assisting the most vulnerable citizens.

Calculation of Final Average Salary for Annuity Purposes - General Assembly Retirement System (P.A. 96-0207)

P.A. 96-0207 provides that for participants who become a member of GARS on or after August 10th, 2009 (the effective date of the Act), retirement annuities will be based on the 48 consecutive months of service within the last 120 months of service in which the total compensation was the highest, or by dividing the total period of service, if less than 48 months, by the number of months of service in that period.

Calculation of Final Average Salary for Annuity Purposes - Judges Retirement System (P.A. 96-0207)

P.A. 96-0207 provides that for participants who become members of JRS on or after August 10th, 2009 (the effective date of the Act), retirement annuities will be calculated by dividing the total salary of the participant during the period of the 48 consecutive months of service within the last 120 months of service in which the total compensation was the highest, or the total period of service, if less than 48 months, by the number of months of service in that period.

Illinois Governmental Ethics Act (P.A. 96-0006)

Currently, elected officials and members of certain boards and commissions are required to file verified written statements of economic interests. Public Act 96-0006 amends the Illinois Governmental Ethics Act to add that members of the board of any retirement system, pension fund or investment board established under the Illinois Pension Code will be required to file verified written statements of economic interests only if they are not already required to file such a statement.

Creation of Investment Working Group (P.A. 96-0006)

Public Act 96-0006 amends the State Treasurer Act to add a new Section titled, “working group; peer cost comparison.” The Treasurer shall convene a working group consisting of representatives from the retirement systems, pension funds, and investment board created under the Illinois Pension Code, persons that provide investment services, and members of the financial industry. The working group shall review the performance of investment managers and consultants providing investment services for the retirement systems, pension funds, and investment board created under the Illinois Pension Code. The group shall develop uniform standards for comparing the costs of investment services and make recommendations to the retirement systems, pension funds, and investment board. The working group shall draft a report, and the Treasurer must submit such report, to the Governor and the General Assembly by January 1, 2011.

Expansion of Fiduciary Duties (P.A. 96-0006)

Currently, the Illinois Pension Code defines a fiduciary as someone who exercises discretionary authority or discretionary control respecting management of the pension fund or retirement system. Those who render investment advice for a fee or other compensation are acting in a fiduciary capacity pursuant to current law. Public Act 96-0006 amends the Illinois Pension Code to stipulate that rendering advice with respect to the selection of fiduciaries in and of itself constitutes a fiduciary duty.

Requirements for Consultants (P.A. 96-0006)

Public Act 96-0006 amends the Illinois Pension Code to add a new Section concerning consultants. The new Section states that “consultant” means any person or entity retained or employed by the board of a retirement system, pension fund, or investment board to make

recommendations in developing an investment strategy, assist with finding appropriate investment advisers, or monitoring the board's investments.

Reporting Requirements for Emerging Investment Managers (P.A. 96-0006)

Public Act 96-0006 requires that each retirement system, pension fund, and investment board, except for Downstate Police and Downstate Fire pension funds, shall submit a report to the Governor and the General Assembly by January 1 of each year. The report shall include all of the adopted policies, including the names and addresses of the emerging investment managers used, percentage of the assets under the investment control of emerging investment managers, the actions it has undertaken to increase the use of emerging investment managers, including encouraging other investment managers to use emerging investment managers as subcontractors when the opportunity arises, and also including specific actions undertaken to increase the use of minority broker-dealers.

Prohibited Transactions (P.A. 96-0006)

Public Act 96-0006 amends the Pension Code to require that a board member, employee, or consultant with respect to a retirement system, pension fund, or investment board shall not knowingly cause or advise the system, fund, or board to engage in an investment transaction with an investment adviser when the board member, employee, consultant, or their spouse (i) has any direct interest in the income, gains, or profits of the investment adviser through which the investment transaction is made or (ii) has a relationship with that investment adviser that would result in a financial benefit to the board member, employee, consultant, or spouse of such board member, employee, or consultant as a result of the investment transaction. Public Act 96-0006 clarifies that a consultant includes an employee or agent of a consulting firm who has greater than 7.5% ownership of the consulting firm. Any violation of this provision constitutes a Class 4 felony.

Selection and Appointment of Investment Advisors and Consultants (P.A. 96-0006)

Public Act 96-0006 creates a new section in the Pension Code concerning investment services for all retirement systems, pension funds, and investment boards, except Downstate Police and Fire pension funds. Pursuant to this new Section, all contracts for investment services shall be awarded by the board using a competitive process that is substantially similar to the process required for the procurement of professional and artistic services under Article 35 of the Illinois Procurement Code. The Act states that each board of trustees shall implement this policy by June 2, 2009.

Limitations on Investment Consulting Contracts (P.A. 96-0006)

Public Act 96-0006 states that notwithstanding any other provision of law, a retirement system, pension fund, or investment board shall not enter into a contract with a consultant that exceeds 5 years in duration. The Act provides that no contract to provide consulting services may be renewed or extended. At the end of the term of a contract, however, the consultant is eligible to compete for a new contract. No retirement system, pension fund, or investment board shall attempt to avoid or contravene these restrictions by any means.

Disclosure of Fees and Commissions by Consultants (P.A. 96-0006)

P.A. 96-0006 provides that by June 2, 2009, each investment adviser or consultant currently providing services or subject to an existing contract for the provision of services must disclose to the board of trustees all direct and indirect fees, commissions, penalties, and other compensation paid by or on behalf of the investment adviser or consultant in connection with the

provision of those services and shall update that disclosure promptly after a modification of those payments or an additional payment.

Investment Transparency (P.A. 96-0006)

Public Act 96-0006 amends the Illinois Pension Code to create an additional section concerning investment transparency. The purpose of this new section is to provide for transparency in the investment of retirement or pension fund assets and require the reporting of full and complete information regarding investments by pension funds, retirement systems, and investment boards. A retirement system, pension fund, or investment board subject to the Pension Code and any committees established by such system, fund, or board must comply with the Open Meetings Act.

Ethics Training (P.A. 96-0006)

Public Act 96-0006 amends the Illinois Pension Code to create a new Section concerning ethics training. All board members of a retirement system, pension fund, or investment board created under the Pension Code must attend ethics training of at least 8 hours per year. The training shall incorporate the following areas: ethics, fiduciary duty, and investment issues and any other curriculum that the board of the retirement system, pension fund, or investment board establishes as being important.

Prohibition on Gifts (P.A. 96-0006)

Public Act 96-0006 amends the Illinois Pension Code to clarify that no trustee or employee of a retirement system, pension fund, or investment board created under the Illinois Pension Code shall intentionally solicit or accept any gift from any prohibited source.

No Monetary Gain on Investments (P.A. 96-0006)

Public Act 96-0006 amends the Illinois Pension Code to create a new section stating that no member or employee of the board of trustees of any retirement system, pension fund, or investment board or any spouse of such member or employee shall knowingly have any direct interest in the income, gains, or profits of any investments made on behalf of a retirement system, pension fund, or investment board for which such person is a member or employee, nor receive any pay or emolument for services in connection with any investment.

Fraud (P.A. 96-0006)

Public Act 96-0006 amends the Illinois Pension Code to create a new Section concerning fraud. Any person who knowingly makes any false statement or falsifies or permits to be falsified any record of a retirement system or pension fund created under this Code or the Illinois State Board of Investment in an attempt to defraud the retirement system, pension fund, or the Illinois State Board of Investment is guilty of a Class 3 felony.

Contingent and Placement Fees Prohibited (P.A. 96-0006)

Public Act 96-0006 amends the Illinois Pension Code to create a new section prohibiting contingent and placement fees. No person or entity shall retain a person or entity to attempt to influence the outcome of an investment decision of or the procurement of investment advice or services of a retirement system, pension fund, or investment board for compensation, contingent in whole or in part upon the decision or procurement. Any person who violates this provision is guilty of a business offense and shall be fined not more than \$10,000. In addition, any person convicted of a violation of this provision is prohibited for a period of 3 years from conducting such activities.

Approval of Travel or Educational Mission (P.A. 96-0006)

Public Act 96-0006 creates a new Section concerning travel and educational missions. The expenses for travel or educational missions of a board member of a retirement system, pension fund, or investment board must be approved by a majority of the board prior to the travel or educational mission.

Changes to SERS Board of Directors (P.A. 96-0006)

Public Act 96-0006 states that notwithstanding any provision of current law, the term of office of each trustee of the board appointed by the Governor who is sitting on the board is terminated on that effective date of the Act (April 3rd, 2009). Beginning on the 90th day after the effective date of this Act (July 2, 2009), the board shall consist of 13 trustees as follows:

- (i) the Comptroller, who shall be the Chairperson;
- (ii) six persons appointed by the Governor with the advice and consent of the Senate who may not be members of the system or hold an elective State office and who shall serve for a term of 5 years, except that the terms of the initial appointees under this Act shall be 3 for a term of 3 years and 3 for a term of 5 years;
- (iii) four active participants of the system having at least 8 years of creditable service, to be elected from the contributing members of the system; and
- (iv) two annuitants of the system who have been annuitants for at least one full year, to be elected from and by the annuitants of the system.

Changes to SURS Board of Trustees (P.A. 96-0006)

Public Act 96-0006 amends the Illinois Pension Code to add that the terms of all trustees holding office on the effective date of this Act (April 3, 2009) shall terminate on that effective date. The Governor shall make nominations for appointment within 60 days after the effective date of this Act (June 2, 2009). A trustee sitting on the board on April 3, 2009 may not hold over in office for more than 90 days after that effective date. In addition to this, Public Act 96-0006 states that beginning on the 90th day after the effective date of this Act (July 2, 2009), the Board of Trustees shall be constituted as follows:

- (i) The Chairperson of the board of Higher Education, who shall act as chairperson of the Board;
- (ii) Four trustees appointed by the Governor with the advice and consent of the Senate who may not be members of the system or hold an elective State office and who shall serve for a term of 6 years, except that the terms of the initial appointees shall be 2 for a term of 3 years and 2 for a term of 6 years;
- (iii) Four active participants of the system to be elected from the contributing membership of the system by the contributing members, no more than 2 of which may be from any of the University of Illinois campuses, who shall serve for a term of 6 years, except that the terms of the initially elected members shall be 2 for a term of 3 years and 2 for a term of 6 years; and
- (iv) Two annuitants of the system who have been annuitants for at least one full year, to be elected from and by the annuitants of the system, no more than one of which may be from any of the University of Illinois campuses, who shall serve for a term of 6 years, except that the terms of the initially elected members shall be 1 for a term of 3 years and 1 for a term of 6 years.

Termination of TRS Executive Director (P.A. 96-0006)

Public Act 96-0006 amends the Illinois Pension Code to add that the secretary and chief executive officer of the Teachers' Retirement System, known as the Executive Director, holding that position on April 1, 2009 is terminated on July 1, 2009, by operation of law, and shall thereafter no longer hold that position or any other employment with the system. The board is directed to take whatever action is necessary to effectuate this termination.

Changes to the TRS Board of Trustees (P.A. 96-0006)

Public Act 96-0006 amends the Pension Code to change the composition of the TRS board of trustees. The board shall consist of 13 members, 6 of whom shall be appointed by the governor; 4 active teachers elected by the contributing members, and 2 annuitant members elected by the annuitants of the system. The Superintendent of Education is an ex-officio member who serves as president of the board.

Two-Tier Pension Reform (P.A. 96-0889)

Public Act 96-0889, effective January 1, 2011, amends the Pension Code to create a Tier 2 schedule of benefits for IMRF, Chicago Municipal, Cook County, Cook County Forest Preserve, Chicago Laborers, Chicago Park District, Metropolitan Water, SERS, SURS, TRS, and Chicago Teachers. (Judges and GA separate; CTA, Police, and Fire excluded.)

The benefit provisions are slightly different among public safety employees including correctional guards, non-public safety employees, and Judges and General Assembly.

Except for State police officers, firefighters, and Correctional guards, the normal retirement age is 67 years old with 10 years of service. Early retirement is available at age 62 with 10 years of service, however, this results in a reduction in benefits by 6% for each year under age 67. The annuity is based on the highest 8 years out of last 10 years of service, and the pensionable salary is capped at \$106,800, as automatically increased by the lesser of 3% or one-half of the annual increase in the CPI-U during the preceding 12-month calendar year.

For State Police Officers, Firefighters, and Correctional Guards, the normal retirement age is 60 years old with 20 years of service. However, State Police officers, Firefighters, and DOC Guards are still eligible for Alternative Formula.

The Tier 2 COLA will be payable at the latter of the first anniversary of retirement or age 67 with an increase rate tied to the CPI-U. The increase rate is the lesser of 3% or one-half the annual increase in the CPI-U during the preceding 12-month calendar year; if an increase in CPI is zero or if there is a decrease in CPI, then no COLA is payable. The Tier 2 COLA is not compounded.

Survivor benefits will be payable at 66.7% of the earned retirement benefit at death, and will increase annually at the same rate (the lesser of 3% or one-half of the annual increase in the CPI-U during the preceding 12-month calendar year). Also, the annual increase will not be compounded.

As mentioned above, retirement benefit provisions for the Judges and General Assembly systems are separate from the rest of the pension systems. The normal retirement age is 67 years of age with 8 years of service, and early retirement is available at age 62 with 8 years of service. Like other pension systems, early retirement will result in a reduction in benefits by 6% for each year under age 67. The retirement annuity is based on the highest 8 out of the final 10 years of service.

For GARS and JRS, the benefit formula is also changed to 3% of Final Average Salary for each year of service, and the maximum annuity is capped at 60% of Final Average Salary. The annual increases in annuity begin after attainment of age 67, and the increase rate equals the lesser of 3% or one-half of the annual increase in the CPI-U during the preceding 12-month calendar year, which is the same as the aforementioned funds. However, annual increases are compounded.

Survivor benefits are payable at 66.7% of the earned retirement benefit at death, and will increase annually at the rate of the lesser of 3% or one-half of the annual increase in the CPI-U during the preceding 12-month calendar year. Also, annual increases will be compounded.

P.A. 96-0889 added two non-benefit provisions. One is that “Double Dipping” is prohibited. In some cases, retirees were allowed to simultaneously collect a pension and a salary with a public employer. The other provision is changes in the Chicago Teachers’ funding plan. Contributions for FY 2011 – 2014 are specified in this Act, and the CTPF’s funding plan is extended such that the pension fund must attain a 90% funded ratio by FY 2059.

Two-Tier Pension Reform for Police and Fire Pension Funds (P.A. 96-1495)

Public Act 96-1495, effective January 1, 2011, amended the Pension Code to create a Tier 2 system for Downstate Police, Downstate Fire, Chicago Police, Chicago Fire, and IMRF (SLEP). The major provisions of the Act are briefly summarized below.

The normal retirement age is 55 years old with 10 years of service. Early retirement is available at age 50 with 10 years of service, however, this results in a reduction in benefits by 6% for each year the retiree is under age 55. The annuity is calculated at the rate of 2.5% of Final Average Salary for a maximum of 75%, and is based on the highest 8 years out of last 10 years of service. The annual final average salary may not exceed \$106,800, as automatically increased by the lesser of 3% or one-half of the annual increase in the CPI-U during the preceding 12-month calendar year.

Annual increases in retirement annuity, tied to the CPI, will begin at age 60 either on the January 1st after the police officer/firefighter retires or the first anniversary of the commencement of the pension starting date, whichever is later. The annual increase is the lesser of 3% or one-half the annual increase in the CPI-U during the preceding 12-month calendar year; if an increase in CPI is zero or if there is a decrease in CPI, then no COLA is payable. The COLA for Tier 2 annuitants is not compounded.

Similar to retirement annuity, survivor benefits are payable at 66.7% of the earned retirement benefit at death, and will increase annually at the same rate (the lesser of 3% or one-half of the annual increase in the CPI-U during the preceding 12-month calendar year). Also, annual increases will not be compounded.

Police/Fire Municipal Funding Provisions (P.A. 96-1495)

P.A. 96-1495 changed the funding goal for Article 3 and 4 pension funds such that the funding ratio must reach 90% by FY 2040. Also, annual municipal contributions will be calculated as a level percentage of payroll under the Projected Unit Credit Actuarial Cost Method. The Comptroller is authorized to redirect funds otherwise payable directly to municipalities if municipal contributions are deemed to be actuarially insufficient.

Issuance of Pension Obligation Bonds for FY 2011 (P.A. 96-1497)

Public Act 96-1497 mandated the issuance of new pension bonds totaling \$4.096 billion. The bond sale proceeds, net of expenses, were used as a portion of the FY 2011 State contributions to the five State systems. The actual bond sale proceeds, net of expenses, were \$3.7 billion. Public Act 96-1497 also required the Boards of Trustees of the State Systems to recertify to the Governor the amount of required State contributions for FY 2011 using the assumption that the second tier of benefits implemented by P.A. 96-0889 had been in effect on June 30, 2009.

97th General Assembly (2011 – 2012)

Anti-Fraud Provisions (P.A. 97-0651)

P.A. 97-0651 provides that any reasonable suspicion of a false statement by any appointed or elected commissioners, trustees, directors, board members, or employees of a retirement system or pension fund governed by the Pension Code or the State Board of Investment shall be immediately referred to the board of trustees of the pension fund or the State Board of Investment. The Act also states that the board shall immediately notify the State's Attorney of the jurisdiction where any alleged fraudulent activity occurred.

Pension Credit for Employees of Statewide Teacher Organizations – SURS and TRS (P.A. 97-0651)

Prior to the enactment of P.A. 97-0651, members of SURS and TRS were allowed to earn pensionable service credit while working for a statewide teacher organization or national teacher organization under certain conditions. P.A. 97-0651 specifies that such service credit can only be earned if the individual first became a full-time employee of the teacher organization and becomes a participant before the effective date of the Act (January 5th, 2012). This provision effectively prohibits members of SURS and TRS from earning this type of service credit after January 5th, 2012.

Repeal of Optional TRS Service Credit Provision of P.A. 94-1111 (P.A. 97-0651)

P.A. 94-1111, which became effective on February 27th, 2007, allowed certain employees of statewide teacher organizations to establish service credit in TRS for periods of employment prior to becoming certified as a teacher if certain conditions were met before the effective date of the Act. P.A. 97-0651 repeals this provision.

Payment for Reciprocal Service in GARS (P.A. 97-0967)

P.A. 97-0967 amends the GARS and the General Provisions Articles of the Illinois Pension Code. In cases where a GARS participant's final average salary in a retirement fund governed under the Retirement Systems Reciprocal Act is used to calculate a GARS pension, and in cases where the final average salary in a reciprocal system is higher than the final salary for annuity purposes in GARS, then the employer of the participant in the reciprocal system must pay to GARS the increased cost that is attributable to the higher level of compensation.

Creation of the State Actuary (P.A. 97-0694)

P.A. 97-0694 amends the Illinois State Auditing Act to permit the Auditor General to contract with or hire an actuary to serve as the State Actuary. The Act allows the Auditor General to select the State Actuary without engaging in a competitive procurement process. The State Actuary will have the responsibility for conducting reviews of the actuarial practices of the State

retirement systems and identifying recommended changes in actuarial assumptions that the boards of the systems must consider before finalizing their certifications of the required annual State contributions.

98th General Assembly (2013 – 2014)

Temporary Extension of the TRS Early Retirement Option (ERO) (P.A. 98-0042)

P.A. 98-0042 extended the Early Retirement Option in TRS for members who retired on or after July 1, 2013 and before July 1, 2016. P.A. 94-0004 required CGFA to make a recommendation to the General Assembly by February 1, 2013 on any proportional adjustments to member and employer contribution rates. In accordance with TRS' experience study by Buck Consultants, CGFA's actuary, Sandor Goldstein, conducted a review of Buck's recommended revision to member and employer ERO contribution rates. Mr. Goldstein found the revised rates (14.4% for members and 29.3% for employers) to be sufficient to fund 100% of the ERO benefit. CGFA's recommendation was transmitted to the General Assembly on January 10th, 2013.

100th General Assembly (2017 – 2018)

Creation of Tier 3 (P.A. 100-0023)

P.A. 100-0023, effective July 6, 2017, created an optional Tier 3 hybrid plan for the following pension funds: Chicago Municipal, Cook County, Cook County Forest Preserve, Chicago Laborers, Chicago Park District, SERS (non-coordinated members), SURS, TRS, and Chicago Teachers. *Please refer to the P.A. 100-0023 section for the summary of the Tier 3 plan.*

For *SERS (only for non-coordinated members), TRS, and SURS*, each system shall endeavor to make participation available "as soon as possible." This requirement is referred to as the "implementation date." Tier 3 benefits are available as soon as the board of that respective system authorizes members to begin participation. Employees hired on or after the "implementation date" and existing Tier 2 members must make the election to participate in Tier 3 within 30 days of becoming a member in the pertinent system.

For *Chicago Municipal, Cook County, Cook County Forest Preserve Employees, LABF, Chicago Park District, and Chicago Teachers*, Tier 3 benefits are available beginning 6 months after the approval of the governing body of the unit of local government. No later than 5 months after the approval of the Tier 3 plan, the affected system shall prepare and implement the defined contribution component of the Tier 3 hybrid plan. Newly hired members must make the election to participate in the Tier 3 hybrid system within 30 days of becoming a member in the pertinent system.

Governor's Salary Cap for SURS and TRS (P.A. 100-0023)

If the amount of a participant's salary exceeds the amount of the Governor's salary, the employer shall pay to the System an amount equal to the employer normal cost multiplied by the excess amount of salary.

Assumption Smoothing for the 5 State Systems (P.A. 100-0023)

State contribution-altering changes in actuarial or investment assumptions shall be implemented and smoothed over a 5-year period beginning in FY 18.

- State contribution-altering changes in actuarial or investment assumptions that first applied in fiscal year 2014, 2015, 2016, or 2017 shall be retroactively smoothed over a 5-year period, beginning with and including the year in which the actuarial change first applied.
- By November 1, 2017, the amount of the State Contribution shall be recertified to include retroactive smoothing.

Changes in Chicago Fire COLA (P.A. 100-0023)

P.A. 100-0023 amends the Chicago Fire Article of the Pension Code such that firefighters born after December 31, 1954 but before January 1, 1966 and retired after September 1, 1967 are entitled to a 3% noncompounded annuity increase upon:

- The 1st of the month following the 1-year anniversary of retirement, and every 1st of January thereafter; or
- Following the attainment of age 55 if they were not 55 after 1 year of retirement

Two Voluntary Pension Buyout Programs for SERS, TRS, and SURS (P.A. 100-0587)

P.A. 100-0587, effective June 4, 2018, amends the Pension Code to create two voluntary pension buyout programs for SERS, TRS, and SURS: The total Pension Buyout Program and the 3% COLA Buyout Program. Each program is briefly summarized as follows:

Total Pension Buyout

Until June 30, 2021, inactive, vested Tier 1 or Tier 2 members in SERS, SURS, or TRS may irrevocably elect to receive an accelerated pension benefit payment equal to 60% of the present value of a member's pension benefit in lieu of receiving any pension benefit. The accelerated pension payments would be paid from the proceeds of the State Pension Obligation Acceleration Bonds.

Voluntary Compounded 3% COLA Buyout

A vested, retiring Tier 1 defined benefit member in SERS, SURS, or TRS may irrevocably elect to receive an accelerated pension benefit payment equal to 70% of the difference of the present value of 3% compounded COLA and the present value of a reduced COLA (simple 1.5%) in exchange for receiving a simple 1.5% COLA. The accelerated pension benefit payments would be paid from the proceeds of the State Pension Obligation Acceleration Bonds.

Teachers' Final salary Spiking Cap of 3% for TRS and SURS (P.A. 100-0587)

For purposes of determining a teacher's or university employee's pensionable salary, annual salary increases with the same employer under SURS or TRS are effectively capped at a certain rate. (This "Final Average Salary Cap," as it is known, was implemented by P.A. 94-0004.) If a teacher's full-time equivalent annual salary increases by more than the specified FAS cap rate with the same employer, the (local) employer would have to make a payment to TRS or SURS equal to the present value of the increase in benefits resulting from the salary increase in excess of the capped rate. P.A. 100-0587 lowered the cap to 3% from 6% for academic years beginning on or after July 1, 2018 and for salary under a contract or collective bargaining agreement on or after June 4, 2018 (the effective date of P.A. 100-0587). However, please note that P.A. 101-0010, *summarized below*, increased the FAS cap back to 6%.

Recertification of FY 2019 State Contributions for SERS, SURS, and TRS (P.A. 100-0587)

Between June 15, 2019, and June 30, 2019, each System shall recalculate and recertify State contributions for FY 2019, taking into account all changes made by P.A. 100-0587.

101st General Assembly (2019 – 2020)

Extension of the Voluntary Pension Buyout Programs (P.A. 101-0010)

The election period for the two existing pension buyout programs, created by P.A. 100-0587, were extended by 3 years to June 30, 2024, from June 30, 2021.

Reinstatement of Teachers' Final Average Salary (FAS) Cap of 6% for TRS and SURS (P.A. 101-0010)

For purposes of determining a teacher's or university employee's pensionable salary, annual salary increases with the same employer under SURS or TRS are effectively capped at a certain rate. (This "Final Average Salary Cap," as it is known, was implemented by P.A. 94-0004.) If a teacher's full-time equivalent annual salary increases by more than the specified FAS cap rate with the same employer, the (local) employer would have to make a payment to TRS or SURS equal to the present value of the increase in benefits resulting from the salary increase in excess of the capped rate. P.A. 101-0010 repealed the lower 3% FAS cap implemented by P.A. 100-0587, restoring the cap to 6% for academic years beginning on or after July 1, 2018 and for salary under a contract or collective bargaining agreement on or after June 4, 2018 (the effective date of P.A. 100-0587).

GRF Lump-sum Appropriation for SERS (P.A. 101-0010)

When State agencies make employer contributions to SERS, the contributions shall be made for each pay period by warrants by the State Comptroller against their respective funds or appropriations based on vouchers. However, contributions for the GRF payrolls are not required to be processed by the Comptroller. Since 2012 the GRF portion of State contributions has been paid by lump sum, via the Budget Implementation bill for the past several years, according to SERS. P.A. 101-0010 eliminates the need to include the appropriation process for the GRF portion of State contributions in the Budget Implementation bill every year as the process would be made permanent under this Act. SERS stated the percentage of total members who are on the GRF payrolls is approximately 65%.

102nd General Assembly (2021 – 2022)

2-Year Extension of the Two Voluntary Pension Buyout Programs (P.A. 102-0718)

P.A. 102-0718 extended the two pension buyout programs by 2 years to June 30, 2026, such that eligible members of SERS, SURS, or TRS are allowed to elect to participate in the pension buyout programs until June 30, 2026. Prior to the Act, the programs were scheduled to sunset on June 30, 2024. This Act also authorized the issuance of an additional \$1 billion of State Pension Obligation Acceleration Bonds, allowing a total of \$2 billion in bonds to be issued for the buyout programs to reflect the extended window period for the buyout programs. Prior to P.A. 102-0718, the State Pension Obligation Acceleration Bonds of \$1 billion were authorized for the purpose of making the accelerated pension benefit payments to those who elected to participate in the buyout programs.

Benefit Changes in the SERS Tier 2 Alternative Formula (P.A. 102-0719)

Under current law, Tier 2 members in the SERS Alternative Formula are able to retire at age 60 with 20 years of service. P.A. 102-0719, effective May 6, 2022, allows certain Tier 2 law enforcement personnel to retire at age 55 with 20 years of service under the Alternative Formula. Those who are allowed to retire at a reduced age under this Act are State Police troopers, investigators for the Secretary of State, Conservation police officers, investigators for the Department of Revenue or the Illinois Gaming Board, investigators for the Office of the Attorney General, and Commerce Commission police officers or arson investigators. Members participating in the SERS Alternative Formula contribute 12.5% of salary towards their pensions, regardless of tier status. The Act does not change the member contribution amount.

103rd General Assembly (2023 – 2024)

Line-of-Duty Disability Benefit for SURS Police Officers (P.A. 103-0080)

P.A. 103-0080 provides for a line of duty disability annuity that would apply to SURS police officers disabled as a result of the performance of an act of duty, and whose disability leads to the inability to continue his or her duties as a police officer. Disabling conditions include stroke, tuberculosis, and diseases of the lungs and respiratory tract, among others. This bill applies to police officers whose line of duty benefit occurred on or after January 1, 2022 (meaning some members already on disability would be entitled to a re-calculation of benefits).

The line-of-duty disability annuity shall be equal to the greater of: (1) 65% of the salary attached to the rank on the police force held by the officer at the date of suspension of duty or retirement; or (2) 65% of the police officer's average earnings during the 24 months immediately preceding the month in which disability occurred. Line of duty disability benefits shall be discontinued if the participant is no longer disabled. These changes would affect Tier 1 and Tier 2 police officers equally.

VII. Current Combined Financial Condition of the State Retirement Systems

STATE RETIREMENT SYSTEMS, COMBINED

The following section of the report looks at historical information regarding the financial condition of the State funded retirement systems. We will examine the five systems together and then take a snapshot of each system's position and outlook as of June 30, 2023, covering the period from FY 1996 through FY 2023 as well as the pension appropriations to the five systems through FY 2025.

TABLE 2

Summary of Appropriations Authorized State Retirement Systems FY 1996 - FY 2025 (\$ in Millions)						
Fiscal Years	TRS	SURS	SERS	JRS	GARS	Total
1996	\$330.8	\$123.9	\$144.0	\$13.0	\$2.6	\$614.3
1997	\$386.1	\$159.5	\$159.1	\$14.6	\$3.0	\$722.3
1998	\$467.9	\$201.6	\$168.1	\$16.7	\$3.4	\$857.7
1999	\$573.5	\$215.4	\$305.9	\$20.5	\$4.0	\$1,119.3
2000	\$640.1	\$224.6	\$325.7	\$23.5	\$4.4	\$1,218.3
2001	\$724.9	\$232.6	\$341.9	\$26.4	\$4.8	\$1,330.6
2002	\$815.4	\$240.4	\$364.7	\$29.8	\$5.2	\$1,455.5
2003	\$930.1	\$269.6	\$405.5	\$33.6	\$5.6	\$1,644.4
2004 ¹	\$5,362.0	\$1,743.7	\$1,864.7	\$178.5	\$32.9	\$9,181.8
2005	\$907.0	\$270.0	\$498.6	\$32.0	\$4.7	\$1,712.3
2006	\$534.6	\$166.6	\$203.8	\$29.2	\$4.2	\$938.4
2007	\$738.0	\$252.0	\$344.1	\$35.2	\$5.2	\$1,374.5
2008	\$1,041.3	\$340.3	\$551.6	\$46.9	\$6.8	\$1,986.9
2009	\$1,451.8	\$450.2	\$757.2	\$60.0	\$8.8	\$2,728.0
2010	\$2,080.7	\$700.2	\$1,169.0	\$78.5	\$10.4	\$4,038.8
2011	\$2,170.9	\$776.5	\$1,219.7	\$62.7	\$11.4	\$4,241.2
2012	\$2,406.5	\$980.5	\$1,450.8	\$63.6	\$10.5	\$4,911.9
2013	\$2,703.5	\$1,402.8	\$1,659.6	\$88.2	\$14.2	\$5,868.3
2014	\$3,438.6	\$1,509.8	\$1,743.9	\$126.8	\$13.9	\$6,833.0
2015	\$3,412.9	\$1,544.2	\$1,829.1	\$134.0	\$15.8	\$6,936.0
2016	\$3,742.7	\$1,601.5	\$2,124.9	\$132.1	\$16.1	\$7,617.3
2017	\$3,986.6	\$1,671.4	\$2,097.4	\$131.3	\$21.7	\$7,908.5
2018	\$4,095.3	\$1,629.3	\$2,115.3	\$135.6	\$21.2	\$7,996.7
2019	\$4,466.2	\$1,655.2	\$2,233.9 ²	\$140.5	\$23.2	\$8,518.9
2020	\$4,813.6	\$1,854.7	\$2,385.3	\$144.2	\$25.8	\$9,223.5
2021	\$5,140.7	\$1,995.8	\$2,447.9	\$148.6	\$27.3	\$9,760.3
2022 ³	\$5,866.9	\$2,159.4	\$2,639.6	\$156.0	\$28.5	\$10,850.4
2023 ⁴	\$6,124.5	\$2,196.1	\$2,680.2	\$147.4	\$28.1	\$11,176.3
2024	\$6,043.5	\$2,133.3	\$2,589.8	\$147.8	\$26.5	\$10,940.9
2025	\$6,203.9	\$2,212.8	\$2,672.4	\$148.9	\$26.2	\$11,264.2
Totals	\$81,600.5	\$30,913.9	\$39,493.7	\$2,546.1	\$416.3	\$154,970.5

¹ FY 2004 State appropriations authorized include \$7.3 Billion in proceeds from the sale of pension obligation bonds.

² The FY 2019 recertified State contributions for SERS decreased by approximately \$20 million from \$2,254.1 million to \$2,233.9 million after reflecting the provisions of P.A. 100-0587 that created the voluntary pension buyout programs.

³ The FY 2022 appropriations include an additional \$300 million in State contributions to the five State systems, appropriated from the Pension Stabilization Fund, pursuant to P.A. 102-0696, effective March 25, 2022.

⁴ The FY 2023 appropriations include a total of an additional \$400 million in State contributions to the five State systems, appropriated from the Pension Stabilization Fund. The first \$200 million was appropriated, pursuant to P.A. 102-0698, effective April 19, 2022, and the second \$200 million, pursuant to P.A. 103-0006, effective July 1, 2023.

Over the last 30 years, including FY 2025, the State of Illinois has appropriated \$155.0 billion to the five State-funded retirement systems as shown in Table 2 on the previous page. Of that amount, \$7.3 billion was from the sale of \$10 billion in pension obligation bonds. Additional contributions above and beyond the statutorily-required contributions were made for Fiscal Years 2022 and 2023: an additional \$300 million was appropriated for FY 2022 via P.A. 102-0696, and, for FY 2023, an additional \$400 million was appropriated via P.A. 102-0698 (first \$200 million) and P.A. 103-0006 (second \$200 million). The Teachers' Retirement System has received by far the largest amount of contributions, totaling \$81.6 billion. The Judges' and General Assembly Retirement Systems have received the smallest amount of contributions, as they have far fewer participants. The effect these appropriations have had on the unfunded liabilities of the five systems is discussed in greater detail in the following section.

Based upon the actuarial value of assets, the total unfunded liabilities of the State systems totaled \$141.4 billion on June 30, 2023, led by the Teachers' Retirement System (TRS), whose unfunded liabilities amounted to \$81.9 billion. As the largest of the State systems, TRS accounts for approximately 57.9% of the total assets and liabilities of the five State systems combined. Table 3 below provides a summary of the financial condition of each of the five State retirement systems, showing their respective liabilities and assets as well as their accumulated unfunded liabilities and funded ratios. The figures on this table are calculated using the asset smoothing method required by Public Act 96-0043, a technique that averages the annual fluctuation in investment performance over a period of 5 years.

TABLE 3

Summary of Financial Condition FY 2023				
State Retirement Systems Combined				
Assets at Actuarial Value / With Asset Smoothing (P.A. 96-0043)				
(\$ in Millions)				
<u>System</u>	<u>Accrued Liability</u>	<u>Actuarial Assets</u>	<u>Unfunded Liability</u>	<u>Funded Ratio</u>
TRS	\$148,398.3	\$66,502.3	\$81,896.0	44.8%
SERS	\$53,908.5	\$24,072.1	\$29,836.4	44.7%
SURS	\$51,050.8	\$23,381.2	\$27,669.5	45.8%
JRS	\$3,041.4	\$1,357.1	\$1,684.3	44.6%
GARS	\$365.7	\$85.8	\$279.9	23.5%
TOTAL	\$256,764.7	\$115,398.6	\$141,366.1	44.9%

A more realistic snapshot of the true financial position of the State retirement systems would be based upon the market value of the assets. This is because the market value of assets has fully recognized all market returns, whether better or worse than assumed, while those returns have not yet been fully reflected in the actuarial value of assets due to the asset smoothing. Table 4 on the following page provides a summary of the financial condition of each of the five State

retirement systems, showing their respective liabilities and assets as well as their accumulated unfunded liabilities and funded ratios. No asset smoothing effects are included in these numbers. Based upon the market value of assets, the combined unfunded liabilities of the State systems totaled \$142.2 billion on June 30, 2023. Since the cumulative effect of the remaining unrecognized worse-than-assumed market returns slightly outweighed the better-than-projected returns, the actuarial value of assets still has more actuarial losses to recognize. As a result, the market value of assets was slightly lower, leading to the aggregate market value unfunded liability that is \$876,900 higher. TRS, whose unfunded liabilities amounted to \$81.9 billion, represents approximately 57.6% of the combined total unfunded balance.

TABLE 4

Summary of Financial Condition FY 2023				
State Retirement Systems Combined				
Assets at Market Value / Without Asset Smoothing (P.A. 96-0043)				
(\$ in Millions)				
<u>System</u>	<u>Accrued Liability</u>	<u>Market Assets</u>	<u>Unfunded Liability</u>	<u>Funded Ratio</u>
TRS	\$148,398.3	\$66,504.7	\$81,893.6	44.8%
SERS	\$53,908.5	\$23,415.4	\$30,493.1	43.4%
SURS	\$51,050.8	\$23,193.2	\$27,857.5	45.4%
JRS	\$3,041.4	\$1,325.9	\$1,715.5	43.6%
GARS	\$365.7	\$83.4	\$282.3	22.8%
TOTAL	\$256,764.7	\$114,522.7	\$142,242.0	44.6%

The funded ratios based on the market value of assets for each of the five State retirement systems may be compared to the aggregate funded ratio of 44.6% for the five systems. Compared to FY 2022 when the all systems experienced negative investment returns (TRS and SURS around -1% and SERS, JRS, and GARS around -6%), all five systems generated returns ranging from 5% to 7% in FY 2023, which helped improve their funding status. While the General Assembly Retirement System (GARS) has the lowest funded ratio, it is more manageable to improve the GARS' financial condition due to its much smaller size, accounting for far less than 1% of the combined unfunded liability. Nevertheless, the funded ratios of the other four systems have all remained between 43% and 46%.

Chart 1 on the following page shows a 15-year history of the cumulative unfunded State pension liability and is based upon calculations performed by the retirement systems' actuaries using the market value of assets for all years, including FY 2023. Again, it may provide a more realistic representation of the retirement systems' true financial condition and actual return on the plan assets for the year as the asset smoothing method was not used.

The aggregate unfunded liability has been growing significantly over the past decade. One of the main drivers is actuarially insufficient State contributions determined by the current pension

funding policy under P.A. 88-0593. (More information on P.A. 88-0593 is provided on page 23.) As the actuaries for the State retirement systems have noted in the respective annual actuarial valuation reports, the funding plan under P.A. 88-0593 produces employer (State) contributions that are actuarially insufficient, meaning if all other actuarial assumptions are met, unfunded liabilities will increase due to the State contributing an amount that is not sufficient to stop the growth in the unfunded liability. Hence, there is a distinction between contributions that are statutorily sufficient and contributions that are considered actuarially sufficient (the annual reports of the State Actuary have noted this distinction as well).

The most common other reasons for an increase in unfunded liability are actuarial losses from changes in actuarial assumptions, such as lowering assumed investment rates, or poor investment performance. Further details on the main factors affecting unfunded liability can be found in Charts 2 and 3.

CHART 1

Over the past 15 years, the unfunded liability based on the market value has risen from \$77.8 billion in FY 2009 to \$142.2 billion in FY 2023. A similar pattern was observed over the past five years, with the combined unfunded liability increasing in four of those five years.

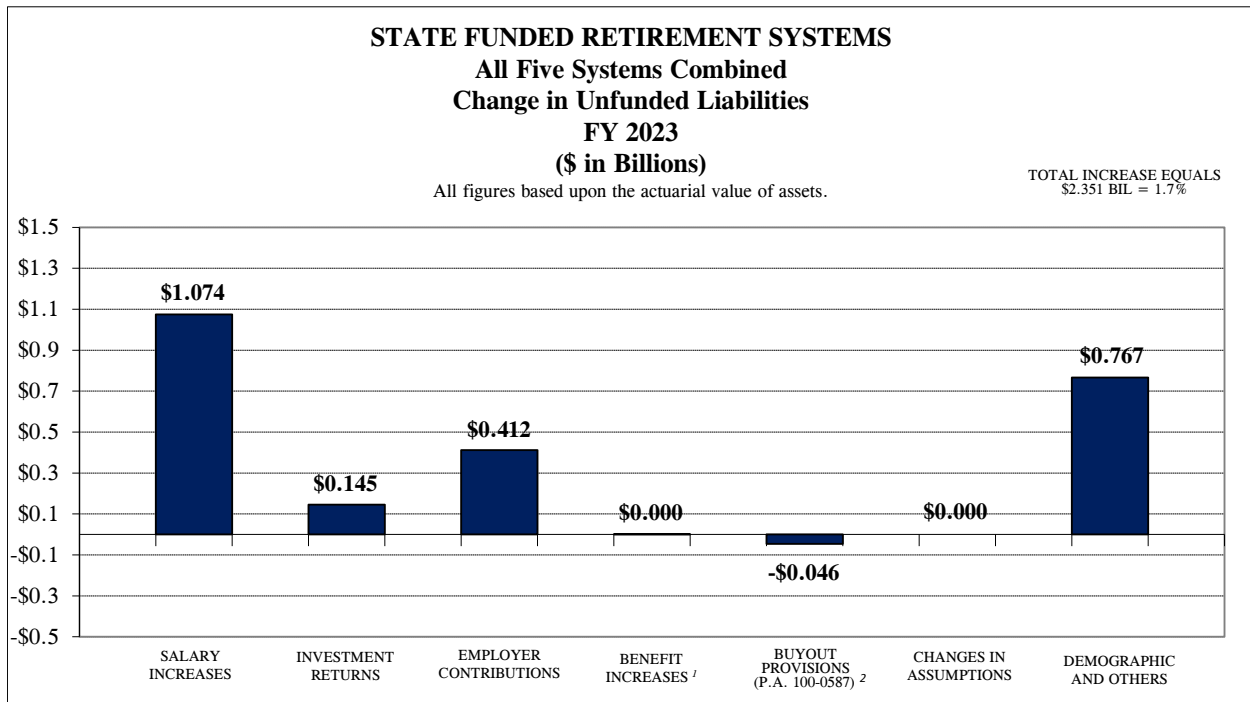

The five systems did not meet their respective actuarially assumed rates of investment return in FY 2019 and FY 2020, partially leading to a rise in the unfunded liability. In fact, it reached its highest level of \$144.2 billion in FY 2020. Then, thanks to exceptionally strong investment performances across all systems in FY 2021, a significant improvement occurred, helping the

unfunded liability to decline by 10% to \$129.7 billion. However, market instability as a result of the COVID-19 pandemic greatly diminished the improvements, causing an increase in the unfunded liability to \$139.8 billion in FY 2022. This stark increase parallels similar sizable increases of FY 2009 and FY 2016, where FY 2009 occurred after the Great Recession and FY 2016 saw four of the five State Systems lowering their rate of investment assumptions. Then, another uptick occurred, partially due to the fact that all the systems except TRS experienced lower-than-assumed investment returns on a market value basis in FY 2023. (The actual investment returns of the five systems based on market value in FY 2023 are shown in Figure 2.) This pushed the unfunded liability up by \$2.4 billion to \$142.2 billion, bringing it closer to the peak seen three years ago in FY 2020.

It is worth noting that the significant drop in FY 2021, which mainly resulted from the five systems' remarkable investment returns of well above 20%, is normally an outlier to the general pattern when evaluating unfunded liabilities. Over the last 15 years, there were only three occurrences when the combined unfunded liability decreased from the previous year: in FY 2011 (-2.9%), FY 2017 (-0.5%) and FY 2021 (-10.1%).

Details on the factors affecting the aggregate unfunded liabilities of the five State systems in FY 2023 can be found in Chart 2. All the factors shown as positive amounts represent increases in the unfunded liability and negative amounts represent decreases in the unfunded liability.

CHART 2

¹ The unfunded liability increased by \$100,000 because of the creation of a line of duty disability benefit for SURS police officers who are injured in the line of duty on or after January 1, 2022, pursuant to P.A. 103-0080.

² The two voluntary Accelerated Pension Benefit Payment Programs (the pension buyout programs) for TRS, SERS, and SURS were created by P.A. 100-0587, effective June 4, 2018, and extended by 3 years to June 30, 2024 by P.A. 101-0010, effective June 5, 2019. P.A. 102-0718, effective May 5, 2022, extended the programs by 2 more years to June 30, 2026. While SERS did not report data from the buyout programs, TRS reported an actuarial gain of \$35.5 million and SURS reported an actuarial gain of \$10.9 million in FY 2023.

At the end of FY 2022, the aggregate unfunded liability based on the actuarial value of assets was \$139.0 billion. A year later, it stood at \$141.4 billion as of FY 2023. This means that the combined unfunded liability rose \$2.351 billion during FY 2023, a 1.7% increase, compared to the previous year.

As shown in Chart 2 on the previous page, the primary contributor to this increase was higher-than-assumed salary increases observed across all five systems, which raised the aggregate unfunded liability by \$1.074 billion. This rise in the unfunded liability was largely driven by the Big 3 systems, with SERS accounting for \$528.8 million (49.2%), SURS for \$293.9 million (27.4%), and TRS for \$237.2 million (22.1%). In fact, FY 2023 was the first year that the combined effect of higher-than-assumed salary increases was the largest contributor to the rise in the unfunded liability for a fiscal year since the current pension funding plan was enacted. Historically, the most common leading factor has been actuarially insufficient employer contributions, as mentioned earlier.

One of the other factors contributing to the increase in FY 2023 was the “demographics and other” factors, stemming from a \$766.6 million actuarial loss by TRS and SERS. This category shows losses or gains from any deviations between actual demographic experiences and assumptions or from any other miscellaneous factors. TRS accounted for \$237.2 million of the total loss (63.4%), primarily due to its programming enhancements, while SERS added \$182.6 million (23.8%), mainly resulting from new retiree liability that was not reported in prior year’s data according to the system’s valuation.

The actuarially insufficient employer contribution to TRS and SURS was another factor that raised the unfunded liability by \$411.5 million during FY 2023. It is worth noting that SERS, JRS, and GARS received excessive employer contributions that exceeded the normal cost, plus interest on unfunded liability, resulting in a combined actuarial gain of \$204.8 million across both systems.

Additionally, there was an actuarial loss of \$145 million from investment returns across all systems except SURS in FY 2023. SURS was the only system to generate an investment gain of \$41.5 million on an actuarial value basis in this category, due to the recognition of deferred gains from previous years exceeding deferred losses under the asset smoothing method, despite its actual investment return on a market basis being lower than its assumed rate. However, this small gain was entirely offset by the other four systems, leading to the combined investment actuarial loss for FY 2023.

Thankfully, the two buyout programs implemented by the Big 3 systems helped reduce the unfunded liability by \$46.4 million during the same year. Of the \$46.4 million actuarial gain, TRS reported an actuarial gain of \$35.5 million and SURS reported an actuarial gain of \$10.9 million. SERS reported no gains or losses in FY 2023.

Meanwhile, all five systems left their respective investment return rate assumptions unchanged in FY 2023. Figure 1 on the following page displays the historical changes in the investment return assumptions for each of the five State systems for the last ten fiscal years.

Figure 1

10-Year Historical Change in Investment Rate Assumptions											
System	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	
TRS	7.50%		7.00%								
SERS	7.25%		7.00%			6.75%					
SURS	7.25%				6.75%			6.50%			
JARS	7.00%		6.75%			6.50%					
GARS	7.00%		6.75%			6.50%					

NOTE: The years associated with investment rate assumption changes above reflect the actuarial valuation year, not the fiscal year in which the State contribution was calculated using the new rate.

Figure 2 below compares the five systems’ actual rate of returns on a market value basis in FY 2023 and their assumed rates of return. TRS experienced a 7.2% investment return, making it the only system to earn a return above its assumed rate of return in FY 2023. The other four systems all realized investment returns slightly below their assumed rates of return.

Figure 2

System	Actual Rate of Return	Assumed Rate of Return
TRS	7.2%	7.00%
SERS	6.3%	6.75%
SURS	5.3%	6.50%
JRS	6.3%	6.50%
GARS	6.2%	6.50%

Chart 3 on the following page shows the changes in the unfunded liability and provides an analysis of the causative factors since the enactment of P.A. 88-0593 in FY 1996, commonly known as the “1995 pension funding law,” or “the ramp,” which created the 50-year funding policy that governs annual State contributions to the five State systems.

From FY 1996 through FY 2023, the unfunded liability increased by \$122.650 billion to \$141.366 billion. Actuarially insufficient State contributions contributed the most to the increase in unfunded liability, accounting for approximately 48.1% of the total increase. Assumption changes caused a \$31.3 billion increase, representing 25.5% of the total increase. “Demographic and other factors” and investment returns that did not meet assumed rates also served to worsen the unfunded liability over time. The only factors that helped decrease the unfunded liability were lower-than-assumed salary increases over the entire time period and the pension buyout programs created for the Big 3 systems pursuant to P.A. 100-0587.

CHART 3

¹ The two voluntary Accelerated Pension Benefit Payment Programs (the pension buyout programs) for TRS, SERS, and SURS were created by P.A. 100-0587, effective June 4, 2018, and extended by 3 years to June 30, 2024 by P.A. 101-0010, effective June 5, 2019. P.A. 102-0718, effective May 5, 2022, extended the programs by 2 more years to June 30, 2026.

The current status of the two buyout programs of the Big 3 State systems is briefly summarized in Figure 3 below. As of August/September of 2024, the total payout amounts of the three systems were \$1.500 billion.

Figure 3

Status of the Two Buyout Programs as of August/September of 2024						
(\$ in Millions Unless Noted)						
	TRS		SERS		SURS	
	Amount Paid	Members	Amount Paid	Members	Amount Paid	Members
AAI Payouts (COLA Buyout)	\$697.8	4,899	\$402.4	4,038	\$20.1	216
Total Pension Buyout Payouts	\$325.8	2,565	\$27.2	162	\$26.8	111
Total	\$1,023.6	7,464	\$429.6	4,200	\$46.9	327
Total Amount Paid	\$1.500 Billion					
Total Members	11,991					

CHART 4

Chart 4 above shows the systems’ funded ratio based on the market value of assets, without the asset smoothing method. A funded ratio is the most commonly recognized measure of a retirement system’s financial health, and the trend of the funded ratio over time is more important than the ratio at any single point in time. While both the unfunded liability (Chart 1) and funded ratio (Chart 4) illustrate the financial condition of the pension systems, the two are negatively correlated by nature. (i.e., when one rises, the other falls.)

Although not shown in Chart 4, the combined funded ratio remained relatively stable from FY 2004 through FY 2007. However, it fell significantly in FYs 2008 and 2009, due to much lower-than-expected investment returns during the 2007-2009 recession.

Over the past 15 years, the aggregate funded ratio has generally hovered around 40%, until FY 2021. Strong investment returns helped increase the funded ratio to 43.3% in FY 2011. However, these gains were largely erased in the following year by poor investment returns as well as TRS’ reduction in investment return assumption from 8.5% to 8.0%.

The improvements from higher-than-expected investment returns in FYs 2013 and 2014 were reversed in FYs 2015 and 2016. The sharp drop in FY 2016 was mainly due to changes in actuarial assumptions by TRS, SERS, JRS, and GARS, including reductions in their respective assumed investment rates, along with lower-than-projected investment returns. The funding ratio remained between 39% and 40% from FYs 2017 through 2020, with slight upticks in FYs 2017 and 2018. An outsized investment performance in FY 2017, well above the respective systems’ assumed rates of return, helped the funding ratio grow to 39.8%. FY 2018 also saw an increase, although not as strong as that of FY 2017.

By FY 2020, the funded ratio dipped slightly to 39.0%, partially because of lower investment returns caused by onset of the COVID pandemic. Noticeable progress was finally made in FY 2021, with robust investment performances across all systems pushing the funded ratio up to 46.6%, the highest figure since FY 2008. However, negative investment returns from all five systems in FY 2022 offset this improvement, causing it to drop to 43.8%. The funded ratio then slightly improved to 44.6% in FY 2023. Although the past three years have performed better than the last decade, the combined funded ratio has remained well below the 50% funding level.

CHART 5

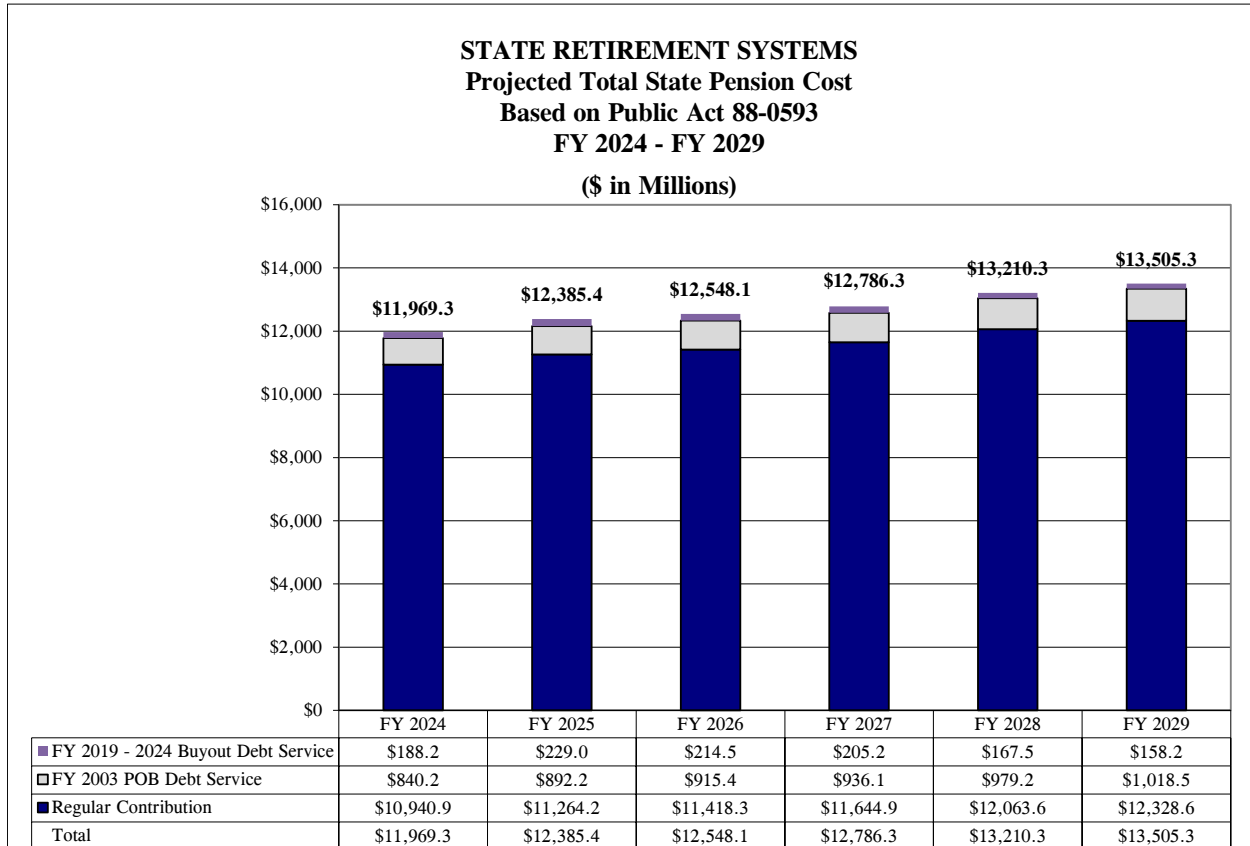

Chart 5 reflects the total pension-related expenditures by showing State contribution projections based on P.A. 88-0593 and all related debt service requirements for the period under review.

Public Act 93-0002 authorized the 2003 issuance of \$10 billion in pension obligation bonds and established the resulting debt service requirements.

Public Act 100-0587 authorized the issuance of the \$1 billion Pension Acceleration Bonds to fund the buyout programs, created by Public Act 100-0587. Public Act 102-0718 subsequently authorized the issuance of an additional \$1 billion of the Pension Acceleration Bonds to reflect the extended window period for the buyout programs, which are now scheduled to sunset on June 30, 2026. As of this writing, there have been 10 issuances of Pension Acceleration Bonds for which the data is available: \$300 million in FY 2019, \$225 million in FY 2020, \$125 million and \$87 million in FY 2021, \$148 million and \$125 million in FY 2022, \$148.5 million and \$200 million in FY 2023, and the most recent \$175 million and \$145 million in FY 2024. All of these issuances are also reflected in Chart 5. Please note that more information regarding the combined debt service of the bonds/notes can be found in Appendix J.

Table 5 below shows the projected normal cost for the all five State systems from FY 2023 through FY 2045. The normal cost is the cost of the benefit accrued in any given year. Employee contributions cover the employees' share of the total normal cost, and the rest will be covered by employer(s) (i.e., employer normal cost).

TABLE 5

ALL FIVE STATE RETIREMENT SYSTEMS COMBINED Projected Normal Costs based on Public Act 88-0593 Projections Provided by Retirement System Actuaries using FY 2023 Data (\$ in Millions)									
Fiscal Year	Tier 1 Normal Cost	Tier 1 Normal Cost as a % of Payroll	Tier 2 Normal Cost	Tier 2 Normal Cost as a % of Payroll	Total Normal Cost	Total Normal Cost as a % of Payroll	Employee Contributions	Employer Normal Cost	Employer Normal Cost as a % of Payroll

- **Tier 1 & Tier 2 Normal Cost Projections**

Teachers' Retirement System

Tier 1 Defined Benefit Plan Summary

Retirement Age

- Age 62 with 5 years of service credit
- Age 60 with 10 years of service credit
- Age 55 with 20 years of service credit (discounted annuity or Early Retirement Option*)
- Age 55 with 35 years of service credit
- "Rule of 85" for TRS members who are employees of the State of Illinois

* Early Retirement Option (ERO) expired on July 1, 2016. The last day ERO was available to a TRS member was June 30, 2016.

Retirement Formula

- 2.2% of final average salary for each year of service credit earned after June 30, 1998 (prior years under graduated formula can be upgraded)

Maximum Annuity

- 75% of final average salary

Salary Used to Calculate Pension

- Average of the four highest consecutive annual salary rates within the last 10 years of service

Annual COLA

- 3% compounded

Employee Contributions

- 9.0% of salary
 - 7.5% for retirement benefit, 0.5% for annual COLA, and 1% for death benefit

The benefits shown do not reflect P.A. 96-0889 (2 Tier Act of 2011). Please refer to Section I earlier in this report for details.

Teachers' Retirement System

Tier 2 Defined Benefit Plan Summary

Retirement Age

- ❑ Age 67 with 10 years of service credit
- ❑ Age 62 with 10 years of service credit (reduced annuity)

Retirement Formula

- ❑ 2.2% of final average salary for each year of service credit

Maximum Annuity

- ❑ 75% of final average salary

Salary Used to Calculate Pension

- ❑ Average of the eight highest consecutive annual salary rates within the last 10 years of service
- ❑ Pensionable Salary is limited by an amount tied to the 2010 Social Security Wage Base of \$106,800. This amount increases annually by 3% or ½ of the increase in the Consumer Price Index-U, whichever is less. The salary limits for calendar year 2023 and 2024 are \$123,489 and \$125,774, respectively.

Annual COLA

- ❑ Simple 3% or ½ of the increase in the Consumer Price Index-U, whichever is less

Employee Contributions

- ❑ 9.0% of salary
 - 7.5% for retirement benefit, 0.5% for annual COLA, and 1% for death benefit

The benefits shown reflect P.A. 96-0889 (2 Tier Act of 2011) and are for Tier 2 members who first contribute to the system on or after January 1, 2011. Please refer to Section I earlier in this report for details.

CHART 7

¹ The two voluntary buyout programs were created by P.A. 100-0587 and extended by 3 years to June 30, 2024 by P.A. 101-0010. P.A. 102-0718 extended the programs by 2 more years to June 30, 2026 (the impact of that extension is not reflected in this chart).

- **Tier 1 & Tier 2 Normal Cost Projections**

State Employees' Retirement System

Tier 1 Regular Formula - Plan Summary

Retirement Age

- ❑ “Rule of 85” – retirement when member’s age plus years of service equals 85
- ❑ Age 60 with 8 years of service credit
- ❑ Age 55 with at least 25 years of service (reduced one-half of one percent for each month the member is under age 60)

Retirement Formula

- ❑ 1.67% of final average salary for each year of service for members covered by Social Security
- ❑ 2.2% of final average salary for each year of service credit for members not covered by Social Security

Maximum Annuity

- ❑ 75% of final average salary

Salary Used to Calculate Pension

- ❑ Highest 48 consecutive months of service within the last 120 months of service

Annual COLA

- ❑ 3% compounded

Employee Contributions

- ❑ 4.0% of salary for members covered by Social Security
 - 3.5% for retirement benefit and 0.5% for survivors’ benefit
- ❑ 8.0% of salary for members not covered by Social Security
 - 7.0% for retirement benefit and 1.0% for survivors’ benefit

The benefits shown do not reflect P.A. 96-0889 (Tier 2 Act of 2011). Please refer to Section I earlier in this report for details.

State Employees' Retirement System

Tier 1 Alternative Formula - Plan Summary

Retirement Age

- ❑ Age 55 with at least 20 years of service
- ❑ Age 50 with at least 25 years of service

Retirement Formula

- ❑ 2.5% of final average salary for each year of service for members covered by Social Security
- ❑ 3.0% of final average salary for each year of service credit for members not covered by Social Security

Maximum Annuity

- ❑ 80% of final average salary

Salary Used to Calculate Pension

- ❑ Rate of pay on the last day of employment, or the average of the last 48 months of compensation, whichever is greater
- ❑ Salary capped at Tier II cap level. This salary cap rises annually at an increase that is equal to one-half of the annual rate of inflation in the previous year.

Annual COLA

- ❑ 3% compounded

Employee Contributions

- ❑ 8.5% of salary for members covered by Social Security; Applies to Security Employees of the Department of Corrections and Department of Human Services, Air Pilots and State Highway Maintenance Workers
 - 8.0% for retirement benefit and 0.5% for survivors' benefit
- ❑ 12.5% of salary for members not covered by Social Security; Applies to State Police, Special Agents, Firefighters, Secretary of State Investigators, Conservation Police Officers, Department of Revenue Investigators, Central Management Services Police Officers, Mental Health Police Officers, Dangerous Drug Investigators, Attorney General Investigators, Controlled Substance Inspectors, States Attorneys Appellate Prosecutors Investigators, Commerce Commission Police Officers and Arson Investigators
 - 11.5% for retirement benefit and 1.0% for survivors' benefit

State Employees' Retirement System

Tier 2 Regular Formula - Plan Summary

Retirement Age

- ❑ Age 67 with 10 years of service credit
- ❑ Age 62 with 10 years of service (reduced one-half of one percent for each month the member is under age 67)

Retirement Formula

- ❑ 1.67% of final average salary for each year of service for members covered by Social Security
- ❑ 2.2% of final average salary for each year of service credit for members not covered by Social Security

Maximum Annuity

- ❑ 75% of final average salary

Salary Used to Calculate Pension

- ❑ Highest 96 consecutive months of service within the last 120 months of service
- ❑ Pensionable Salary is limited by an amount tied to the 2010 Social Security Wage Base of \$106,800. This amount increases annually by 3% or ½ of the increase in the Consumer Price Index-U, whichever is less. The salary limits for calendar year 2023 and 2024 are \$123,489 and \$125,774, respectively.

Annual COLA

- ❑ Simple 3% or ½ of the increase in the Consumer Price Index-U, whichever is less

Employee Contributions

- ❑ 4.0% of salary for members covered by Social Security
 - 3.5% for retirement benefit and 0.5% for survivors' benefit
- ❑ 8.0% of salary for members not covered by Social Security
 - 7.0% for retirement benefit and 1.0% for survivors' benefit

The benefits shown reflect P.A. 96-0889 (2 Tier Act of 2011) and are for Tier 2 members who first contribute to the system on or after January 1, 2011. Please refer to Section I earlier in this report for details.

State Employees' Retirement System

Tier 2 Alternative Formula - Plan Summary

Retirement Age

- ❑ Age 60 with at least 20 years of service

Retirement Formula

Annual COLA

- ❑ Simple 3% or ½ of the increase in the Consumer Price Index-U, whichever is less

Employee Contributions

- ❑ 8.5% of salary for members covered by Social Security; Applies to Security Employees of the Department of Corrections and Department of Human Services, Air Pilots and State Highway Maintenance Workers
 - 8.0% for retirement benefit and 0.5% for survivors' benefit
- ❑ 12.5% of salary for members not covered by Social Security; Applies to State Police, Special Agents, Firefighters, Secretary of State Investigators, Conservation Police Officers, Department of Revenue Investigators, Central Management Services Police Officers, Mental Health Police Officers, Dangerous Drug Investigators, Attorney General Investigators, Controlled Substance Inspectors, States Attorneys Appellate Prosecutors Investigators, Commerce Commission Police Officers and Arson Investigators
 - 11.5% for retirement benefit and 1.0% for survivors' benefit

The benefits shown reflect P.A. 96-0889 (2 Tier Act of 2011) and are for Tier 2 members who first contribute to the system on or after January 1, 2011. Please refer to Section I earlier in this report for details.

CHART 18

¹The two voluntary buyout programs were created by P.A. 100-0587 and extended by 3 years to June 30, 2024 by P.A. 101-0010. P.A. 102-0718 extended the programs by 2 more years to June 30, 2026. As of FY 2023 actuarial valuation, the participation assumption for the COLA buyout is 20% for eligible Regular formula members, 42% for eligible Alternative formula members not covered by Social Security, and 38% for eligible Alternative formula members who are covered by Social Security. The assumed participation rate for the total buyout is 2%.

State Universities Retirement System

Tier 1 Traditional Defined Benefit Formula Plan

Retirement Age

- Age 62 with at least 5 years of service
- Age 60 with at least 8 years of service
- Age 55 with at least 8 years of service (reduced annuity)
- Any age with 30 years of service

Retirement Formula

- 2.2% of final average salary for each year of service

Maximum Annuity

- 80% of final average salary

Salary Used to Calculate Pension

- For hourly employees and those who receive an annual salary in installments during 12 months of each academic year, the 48 consecutive calendar-month period ending with the last day of final termination of employment or the 4 consecutive academic years of service in which the employee's earnings were the highest, whichever is greater
- For all other employees, the average annual earnings during the 4 consecutive academic years of service which his or her earnings were the highest

Annual COLA

- 3% compounded

Employee Contributions

- 8.0% of salary
 - 6.5% for retirement benefit, 0.5% for annual COLA, and 1% for survivors' insurance

The benefits shown do not reflect P.A. 96-0889 (Tier 2 Act of 2011). Please refer to Section I earlier in this report for details.

State Universities Retirement System

Tier 2 Traditional Defined Benefit Formula Plan

Retirement Age

- ❑ Age 67 with at least 10 years of service
- ❑ Age 62 with at least 10 years of service (reduced annuity)

Retirement Formula

- ❑ 2.2% of final average salary for each year of service

Maximum Annuity

- ❑ 80% of final average salary

Salary Used to Calculate Pension

- ❑ Highest 96 consecutive months of service within the last 120 months of service
- ❑ Pensionable Salary is limited by an amount tied to the 2010 Social Security Wage Base of \$106,800. This amount increases annually by 3% or ½ of the increase in the Consumer Price Index-U, whichever is less. The salary limits for calendar year 2023 and 2024 are \$123,489 and \$125,774, respectively.

Annual COLA

- ❑ Simple 3% or ½ of the increase in the Consumer Price Index-U, whichever is less

Employee Contributions

- ❑ 8.0% of salary
 - 6.5% for retirement benefit, 0.5% for annual COLA, and 1% for survivors' insurance

The benefits shown reflect P.A. 96-0889 (2 Tier Act of 2011) and are for Tier 2 members who first contribute to the system on or after January 1, 2011. Please refer to Section I earlier in this report for details.

State Universities Retirement System

Retirement Savings Defined Contribution Formula Plan

Summary

** The SURS Self-Managed Plan (SMP) has been renamed the Retirement Savings Plan (RSP), effective September 1, 2020.*

Maximum Annuity

- ❑ There is no minimum or maximum annuity. The annuity is based solely on the account value at retirement.

Key Plan Features

- ❑ All SURS employees have the option to place 8.0% of their earnings into a Self-Managed Plan (SMP) retirement account. The State of Illinois will subsequently add an additional 7.6% of employee earnings into their account. This SMP is a defined contribution plan where the employee decides how their account balance will be invested, selecting from a variety of mutual funds, stable value funds and variable annuities. The employee is solely responsible for the ultimate balance in the account, and the State of Illinois bears no responsibility for the outcome of the employee investment decisions.
- ❑ If SURS-covered employment ends before retirement with less than 5 years of service (Tier 1) or 10 years (Tier 2), an employee is entitled to a lump sum of the value of their employee contributions and the investment return earned.
- ❑ If SURS-covered employment ends before retirement with greater than 5 years of service (Tier 1) or 10 years (Tier 2), an employee is entitled to a lump sum of the value of their employee contributions, matching employer contributions, and the investment return earned.

Employee Contributions

- ❑ 8.0% of salary

CHART 29

¹ The two voluntary buyout programs were created by P.A. 100-0587 and extended by 3 years to June 30, 2024 by P.A. 101-0010. P.A. 102-0718 extended the programs by 2 more years to June 30, 2026. As of FY 2023 SURS actuarial valuation, SURS used 0% a participation rate assumption for both buyout programs.

* Payroll excludes SMP payroll.

Note: The number of projected takers of the Optional Hybrid Plan (OHP) created by P.A. 100-0023 is not included in the 2023 valuation as the OHP has not been implemented yet.

XI. The Judges' Retirement System

- **Plan Summary**
- **FY 2023 Change in Unfunded Liabilities**
- **Funded Ratio History**
- **Active Member Headcount**
- **Average Active Member Salaries**
- **Retiree Headcount**
- **Average Retirement Annuities**
- **Unfunded History**
- **Rate of Return on Investments**
- **Annual Investment Revenue**
- **Total Payout**
- **Annual Changes in Unfunded Liabilities**
- **Changes in Net Assets**
- **Investment Return History**
- **Tier 1 & Tier 2 Normal Cost Projections**

Judges' Retirement System

Tier 1 Plan Summary

Retirement Age

- ❑ Age 60 with 10 years of service
- ❑ Age 62 with 6 years of service
- ❑ Age 55 with 10 years of service (reduced $\frac{1}{2}$ of 1% for each month under 60)

Retirement Formula

- ❑ 3.5% of final salary for each of the first 10 years of service, plus
- ❑ 5% of final salary for each year of service in excess of 10 years

Maximum Annuity

- ❑ 85% of final salary

Salary Used to Calculate Pension

- ❑ Salary on last day of service

Annual COLA

- ❑ 3% compounded

Employee Contributions

- ❑ 11.0% of salary
 - 7.5% for retirement benefit, 1.0% for annual COLA, and 2.5% for survivor's benefit

For the details of retirement plans applicable to personnel beginning employment on or after January 1, 2011, please refer to Section I earlier in this report.

Judges' Retirement System

Tier 2 Plan Summary

Retirement Age

- ❑ Age 67 with 8 years of service
- ❑ Age 62 with 8 years of service (reduced ½ of 1% for each month under 67)

Retirement Formula

- ❑ 3% of final average salary for each year of service

Maximum Annuity

- ❑ 60% of final average salary

Salary Used to Calculate Pension

- ❑ Highest 96 consecutive months of service within the last 120 months of service
- ❑ Pensionable Salary is limited by an amount tied to the Social Security Wage Base of \$106,800. This amount increases annually by 3% or the increase in the Consumer Price Index-U, whichever is less. The salary limits for calendar year 2023 and 2024 are \$134,071 and \$138,094, respectively.

Annual COLA

- ❑ Compounded 3% or the increase in the Consumer Price Index-U, whichever is less

Employee Contributions

- ❑ 11.0% of salary
 - 7.5% for retirement benefit, 1.0% for annual COLA, and 2.5% for survivor's benefit

The benefits shown reflect P.A. 96-0889 (Tier 2 Act of 2011) and are for Tier 2 members who first contribute to the system on or after January 1, 2011. Please refer to Section I earlier in this report for more details.

XII. The General Assembly Retirement System

- **Plan Summary**
- **FY 2023 Change in Unfunded Liabilities**
- **Funded Ratio History**
- **Active Member Headcount**
- **Average Active Member Salaries**
- **Retiree Headcount**
- **Average Retirement Annuities**
- **Unfunded History**
- **Rate of Return on Investments**
- **Annual Investment Revenue**
- **Total Payout**
- **Annual Changes in Unfunded liabilities**
- **Changes in Net Assets**
- **Investment Return History**
- **Reduction in State Contributions**
- **Tier 1 & Tier 2 Normal Cost Projections**

General Assembly Retirement System

Tier 1 Plan Summary

Retirement Age

- ❑ Age 55 with 8 years of service
- ❑ Age 62 with at least 4 years of service

Retirement Formula

- ❑ 3.0% of final salary for each of the first 4 years of service, plus
- ❑ 3.5% of final salary for each of the next 2 years of service, plus
- ❑ 4.0% of final salary for each of the next 2 years of service, plus
- ❑ 4.5% of final salary for each of the next 4 years of service, plus
- ❑ 5.0% of final salary for each year of service in excess of 12 years

Maximum Annuity

- ❑ 85% of final salary

Salary Used to Calculate Pension

- ❑ Salary on last day of service

Annual COLA

- ❑ 3% compounded

Employee Contributions

- ❑ 11.5% of salary
 - 8.5% for retirement benefit, 1.0% for annual COLA, and 2.0% for survivor's benefit

The benefits shown do not reflect P.A. 96-0889 (Tier 2 Act of 2011). Please refer to Section I earlier in this report for details.

General Assembly Retirement System

Tier 2 Plan Summary

Retirement Age

- ❑ Age 67 with 8 years of service
- ❑ Age 62 with at least 8 years of service (reduced ½ of 1% for each month under 67)

Retirement Formula

- ❑ 3% of final average salary for each year of service

Maximum Annuity

- ❑ 60% of final average salary

Salary Used to Calculate Pension

- ❑ Highest 96 consecutive months of service within the last 120 months of service
- ❑ Pensionable Salary is limited by an amount tied to the Social Security Wage Base of \$106,800. This amount increases annually by 3% or the increase in the Consumer Price Index-U, whichever is less. The salary limits for calendar year 2023 and 2024 are \$134,071 and \$138,094, respectively.

Annual COLA

- ❑ Compounded 3% or the increase in the Consumer Price Index-U, whichever is less

Employee Contributions

- ❑ 11.5% of salary
 - 8.5% for retirement benefit, 1.0% for annual COLA, and 2.0% for survivor's benefit

The benefits shown reflect P.A. 96-0889 (2 Tier Act of 2011) and are for Tier 2 members who first contribute to the system on or after January 1, 2011. Please refer to Section I earlier in this report for details.

* Payroll projections include the Retirement Savings Plan (RSP) payroll. 45% of academic and 25% of non-academic new SURS members are assumed to enter RSP.

** Total State contributions for FY 2024 and FY 2025 include RSP contributions, whereas the remaining projected amounts exclude RSP contributions. Additionally, the FY 2024 and FY 2025 State contributions include Excess Benefit Arrangement (EBA) contributions, which are not included in the remaining projected amounts.

Pursuant to P.A. 93-0002, \$10 billion in Pension Obligation Bonds (POBs) were issued in FY 2003 to reduce the unfunded liabilities of the five State-funded pension systems. A portion of the FY 2003 State contribution, as well as the full amount of the FY 2004 State contribution, were paid using proceeds from the FY 2003 POBs. Of the \$10 billion issued, \$7.3 billion was used to reduce the unfunded liabilities of the five State systems. P.A. 93-0002 also set the annual maximum State contribution to each system at the amount that would have been contributed without the FY 2003 POB issuance, minus the respective debt service payment for each system for a given fiscal year. The table above shows the principal and interest of the FY 2003 POBs by fiscal year, along with the respective debt service payments for each system until the POBs are retired.

APPENDIX I

FINANCIAL CONDITION OF THE STATE RETIREMENT SYSTEMS

APPENDIX K

As shown in the charts above, the annualized return from FY 2004 through FY 2022, net of fees, for the 2003 Pension Obligation Bonds distributed, according to P.A. 93-0002, has exceeded the true interest cost of 5.047%.

The Illinois State Board of Investment (ISBI) is the investment arm of the State Retirement Systems, which encompasses the State Employees' Retirement System, Judges' Retirement System, and the General Assembly Retirement System.

APPENDIX L

2003 Pension Obligation Bond Returns
P.A. 93-0002
(Net of Fees)

This chart shows annualized returns of 2003 Pension Obligation Bond for each fiscal year since FY 2004.

Illinois State Board of Investment (ISBI) is the investment arm of the State Retirement Systems, which encompasses the State Employees' Retirement System, Judges' Retirement System, and the General Assembly Retirement System.

APPENDIX M

2015	-	-	-	\$15,809,000	-	\$15,809,000
2016	-	-	-	\$16,073,000	-	\$16,073,000
2017	-	-	-	\$21,721,000	-	\$21,721,000
2018	-	-	-	\$21,155,000	-	\$21,155,000
2019	-	-	-	\$23,221,000	-	\$23,221,000
2020	-	-	-	\$25,754,000	-	\$25,754,000
2021	-	-	-	\$27,299,000	-	\$27,299,000
2022 ¹	-	-	-	\$28,500,400	-	\$28,500,400
2023 ²	-	-	-	\$28,081,200	-	\$28,081,200
2024	-	-	-	\$26,474,000	-	\$26,474,000
2025	-	-	-	\$26,210,000	-	\$26,210,000

¹ P.A. 102-0696, effective March 25, 2022, appropriated an additional \$300 million to the five State systems, in addition to the FY 2022 certified amounts. Of the \$300 million, \$680,400 was additionally appropriated to GARS for FY 2022.

² The FY 2023 appropriations include a total of an additional \$400 million in State contributions to the five State systems, appropriated from the Pension Stabilization Fund (PSF receives funds from GRF) via P.A. 102-0698, effective April 19, 2022, and P.A. 103-0006, effective July 1, 2023. Of \$400 million, \$907,200 was appropriated to GARS.

APPENDIX R

**GF Pension Cost as a Percentage of Total General Funds
Current Law;
FY 1996 - FY 2045 (Projected)**

Notes: **All future projections of State pension contributions are based on the actuarial valuations of the five retirement systems.**
 Only the General Funds portion of the regular pension appropriation plus pension bond debt service is shown here.
 The debt service payments on the FY 2003 Pension Obligation Bonds and FY 2010 & FY 2011 Pension Obligation Notes as well as the Pension Obligation Acceleration Bonds (FY 2019 - FY 2024) for the buyout programs are shown here.
 The actual amounts of the proceeds of the pension bonds/notes are not reflected in this chart.
 General Funds revenue projections are provided by CGFA's revenue staff.
 Approximately 69% of SERS' total annual appropriation is assumed to come from GFs in projected FY's while the rest comes from other state funds not shown here.
 For FY 2026 through FY 2045, SURS is assumed to receive an appropriation from other state funds in the same amount that SURS received from other state funds in FY 2025 although SURS' historical appropriation from other state funds varies from year to year.

P.A. 96-0043 establishes that as of June 30, 2008, the actuarial value of each system's assets will be equal to their market value. In determining the actuarial value of the systems' assets for fiscal years after June 30, 2008, any unexpected gains or losses from investment returns incurred in a fiscal year will be recognized in equal annual amounts over the five-year period following that fiscal year. An unexpected gain or loss will be defined as any deviation from the forecasted return on invested assets.

APPENDIX T

Pursuant to P.A. 94-0004, a teacher’s annual salary increase with the same employer was capped at 6% for purposes of determining the Final Average Salary (FAS). However, P.A. 100-0587, effective June 4, 2018, lowered the salary increase cap to 3%. The FAS cap rate reverted back to 6% pursuant to P.A. 101-0010 that became effective June 5, 2019, and it is currently capped at 6%. If a teacher’s annual salary increase exceeds the salary increase cap during that teacher’s pensionable salary period, the teacher’s employer is required to make additional contributions to TRS for the cost of the present value of the increase in benefits resulting from the salary increases exceeding the salary increase cap. This requirement is commonly known as the “excess salary increase penalty.”

The Honorable JB Pritzker, Governor
Senator Don Harmon, President of the Senate
Senator John Curran, Senate Minority Leader
Representative Chris Welch, Speaker of the House
Representative Tony McCombie, House Minority Leader
Mr. Gene Kalwarski, Cheiron, State Actuary

Re: Preliminary Certification of TRS FY 2025 State Funding Requirement

Greetings:

At its board meeting on October 27, 2023, TRS board of trustees certified the preliminary FY 2025 state contribution requirements and results of the preliminary June 30, 2023 actuarial valuation.

The contribution requirements and actuarial valuation results are being submitted to the state actuary for review. If the state actuary agrees with the documentation we submit, the trustees will be asked to provide final certification at the December 2023 board meeting.

As directed by the TRS Legislative Platform, we certify two state funding requirements. One is based on Illinois statute and the other is based on the funding policy adopted by the TRS board. The board's policy, described below, is based on the TRS actuary's recommended methodology for determining contributions to a severely underfunded plan.

The proposed certifications for FY 2025 both include \$300,000 in minimum benefit reimbursements and are detailed in attached Exhibit A:

- **Based on Illinois statute:** **\$6,203,922,413**
- **Based on TRS Board Actuarial Funding Policy:** **\$10,105,874,758**

Assumptions. The preliminary June 30, 2023 actuarial valuation report includes assumptions about the impact of the accelerated pension benefit programs originally contained in Public Act 100-0587 and extended by Public Act 102-0718.

Board Funding Policy. The TRS board's funding policy is based on an actuarial cost method (entry age normal) that assigns costs evenly over a teacher's career instead of backloading them like the statutory cost method (projected unit credit). The board policy funds all of the benefits earned rather than 90 percent of them, and it amortizes the unfunded liability over a closed 20-year period, with subsequent increases in the unfunded liability amortized over subsequent 20-year periods. In contrast, the amortization period required by Illinois statute is a closed 50-year period.

Under the board's policy, state contributions are not limited by the state's debt service on the 2003 pension obligation bonds, and changes in actuarial assumptions are not retroactively phased in. The TRS actuary, Segal Consulting, estimates that compared to contributions required under the statutory method, the state would save about \$27.1 billion in financing costs for the period FY 2025-FY 2045 under the TRS board's funding policy.

Please contact TRS Director of Research Amy Z. Reynolds (areynolds@trsil.org) at 217.814.2272 with any questions about our certifications.

Sincerely,

R. Stanley Rupnik
Executive Director & Chief Investment Officer

The Honorable J B Pritzker
Governor of the State of Illinois
207 Statehouse
Springfield, IL 62706

Mr. Matthew Wells
Cheiron, Incorporated
200 West Monroe Street, Suite 1800
Chicago, IL 60606

Re: Proposed Certification of Required State Contribution to the State Universities Retirement System for State Fiscal Year 2025

Dear Governor Pritzker and Mr. Wells:

Pursuant to Section 15-165 (a-10) of the Illinois Pension Code, the Board of Trustees of the State Universities Retirement System (the "System") hereby submits the System's preliminary certification of the required State contribution for Fiscal Year 2025 for the purposes of the System.

The Board submits \$2,214,123,000 as the preliminary total net required contribution for Fiscal Year 2025. The System anticipates receiving finalized financial information which will require us to modify this contribution amount.

As required by Section 15-165 of the Illinois Pension Code, a copy of the preliminary actuarial recommendations, upon which the preliminary certification is based, is also enclosed.

Please note that the updated actuarial valuation results recommend an actuarially determined funding policy that funds the normal cost of the plan, as well as an amortization payment that would seek to pay the total unfunded accrued liability over a closed period to attain 100% funding by 2045 (21 years remaining in the actuarial valuation as of June 30, 2023) or earlier. The current statutory contribution does not comply with this recommendation. Underfunding the System creates a risk that, ultimately, benefit obligations cannot be met from the trust.

While State statute governs funding policy, it is important to highlight the differences between the current statutory appropriation and the recommended actuarially determined funding policy so that potential risks and additional ramifications of underfunding are fully understood.

Sincerely,

Suzanne M. Mayer
Executive Director

APPENDIX X
SERS Preliminary Certification Letter for FY 2025

October 25, 2023

Governor JB Pritzker
207 Statehouse
Springfield, IL 62706

Dear Governor Pritzker:

Pursuant to Public Act 88-593, as amended, at a meeting held October 24, 2023, the Board of Trustees of the State Employees' Retirement System (SERS) preliminarily certified an FY 2025 State contribution rate of 51.180% of projected payroll, or \$2,672,354,000. The FY 2025 preliminary certification includes \$2,547,978,000 for the State contribution to SERS and \$124,376,000 for debt service on the 2003 pension obligation bonds. Of the \$2,547,978,000 for the State contribution to SERS, \$574,378,000 is for the employer's portion of the expected FY 2025 normal cost and \$1,973,600,000 is due to the unfunded liabilities.

Consistent with the Governmental Accounting Standards Board (GASB) Statement No. 67, the SERS Board of Trustees adopted a funding policy, or Actuarially Determined Contribution (ADC) policy in 2015. The ADC provides for annual contributions that are equal to the annual normal cost of benefits earned plus amortization of the unfunded actuarial liability over a 25-year period as a level percent of payroll. The remaining amortization period is 17 years. The FY 2025 ADC is \$3,143,700,187, or \$595.7 million higher than the amount calculated under the statutory funding plan.

The ADC is used in financial reporting but will not affect the certified employer contributions to SERS, which will still be certified by the Board pursuant to the statutory funding plan.

Attached is the draft FY 2023 actuarial valuation along with the FY 2025 certification letter prepared by the System's actuaries. The actuarial valuation, membership data used in the valuation, and all calculations will be forwarded to the State Actuary for review.

Very truly yours,

Timothy Blair
Executive Secretary

APPENDIX Y
JRS Preliminary Certification Letter for FY 2025

October 28, 2023

Governor JB Pritzker
207 Statehouse
Springfield, IL 62706

Dear Governor Pritzker:

Pursuant to Public Act 88-593, as amended, at a meeting held on October 27, 2023, the Board of Trustees of the Judges' Retirement System (JRS) preliminarily certified an FY 2025 State contribution of \$148,889,000, or 95.871% of projected payroll. Of the \$148,889,000, \$27,199,000 is for the employer's portion of the expected FY 2025 normal cost and \$121,690,000 is due to the unfunded liabilities.

Consistent with Governmental Accounting Standards Board (GASB) Statement No. 67, the JRS Board of Trustees adopted a funding policy, or Actuarially Determined Contribution (ADC) policy in 2015. The ADC provides for annual contributions that are equal to the annual normal cost of benefits earned plus amortization of the unfunded actuarial liability over a 25-year period, as a level percent of payroll. The remaining amortization period is 17 years. The FY 2025 ADC is \$178,592,396, or \$29.7 million higher than the amount calculated under the statutory funding plan.

The ADC is used in financial reporting but will not affect the certified employer contributions to JRS, which is calculated and certified by the Board pursuant to the statutory funding plan.

Attached is the draft FY 2023 actuarial valuation along with the FY 2025 certification letter prepared by the System's actuaries. The actuarial valuation, membership data used in the valuation, and all calculations will be forwarded to the State Actuary for review.

APPENDIX Z
GARS Preliminary Certification Letter for FY 2025

October 28, 2023

Governor JB Pritzker
207 Statehouse
Springfield, IL 62706

Dear Governor Pritzker:

Pursuant to Public Act 88-593, as amended, at a meeting of the Board of Trustees of the General Assembly Retirement System (GARS) held on October 27, 2023, the Board preliminarily certified an FY 2025 State contribution of \$26,210,000, or 220.373% of projected payroll. Of the \$26,210,000, \$1,656,000 is for the employer's portion of the expected FY 2025 normal cost and \$24,554,000 is due to the unfunded liabilities.

Consistent with Governmental Accounting Standards Board (GASB) Statement No. 67, the GARS Board of Trustees adopted a funding policy, or Actuarially Determined Contribution (ADC) policy in 2015. The ADC provides for annual contributions that are equal to the annual normal cost of benefits earned plus amortization of the unfunded actuarial liability over a 20-year period, as a level percent of payroll. The remaining amortization period is 12 years. The FY 2025 ADC is \$33,816,152, or \$7.6 million higher than the amount calculated under the statutory funding plan.

The ADC is used in financial reporting but does not affect the certified employer contributions to GARS, which is certified by the Board pursuant to the statutory funding plan.

Attached is the draft FY 2023 actuarial valuation and the FY 2025 certification letter prepared by the System's actuaries. The actuarial valuation, membership data used in the valuation, and all calculations will be forwarded to the State Actuary for review.

Mr. William R. Hallmark, Cheiron, State Actuary

Re: Final Certification of TRS FY 2025 State Funding Requirement

Dear Governor, Legislative Leadership and State Actuaries:

At its meeting on December 12, 2023, the TRS board of trustees approved the final certification to the FY 2025 state contribution requirements and results of the June 30, 2023 actuarial valuation.

The contribution requirements and actuarial valuation results were submitted to the state actuary (Cheiron) for review, in accordance with Public Act 97-0694. The contribution requirements and the report were accepted by the state actuary. Cheiron continues to emphasize its concern about state pension financing. It recommends that the statutory "funding method be changed to fully fund plan benefits." (*State Actuary's Report, December 2023, page 6*)

TRS certifies two state funding requirements. One is based on Illinois statute and the other is based on the funding policy adopted by the TRS board. The board's policy, described below, is based on the TRS actuary's recommended methodology for determining contributions to a severely underfunded plan.

The certified contributions for FY 2025 both include \$300,000 in minimum benefit reimbursements and are detailed in attached Exhibit A:

- **Based on Illinois statute:** **\$6,203,922,413**
- **Based on TRS Board Actuarial Funding Policy:** **\$10,105,874,758**

Assumptions. The preliminary June 30, 2023 actuarial valuation report includes revised assumptions about the impact of the accelerated pension benefit programs originally contained in Public Act 100-0587 and extended by Public Act 102-0718.

Board Funding Policy. The TRS board's funding policy is based on an actuarial cost method (entry age normal) that assigns costs evenly over a teacher's career instead of backloading them

like the statutory cost method (projected unit credit). The board policy funds all of the benefits earned rather than 90 percent of them, and it amortizes the unfunded liability over a closed 20-year period, with subsequent increases in the unfunded liability amortized over subsequent 20-year periods. In contrast, the amortization period required by Illinois statute is a closed 50-year period.

Under the board's policy, state contributions are not limited by the state's debt service on the 2003 pension obligation bonds, and changes in actuarial assumptions are not retroactively phased in. The TRS actuary, Segal Consulting, estimates that compared to contributions required under the statutory method, the state would save over \$27.1 billion in financing costs for the period FY 2025-FY 2045 under the TRS board's funding policy.

Please contact TRS Director of Research Amy Z. Reynolds (areynolds@trsil.org) at 217.814.2272 with any questions about our certifications.

Sincerely,

R. Stanley Rupnik
Executive Director & Chief Investment Officer

Date: December 7, 2023
Re: State Contribution for Fiscal Year 2025

Overview

The proposed State contribution for Fiscal Year 2025 will be certified at \$2,212,810,000.

Section 15-165 (a-5) of the Illinois Pension Code requires the following: On or before January 15, the Board is required to certify to the Governor and the General Assembly the amount of the State Contribution for the next fiscal year (which begins July 1).

The Statutory contribution calculated by Gabriel, Roeder, Smith & Company (GRS) for Fiscal Year 2025 is \$2,286,784,000 (includes \$100,345,000 projected Retirement Savings Plan (RSP) State contribution).¹ The contribution is 39.3% of the \$5.5 billion assumed pensionable payroll for Fiscal Year 2025.²

The Statutory contribution is increased by the projected excess benefit arrangement (EBA) contribution required. For Fiscal Year 2025 the EBA amount is projected to be \$18,300,000. The estimated trust, federal, and other funds is projected to be \$70,500,000 for Fiscal Year 2025. The State contribution is reduced by the projected trust, federal and other funds and the employer normal cost contribution of the pensionable earnings that exceed the Governor's salary.

Combined State and Employer Contribution Amount	\$2,286,784,000
Less projected trust, federal and other funds	70,500,000
Less projected contributions from earnings that exceed Governor's salary	<u>3,474,000</u>
Net State contribution (including EBA) to be certified	\$2,212,810,000

Recommendation

Based on the recommendation of Gabriel Roeder Smith & Company, the amount of \$2,212,810,000 should be certified for Fiscal Year 2025 as the proposed State Contribution.

¹This is the gross State contribution. The certified State Contribution will be this amount less amounts estimated to be received from "trust, federal, and other" funds including contributions from earnings that exceed Governor's salary.

²Table 15 of the GRS Actuarial Valuation as of June 30, 2023.

APPENDIX CC
SERS Final Certification Letter for FY 2025

January 10, 2024

Governor JB Pritzker
207 Statehouse
Springfield, IL 62706

Dear Governor Pritzker:

Pursuant to Public Act 88-593, as amended, at a meeting held January 9, 2024, the Board of Trustees of the State Employees' Retirement System (SERS) certified an FY 2025 State contribution rate of 51.180% of projected payroll, or \$2,672,354,000. The FY 2025 certification includes \$2,547,978,000 for the State contribution to SERS and \$124,376,000 for debt service on the 2003 pension obligation bonds. Of the \$2,547,978,000 for the State contribution to SERS, \$574,378,000 is for the employer's portion of the expected FY 2025 normal cost and \$1,973,600,000 is due to the unfunded liabilities.

Consistent with the Governmental Accounting Standards Board (GASB) Statement No. 67, the SERS Board of Trustees adopted a funding policy, or Actuarially Determined Contribution (ADC) policy in 2015. The ADC provides for annual contributions that are equal to the annual normal cost of benefits earned plus amortization of the unfunded actuarial liability over a 25-year period as a level percent of payroll. The remaining amortization period is 17 years. The FY 2025 ADC is \$3,143,700,187, or \$595.7 million higher than the amount calculated under the statutory funding plan.

The ADC is used in financial reporting but does not affect the certified State contribution to SERS, which is calculated and certified by the Board pursuant to the statutory funding plan.

Attached is the FY 2023 actuarial valuation along with the FY 2025 certification letter prepared by the System's actuaries. The actuarial valuation, membership data used in the valuation, and all calculations have been reviewed by the State Actuary.

Very truly yours,

Timothy Blair
Executive Secretary

Governor JB Pritzker
207 Statehouse
Springfield, IL 62706

Dear Governor Pritzker:

Pursuant to Public Act 88-593, as amended, at a meeting held today, the Board of Trustees of the Judges' Retirement System (JRS) certified an FY 2025 State contribution of \$148,889,000, or 95.871% of projected payroll. Of the \$148,889,000, \$27,199,000 is for the employer's portion of the expected FY 2025 normal cost and \$121,690,000 is due to the unfunded liabilities.

Consistent with Governmental Accounting Standards Board (GASB) Statement No. 67, the JRS Board of Trustees adopted a funding policy, or Actuarially Determined Contribution (ADC) policy in 2015. The ADC provides for annual contributions that are equal to the annual normal cost of benefits earned plus amortization of the unfunded actuarial liability over a 25-year period, as a level percent of payroll. The remaining amortization period is 17 years. The FY 2025 ADC is \$178,592,396, or \$29.7 million higher than the amount calculated under the statutory funding plan.

The ADC is used in financial reporting but does not affect the certified State contribution to JRS, which is calculated and certified by the Board pursuant to the statutory funding plan.

Attached is the FY 2023 actuarial valuation along with the FY 2025 certification letter prepared by the System's actuaries. The actuarial valuation, membership data used in the valuation, and all calculations have been reviewed by the State Actuary.

Very truly yours,

Timothy Blair
Executive Secretary

APPENDIX EE
GARS Final Certification Letter for FY 2025

January 12, 2024

Governor JB Pritzker
207 Statehouse
Springfield, IL 62706

Dear Governor Pritzker:

Pursuant to Public Act 88-593, as amended, at a meeting of the Board of Trustees of the General Assembly Retirement System (GARS) held on January 12, 2024, the Board certified an FY 2025 State contribution of \$26,210,000, or 220.373% of projected payroll. Of the \$26,210,000, \$1,656,000 is for the employer's portion of the expected FY 2025 normal cost and \$24,554,000 is due to the unfunded liabilities.

Consistent with Governmental Accounting Standards Board (GASB) Statement No. 67, the GARS Board of Trustees adopted a funding policy, or Actuarially Determined Contribution (ADC) policy in 2015. The ADC provides for annual contributions that are equal to the annual normal cost of benefits earned plus amortization of the unfunded actuarial liability over a 20-year period, as a level percent of payroll. The remaining amortization period is 12 years. The FY 2025 ADC is \$33,816,152, or \$7.6 million higher than the amount calculated under the statutory funding plan.

The ADC is used in financial reporting but does not affect the certified State contribution to GARS, which is calculated and certified by the Board pursuant to the statutory funding plan.

Attached is the FY 2023 actuarial valuation and the FY 2025 certification letter prepared by the System's actuaries. The actuarial valuation, membership data used in the valuation, and all calculations have been reviewed by the State Actuary.

Very truly yours,

Timothy Blair

RE: Fiscal Year 2025 Certified Normal Cost and Health Insurance Contribution for the Public School Teachers' Pension and Retirement Fund of Chicago

Dear Governor Pritzker and Leaders of the Illinois General Assembly:

Pursuant to 40 ILCS 5/17-127(f) of the Illinois Pension Code, this letter and the enclosed Actuarial Report shall serve as formal notification of the Fiscal Year 2025 State of Illinois contribution for normal cost and health insurance contribution to be made to the Public School Teachers' Pension and Retirement Fund of Chicago ("CTPF" or the "Fund").

The certified Fiscal Year 2025 State of Illinois contribution to the CTPF is \$338,683,000 as noted in the table below:

Fiscal Year 2025	Dollar Amount
Certified FY 2025 Normal Cost and Health Insurance Contribution Pursuant to Sections 17-127(d)(2) and (e) of the Illinois Pension Code	\$ 338,683,000

Enclosed is a copy of the Actuarial Report prepared by the Fund's actuary, Gabriel, Roeder, Smith & Company, detailing the State contribution requirements pursuant to Sections 17-127(d)(2) and (e) of the Illinois Pension Code for Fiscal Year 2025. For additional information, please see pages 7 and 8 of the Actuarial Report. The Actuarial Report contains the actuarial certification, recommendations, and assumptions.

If you have any questions, please do not hesitate to contact me at 312-332-3338.

Best regards,

*RE: State of Illinois Additional Contribution Pursuant to 40 ILCS 5/17-127(c) for
Fiscal Year 2025: **\$15,195,000***

Governor Pritzker, Comptroller Mendoza, and Leaders Welch, and Harmon:

This letter and the enclosed Actuarial Report shall serve as formal notification of the additional State contribution pursuant to Section 17-127(c) of the Illinois Pension Code to be made to the Public School Teachers' Pension and Retirement Fund of Chicago ("CTPF" or the "Fund") for Fiscal Year 2025.

Additional State Contributions

According to Section 17-127(c) of the Illinois Pension Code (the "Code"), the State shall make additional contributions of 0.544% of payroll to the Fund to offset a portion of the cost of benefit increases resulting from Public Act 90-0582, provided that no additional contributions are required if for the previous fiscal year the ratio of the Fund's assets to total actuarial liabilities was at least 90%. This contribution is in addition to the State's normal cost and health insurance contribution pursuant to Section 17-127(d)(2) of the Code.

Based on the June 30, 2023, actuarial valuation, the ratio of the Fund's actuarial value of assets to total actuarial liabilities is 47.24%. Accordingly, additional State contributions pursuant to Section 17-127(c) of the Code will be made for Fiscal Year 2025. The Fund's actuary determined that the additional State contributions under Section 17-127(c) of the Code will be **\$15,195,000**.

Enclosed is a copy of the Actuarial Report prepared by the Fund's actuary, Gabriel, Roeder, Smith & Company, detailing the additional State contribution requirements pursuant to Section 17-127(c) of the Code for Fiscal Year 2025. Please see page 8 of the Actuarial Report for additional information. The Actuarial Report contains the actuarial certification, recommendations, and assumptions.

If you have any questions, please do not hesitate to contact me at 312-332-3338.

Mr. Gene Kalwarski, Cheiron, State Actuary

Re: Preliminary Certification of TRS FY 2024 State Funding Requirement

Gentlemen:

At its board meeting on October 21, 2022, TRS board of trustees certified the preliminary FY 2024 state contribution requirements and results of the preliminary June 30, 2022 actuarial valuation.

The contribution requirements and actuarial valuation results are being submitted to the state actuary for review. If the state actuary agrees with the documentation we submit, the trustees will be asked to provide final certification at the December 2022 board meeting.

As directed by the TRS Legislative Platform, we certify two state funding requirements. One is based on Illinois statute and the other is based on the funding policy adopted by the TRS board. The board's policy, described below, is based on the TRS actuary's recommended methodology for determining contributions to a severely underfunded plan.

The proposed certifications for FY 2024 both include \$300,000 in minimum benefit reimbursements and are detailed in attached Exhibit A:

- **Based on Illinois statute:** **\$6,043,454,650**
- **Based on TRS Board Actuarial Funding Policy:** **\$9,590,116,087**

Assumptions. The preliminary June 30, 2022 actuarial valuation report includes assumptions about the impact of the accelerated pension benefit programs originally contained in Public Act 100-0587 and extended by Public Act 102-0718.

Board Funding Policy. The TRS board's funding policy is based on an actuarial cost method (entry age normal) that assigns costs evenly over a teacher's career instead of backloading them like the statutory cost method (projected unit credit). The board policy funds all of the benefits earned rather than 90 percent of them, and it amortizes the unfunded liability over a closed 20-year period, with subsequent increases in the unfunded liability amortized over subsequent 20-year periods. In contrast, the amortization period required by Illinois statute is a closed 50-year period.

Under the board's policy, state contributions are not limited by the state's debt service on the 2003 pension obligation bonds, and changes in actuarial assumptions are not retroactively phased in. The TRS actuary, Segal Consulting, estimates that compared to contributions required under the statutory method, the state would save about \$28.7 billion in financing costs for the period FY 2024-FY 2045 under the TRS board's funding policy.

Please contact TRS Director of Research Amy Z. Reynolds (areynolds@trsil.org) at 217.814.2272 with any questions about our certifications.

Sincerely,

R. Stanley Rupnik
Executive Director & Chief Investment Officer

800-275-7877 • 217-378-8800 • (Fax) 217-378-9800
www.surs.org

To: Administration Committee
From: Tara R. Myers
Date: October 20, 2022
Re: Proposed State Contribution for Fiscal Year 2024

The preliminary proposed State contribution for Fiscal Year 2024 will be certified at \$2,129,109,000.

Section 15-165 (a-5) of the Illinois Pension Code requires the SURS Board of Trustees each year to certify to the State Actuary, Governor, and the General Assembly by November 1st the proposed State contribution for the following fiscal year which begins July 1. The System anticipates receiving finalized financial information which will require us to modify this contribution amount.

The Statutory contribution calculated by Gabriel Roeder Smith & Company (GRS) for Fiscal Year 2024 is \$2,199,602,000¹. This includes \$94,172,000 projected for the Retirement Savings Plan (RSP) State contribution and \$17,300,000 for the Excess Benefit Arrangement (EBA) contribution. The contribution is 40.34% of the \$5.2 billion assumed pensionable payroll for Fiscal Year 2024.²

The estimated trust, federal, and other funds is projected to be \$65,500,000 for Fiscal Year 2024. The State contribution is reduced by the projected trust, federal and other funds and the employer normal cost contribution of the pensionable earnings that exceed the Governor’s salary.

Combined State and Employer Contribution Amount	\$2,199,602,000
Less projected trust, federal and other funds	65,500,000
Less projected contributions from earnings that exceed Governor’s salary	<u>4,993,000</u>
Net State contribution (including EBA) to be certified	\$2,129,109,000

Recommendation

Based on the recommendation of Gabriel Roeder Smith & Company, the amount of \$2,129,109,000 should be certified for Fiscal Year 2024 as the preliminary proposed State Contribution.

¹This is the gross State contribution. The certified State contribution will be this amount less amounts estimated to be received from “trust, federal, and other” funds including contributions from earnings that exceed Governor’s salary.

²Table 15 of the GRS Actuarial Valuation as of June 30, 2022.

APPENDIX II

SERS Preliminary Certification Letter for FY 2024

October 25, 2022

Governor JB Pritzker
207 Statehouse
Springfield, IL 62706

Dear Governor Pritzker:

Pursuant to Public Act 88-593, as amended, at a meeting held October 25, 2022, the Board of Trustees of the State Employees' Retirement System (SERS) preliminarily certified an FY 2024 State contribution rate of 52.657% of projected payroll, or \$2,589,801,000. The FY 2024 preliminary certification includes \$2,472,697,000 for the State contribution to SERS and \$117,104,000 for debt service on the 2003 pension obligation bonds. Of the \$2,472,697,000 for the State contribution to SERS, \$574,251,000 is for the employer's portion of the expected FY 2024 normal cost. The remaining \$1,898,446,000 is due to the unfunded liabilities.

Consistent with the Governmental Accounting Standards Board (GASB) Statement No. 67, the SERS Board of Trustees adopted a funding policy, or Actuarially Determined Contribution (ADC) policy in 2015. The ADC provides for annual contributions that are equal to the annual normal cost of benefits earned plus amortization of the unfunded actuarial liability over a 25-year period as a level percent of payroll. The remaining amortization period is 17 years. The FY 2024 ADC is \$2,994,893,916, or \$522.3 million higher than the amount calculated under the statutory funding plan.

The ADC is used in financial reporting but will not affect the certified employer contributions to SERS, which will still be certified by the Board pursuant to the statutory funding plan.

Attached is the draft FY 2023 actuarial valuation along with the FY 2024 certification letter prepared by the System's actuaries. The actuarial valuation, membership data used in the valuation, and all calculations will be forwarded to the State Actuary for review.

Very truly yours,

Timothy Blair
Executive Secretary

APPENDIX JJ

JRS Preliminary Certification Letter for FY 2024

October 28, 2022

Governor JB Pritzker
207 Statehouse
Springfield, IL 62706

Dear Governor Pritzker:

Pursuant to Public Act 88-593, as amended, at a meeting held on October 28, 2022, the Board of Trustees of the Judges' Retirement System (JRS) preliminarily certified an FY 2024 State contribution of \$147,838,000, or 95.600% of projected payroll. Of the \$147,838,000, \$29,548,000 is for the employer's portion of the expected FY 2024 normal cost. The additional \$118,290,000 is due to the unfunded liabilities.

Consistent with Governmental Accounting Standards Board (GASB) Statement No. 67, the JRS Board of Trustees adopted a funding policy, or Actuarially Determined Contribution (ADC) policy in 2015. The ADC provides for annual contributions that are equal to the annual normal cost of benefits earned plus amortization of the unfunded actuarial liability over a 25-year period, as a level percent of payroll. The remaining amortization period is 18 years. The FY 2024 ADC is \$174,674,767, or \$26.8 million higher than the amount calculated under the statutory funding plan.

The ADC is used in financial reporting but will not affect the certified employer contributions to JRS, which is calculated and certified by the Board pursuant to the statutory funding plan.

Attached is the draft FY 2022 actuarial valuation along with the FY 2024 certification letter prepared by the System's actuaries. The actuarial valuation, membership data used in the valuation, and all calculations will be forwarded to the State Actuary for review.

Very truly yours,

APPENDIX KK
GARS Preliminary Certification Letter for FY 2024

October 28, 2022

Governor JB Pritzker
207 Statehouse
Springfield, IL 62706

Dear Governor Pritzker:

Pursuant to Public Act 88-593, as amended, at a meeting of the Board of Trustees of the General Assembly Retirement System (GARS) held on October 28, 2022, the Board preliminarily certified an FY 2024 State contribution of \$26,474,000, or 267.710% of projected payroll. Of the \$26,474,000, \$1,526,000 is for the employer's portion of the expected FY 2024 normal cost. The remaining \$24,948,000 is due to the unfunded liabilities.

Consistent with Governmental Accounting Standards Board (GASB) Statement No. 67, the GARS Board of Trustees adopted a funding policy, or Actuarially Determined Contribution (ADC) policy in 2015. The ADC provides for annual contributions that are equal to the annual normal cost of benefits earned plus amortization of the unfunded actuarial liability over a 20-year period, as a level percent of payroll. The remaining amortization period is 13 years. The FY 2024 ADC is \$34,724,251, or almost \$8.3 million higher than the amount calculated under the statutory funding plan.

The ADC is used in financial reporting but does not affect the certified employer contributions to GARS, which is certified by the Board pursuant to the statutory funding plan.

Attached is the draft FY 2022 actuarial valuation and the FY 2024 certification letter prepared by the System's actuaries. The actuarial valuation, membership data used in the valuation, and all calculations will be forwarded to the State Actuary for review.

Mr. William R. Hallmark, Cheiron, State Actuary

Re: Final Certification of TRS FY 2024 State Funding Requirement

Dear Governor, Legislative Leadership and State Actuaries:

At its meeting on December 6, 2022, the TRS board of trustees approved the final certification to the FY 2024 state contribution requirements and results of the June 30, 2022 actuarial valuation.

The contribution requirements and actuarial valuation results were submitted to the state actuary (Cheiron) for review, in accordance with Public Act 97-0694. The contribution requirements and the report were accepted by the state actuary. Cheiron continues to emphasize its concern about state pension financing. It recommends that the statutory "funding method be changed to fully fund plan benefits." (*State Actuary's Report, December 2022, page 6*)

TRS certifies two state funding requirements. One is based on Illinois statute and the other is based on the funding policy adopted by the TRS board. The board's policy, described below, is based on the TRS actuary's recommended methodology for determining contributions to a severely underfunded plan.

The certified contributions for FY 2024 both include \$300,000 in minimum benefit reimbursements and are detailed in attached Exhibit A:

- **Based on Illinois statute:** **\$6,043,454,650**
- **Based on TRS Board Actuarial Funding Policy:** **\$9,590,116,087**

Assumptions. The preliminary June 30, 2022 actuarial valuation report includes revised assumptions about the impact of the accelerated pension benefit programs originally contained in Public Act 100-0587 and extended by Public Act 102-0718.

Board Funding Policy. The TRS board's funding policy is based on an actuarial cost method (entry age normal) that assigns costs evenly over a teacher's career instead of backloading them like the statutory cost method (projected unit credit). The board policy funds all of the benefits

earned rather than 90 percent of them, and it amortizes the unfunded liability over a closed 20-year period, with subsequent increases in the unfunded liability amortized over subsequent 20-year periods. In contrast, the amortization period required by Illinois statute is a closed 50-year period.

Under the board's policy, state contributions are not limited by the state's debt service on the 2003 pension obligation bonds, and changes in actuarial assumptions are not retroactively phased in. The TRS actuary, Segal Consulting, estimates that compared to contributions required under the statutory method, the state would save over \$28.7 billion in financing costs for the period FY 2024-FY 2045 under the TRS board's funding policy.

Please contact TRS Director of Research Amy Z. Reynolds (areynolds@trsil.org) at 217.814.2272 with any questions about our certifications.

Sincerely,

R. Stanley Rupnik
Executive Director & Chief Investment Officer

To: Administration Committee
From: Tara R. Myers
Date: December 9, 2022
Re: State Contribution for Fiscal Year 2024

Overview

The proposed State contribution for Fiscal Year 2024 will be certified at \$2,133,335,000.

Section 15-165 (a-5) of the Illinois Pension Code requires the following: On or before January 15, the Board is required to certify to the Governor and the General Assembly the amount of the State Contribution for the next fiscal year (which begins July 1).

The Statutory contribution calculated by Gabriel, Roeder, Smith & Company (GRS) for Fiscal Year 2024 is \$2,203,828,000 (includes \$94,172,000 projected Retirement Savings Plan (RSP) State contribution).¹ The contribution is 40.42% of the \$5.2 billion assumed pensionable payroll for Fiscal Year 2024.²

The Statutory contribution is increased by the projected excess benefit arrangement (EBA) contribution required. For Fiscal Year 2024 the EBA amount is projected to be \$17,300,000. The estimated trust, federal, and other funds is projected to be \$65,500,000 for Fiscal Year 2024. The State contribution is reduced by the projected trust, federal and other funds and the employer normal cost contribution of the pensionable earnings that exceed the Governor's salary.

Combined State and Employer Contribution Amount	\$2,203,828,000
Less projected trust, federal and other funds	65,500,000
Less projected contributions from earnings that exceed Governor's salary	<u>4,993,000</u>
Net State contribution (including EBA) to be certified	\$2,133,335,000

Recommendation

Based on the recommendation of Gabriel Roeder Smith & Company, the amount of \$2,133,335,000 should be certified for Fiscal Year 2024 as the proposed State Contribution.

¹This is the gross State contribution. The certified State Contribution will be this amount less amounts estimated to be received from "trust, federal, and other" funds including contributions from earnings that exceed Governor's salary.

²Table 15 of the GRS Actuarial Valuation as of June 30, 2022.

APPENDIX NN
SERS Final Certification Letter for FY 2024

January 11, 2023

Governor JB Pritzker
207 Statehouse
Springfield, IL 62706

Dear Governor Pritzker:

Pursuant to Public Act 88-593, as amended, at a meeting held January 10, 2023, the Board of Trustees of the State Employees' Retirement System (SERS) certified an FY 2024 State contribution rate of 52.657% of projected payroll, or \$2,589,801,000. The FY 2024 certification includes \$2,472,697,000 for the State contribution to SERS and \$117,104,000 for debt service on the 2003 pension obligation bonds. Of the \$2,472,697,000 for the State contribution to SERS, \$574,251,000 is for the employer's portion of the expected FY 2024 normal cost. The remaining \$1,898,446,000 is due to the unfunded liabilities.

Consistent with the Governmental Accounting Standards Board (GASB) Statement No. 67, the SERS Board of Trustees adopted a funding policy, or Actuarially Determined Contribution (ADC) policy in 2015. The ADC provides for annual contributions that are equal to the annual normal cost of benefits earned plus amortization of the unfunded actuarial liability over a 25-year period as a level percent of payroll. The remaining amortization period is 17 years. The FY 2024 ADC is \$2,994,893,916, or \$522.3 million higher than the amount calculated under the statutory funding plan.

The ADC is used in financial reporting but will not affect the certified employer contributions to SERS, which will still be certified by the Board pursuant to the statutory funding plan.

Attached is the FY 2022 actuarial valuation along with the FY 2024 certification letter prepared by the System's actuaries. The actuarial valuation, membership data used in the valuation, and all calculations have been reviewed by State Actuary.

Very truly yours,

A handwritten signature in black ink that reads "Timothy B. Blair".

APPENDIX OO
JRS Final Certification Letter for FY 2024

January 13, 2023

Governor JB Pritzker
207 Statehouse
Springfield, IL 62706

Dear Governor Pritzker:

Pursuant to Public Act 88-593, as amended, at a meeting held on January 13, 2023, the Board of Trustees of the Judges' Retirement System (JRS) certified an FY 2024 State contribution of \$147,838,000, or 95.600% of projected payroll. Of the \$147,838,000, \$29,548,000 is for the employer's portion of the expected FY 2024 normal cost. The additional \$118,290,000 is due to the unfunded liabilities.

Consistent with Governmental Accounting Standards Board (GASB) Statement No. 67, the JRS Board of Trustees adopted a funding policy, or Actuarially Determined Contribution (ADC) policy in 2015. The ADC provides for annual contributions that are equal to the annual normal cost of benefits earned plus amortization of the unfunded actuarial liability over a 25-year period, as a level percent of payroll. The remaining amortization period is 18 years. The FY 2024 ADC is \$174,674,767, or \$26.8 million higher than the amount calculated under the statutory funding plan.

The ADC is used in financial reporting but will not affect the certified employer contributions to JRS, which is calculated and certified by the Board pursuant to the statutory funding plan.

Attached is the FY 2022 actuarial valuation along with the FY 2024 certification letter prepared by the System's actuaries. The actuarial valuation, membership data used in the valuation, and all calculations were reviewed by the State Actuary.

Very truly yours,

Timothy Blair

APPENDIX PP
GARS Final Certification Letter for FY 2024

January 11, 2023

Governor JB Pritzker
207 Statehouse
Springfield, IL 62706

Dear Governor Pritzker:

Pursuant to Public Act 88-593, as amended, at a meeting of the Board of Trustees of the General Assembly Retirement System (GARS) held on January 10, 2023, the Board certified an FY 2024 State contribution of \$26,474,000, or 267.710% of projected payroll. Of the \$26,474,000, \$1,526,000 is for the employer's portion of the expected FY 2024 normal cost. The remaining \$24,948,000 is due to the unfunded liabilities.

Consistent with Governmental Accounting Standards Board (GASB) Statement No. 67, the GARS Board of Trustees adopted a funding policy, or Actuarially Determined Contribution (ADC) policy in 2015. The ADC provides for annual contributions that are equal to the annual normal cost of benefits earned plus amortization of the unfunded actuarial liability over a 20-year period, as a level percent of payroll. The remaining amortization period is 13 years. The FY 2024 ADC is \$34,724,251, or almost \$8.3 million higher than the amount calculated under the statutory funding plan.

The ADC is used in financial reporting but does not affect the certified employer contributions to GARS, which is certified by the Board pursuant to the statutory funding plan.

Attached is the FY 2022 actuarial valuation and the FY 2024 certification letter prepared by the System's actuaries. The actuarial valuation, membership data used in the valuation, and all calculations were reviewed by the State Actuary.

Very truly yours,

Timothy Blair

RE: **Fiscal Year 2024 Certified Normal Cost and Health Insurance Contribution for the Public School Teachers' Pension and Retirement Fund of Chicago**

Dear Governor Pritzker and Leaders of the Illinois General Assembly:

Pursuant to 40 ILCS 5/17-127(f) of the Illinois Pension Code, this letter and the enclosed Actuarial Report shall serve as formal notification of the Fiscal Year 2024 State of Illinois contribution for normal cost and health insurance contribution to be made to the Public School Teachers' Pension and Retirement Fund of Chicago ("CTPF" or the "Fund").

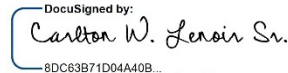

The certified Fiscal Year 2024 State of Illinois contribution to the CTPF is \$308,147,000 as noted in the table below:

Fiscal Year 2024	Dollar Amount
Certified FY 2024 Normal Cost and Health Insurance Contribution Pursuant to Sections 17-127(d)(2) and (e) of the Illinois Pension Code	\$ 308,147,000

Enclosed is a copy of the Actuarial Report prepared by the Fund's actuary, Gabriel, Roeder, Smith & Company, detailing the State contribution requirements pursuant to Sections 17-127(d)(2) and (e) of the Illinois Pension Code for Fiscal Year 2024. For additional information, please see pages 7 and 8 of the Actuarial Report. The Actuarial Report contains the actuarial certification, recommendations, and assumptions.

If you have any questions, please do not hesitate to contact me at 312-332-3338.

Best regards,

*RE: State of Illinois Additional Contribution Pursuant to 40 ILCS 5/17-127(c) for
Fiscal Year 2024: **\$14,564,000***

Governor Pritzker, Comptroller Mendoza, and Leaders Welch, and Harmon:

This letter and the enclosed Actuarial Report shall serve as formal notification of the additional State contribution pursuant to Section 17-127(c) of the Illinois Pension Code to be made to the Public School Teachers' Pension and Retirement Fund of Chicago ("CTPF" or the "Fund") for Fiscal Year 2024.

Additional State Contributions

According to Section 17-127(c) of the Illinois Pension Code (the "Code"), the State shall make additional contributions of 0.544% of payroll to the Fund to offset a portion of the cost of benefit increases resulting from Public Act 90-0582, provided that no additional contributions are required if for the previous fiscal year the ratio of the Fund's assets to total actuarial liabilities was at least 90%. This contribution is in addition to the State's normal cost and health insurance contribution pursuant to Section 17-127(d)(2) of the Code.

Based on the June 30, 2022, actuarial valuation, the ratio of the Fund's actuarial value of assets to total actuarial liabilities is 46.78%. Accordingly, additional State contributions pursuant to Section 17-127(c) of the Code will be made for Fiscal Year 2024. The Fund's actuary determined that the additional State contributions under Section 17-127(c) of the Code will be **\$14,564,000**.

Enclosed is a copy of the Actuarial Report prepared by the Fund's actuary, Gabriel, Roeder, Smith & Company, detailing the additional State contribution requirements pursuant to Section 17-127(c) of the Code for Fiscal Year 2024. Please see page 8 of the Actuarial Report for additional information. The Actuarial Report contains the actuarial certification, recommendations, and assumptions.

If you have any questions, please do not hesitate to contact me at 312-332-3338.

Best regards,

COMMISSION OVERVIEW

The Commission on Government Forecasting & Accountability is a bipartisan legislative support service agency responsible for advising the Illinois General Assembly on economic and fiscal policy issues and for providing objective policy research for legislators and legislative staff. The Commission's board is comprised of twelve legislators—split evenly between the House and Senate and between Democrats and Republicans.

The Commission has three internal units—Revenue, Pensions, and Research, each of which has a staff of analysts who analyze policy proposals, legislation, state revenues & expenditures, and benefit programs, and who provide research services to members and staff of the General Assembly. The Commission's staff fulfills the statutory obligations set forth in the Commission on Government Forecasting and Accountability Act (25 ILCS 155/), the State Debt Impact Note Act (25 ILCS 65/), the Illinois Pension Code (40 ILCS 5/), the Pension Impact Note Act (25 ILCS 55/), the State Facilities Closure Act (30 ILCS 608/), the State Employees Group Insurance Act of 1971 (5 ILCS 375/), the Public Safety Employee Benefits Act (820 ILCS 320/), the Legislative Commission Reorganization Act of 1984 (25 ILCS 130/), and the Reports to the Commission on Government Forecasting and Accountability Act (25 ILCS 110/).

- The **Revenue Unit** issues an annual revenue estimate, reports monthly on the state's financial and economic condition, and prepares bill analyses and debt impact notes on proposed legislation having a financial impact on the State. The Unit publishes a number of statutorily mandated reports, as well as on-demand reports, including the *Monthly Briefing* newsletter and annually, the *Budget Summary*, *Capital Plan Analysis*, *Illinois Economic Forecast Report*, *Wagering in Illinois Update*, and *Liabilities of the State Employees' Group Insurance Program*, among others. The Unit's staff also fulfills the agency's obligations set forth in the State Facilities Closure Act.
- The **Pension Unit** prepares pension impact notes on proposed pension legislation and publishes several reports including the *Financial Condition of the Illinois State Retirement Systems*, the *Financial Condition of Illinois Public Pension Systems* and the *Fiscal Analysis of the Downstate Police & Fire Pension Funds in Illinois*. The Unit's staff also fulfills the statutory responsibilities set forth in the Public Safety Employee Benefits Act.
- The **Research Unit** primarily performs research and provides information as may be requested by members of the General Assembly or legislative staffs. Additionally, the Unit maintains a research library and, per statute, collects information concerning state government and the general welfare of the state, examines the effects of constitutional provisions and previously enacted statutes, and considers public policy issues and questions of state-wide interest. The Unit publishes a monthly Grant Alerts report and an Abstracts Report of annual reports or special studies from other state agencies. Other reports include the *Illinois Tax Handbook for Legislators*, *Federal Funds to State Agencies*, *Preface to Lawmaking*, various reports detailing appointments to State Boards and Commissions, the *1970 Illinois Constitution Annotated for Legislators*, the *Roster of Illinois Legislators*, and numerous special topic publications.

The Commission employees approximately 27 full-time employees and may have between 1 and 4 interns depending on the year. The Commission's operating budget totals \$4,514,600. The Commission operates out of a single office located at the address below.
