Re: New DHS Plan to Close Tinley Park Mental Health Center

Dear Chairmen Schoenberg and Myers:

I write in support of the request by Mental Health America of Illinois (MHAI) that the Commission on Government Forecasting and Accountability re-open its review of the Department of Human Services (DHS) decision to close Tinley Park Mental Health Center.

DHS is now seeking to convince existing private hospitals to serve the clients currently being served by Tinley Park so that the facility may be closed without building a replacement facility. Unfortunately, DHS has failed to solicit any input from stakeholders on the wisdom of this dramatically different proposal or on how this proposal should be implemented.

The plan was not presented to the Illinois Mental Health Planning and Advisory Council, which is mandated under federal law to advise the state on all mental health policy questions. Nor was input solicited from any of the other advocacy organizations in the state, such as Next Steps, the National Alliance on Mental Illness, Mental Health America of Illinois, or the Mental Health Summit.

On behalf of all Illinois citizens concerned with the availability of mental health care in this state, I respectfully ask the Commission on Government Forecasting and Accountability to re-open its review of the proposal to close Tinley Park Mental Health Center and require DHS to present its new plan to Illinois Mental Health Planning and Advisory Council in order to accomplish that review.

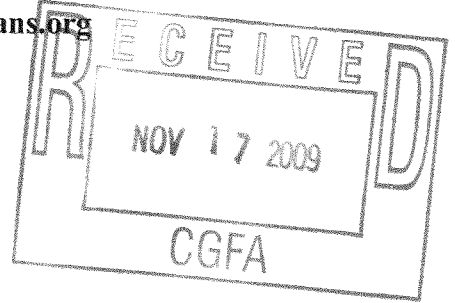

Sincerely

Richard Wilson
